

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggy, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

The best kind of a testimonial—'Sold for over sixty years.'

THE CURING OF CHEESE

At the last meeting of Brockville Dairymen's Board of Trade, Mr. M. K. Everts brought up an important matter relating to the shipment of cheese not properly cured. The Times says: He drew attention to the fact that other boards such as Picton, Belleville, Peterborough, etc. had passed resolutions binding their members not to ship any cheese that had not been cured for at least ten days and, moreover, had caused notice of the passage of such resolution to be given not only to the exporters at Montreal but also to the consignees in England. In this way these boards had taken legitimate and business like action to enhance the value of the reputation of the goods they were forwarding to market and the speaker thought it was time for the Brockville board to take similar action. He therefore moved seconded by Mr. Stinson that the members of the Brockville Dairymen's Board of Trade hereby pledge and bind themselves to refrain from shipping any cheese that shall not have been cured for at least eight days before shipment.

J. B. Webster supported Mr. Everts' resolution saying he had no doubt whatever that it would be beneficial in its results if lived up to as should be. So firmly was he of this opinion that even before the resolution was introduced he had in the factories, under his own control, established for the past three weeks a rule that no cheese should be shipped before being cured at least eight days and had published notice of this rule in this Gananoque newspaper.

Following discussion and the offering and withdrawal of an amendment, the motion was put and carried unanimously.

A Political Forecast

Toronto News: Prominent Ontario Liberals are frankly looking for a general reorganization of the Dominion Cabinet on the return of Sir Wilfrid Laurier.

The feature of this proceeding, which will have special interest to this Province, will be the probable invitation to Hon. George P. Graham, the leader of the Liberal Opposition in the Legislature to become one of Sir Wilfrid's ministers before he next goes to the country.

That this will take place is the general anticipation of prominent Liberals who stand high in the councils of the party.

Mr. Graham is thought to have made a success of his short leadership of the Provincial forces. He has grown in public favor, and his campaign of meetings has demonstrated his platform strength.

Recuperative Effect

Considered with reference to its recuperative effect, there is not so much good in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla. The latter costs \$1.; the former, well, that depends; how much did yours cost last year? Hood's Sarsaparilla refreshes the tired blood, sharpens the dulled appetite, restores the lost courage.

Local and General

There was a large offering of cheese in Brockville on Saturday last and the ruling price on the board was 11 5-16c. Comparatively few were sold, and on adjournment of the board the kern artists started hunting for equally good or better terms. For once, they were disappointed, for the ruling price dropped to 11 1/4c. The ruling price on this board for the corresponding week last year was 11 3/8c.

On Saturday last, Vera, the youngest daughter of Mr. and Mrs. S. E. Barnes, was badly injured. The little girl, aged 7 years, went to the stable to tie up the dog when the animal attacked her most ferociously, biting and lacerating her face in a horrible manner. Several stitches were required to close the gaping wounds. The little patient is now reported as doing well. The dog had not previously shown any vicious traits.

Mr. William Spence, Overseer of Fisheries for Charleston Lake and its tributaries, states in the annual report of the Fisheries Department, Ontario, "that the salmon fishing has been very good, but black bass has been very scarce. He thinks it would be a great benefit if bass could be put in the lake." Bass certainly "could" be put in the lake, and a little activity on the part of those chiefly interested in the fishing at that resort would probably result in a supply being sent this season. Last year the government placed 5,485 bass in lakes north of Toronto.

Only two ratepayers have entered appeals against the assessment roll as finally revised. In view of the fact that the council went to considerable trouble and expense in revising the roll, there seemed a general feeling that their work should stand for this year. The assessment roll was last week printed in pamphlet form and it is now being eagerly read by the ratepayers. Those who have not received a copy should obtain one from the village clerk. While this printed roll was issued too late to be of any great service this year, it should be carefully studied in order that all citizens may be in a position to aid in an equitable adjustment of next year's roll.

On Thursday last Mrs. Orme Jackson of Plum Hollow met with a serious mishap. She was pumping a pail of water when the covering of the well gave way and she was precipitated into the water. The well is about 25 feet deep and was about half filled with water. She had taken her little child to the well and its cries attracted the attention of a girl in the house, who investigated and promptly gave the alarm. Mr. Jackson and other men were quickly on the spot and a ladder was lowered and Mrs. Jackson in a semi-conscious condition was brought out. Her condition has since been serious, as in addition to the great shock to her nervous system she was injured internally.

PLAYING CARDS.

Peccabilities of Those Used by the Different Nations.

"One of the most interesting collections of foreign lot that I've seen recently," said a man ordinarily too busy to make the trip over the seas himself, "is an assortment of playing cards from various parts of the world. In every country the owner of the collection visited—and he went to a good many—picked up cards of local manufacture and so representative of the nation.

"The Russian cards are perhaps the most elaborate. The faces of the kings and queens are different in each suit, indicating the racial elements that go to compose the empire.

"On the Greek cards classical heroes and heroines are represented. Nestor, for example, is the king of hearts; and the king of clubs, Hercules the jack of spades and Minos and Danae the king and queen of diamonds. The Greek pack is rather a cheap one and scarcely does honor to the celebrities portrayed.

"Cadiz is a center for card manufacturing. The idea of the Spanish card-maker seems to be to get as much color on the cards as possible. The royal robes are of unusual magnificence. The clubs are big birds in green and red, and the knave of clubs, gayly caparisoned on a prancing horse, reminds you instantly of Jack the Giant Killer. The spades are ugly little daggers, and for hearts and diamonds there are disks and dice cups. The cards in some of the Spanish packs are very thin and have a capital spring.

"The Madeira cards come from Lisbon. The figures are more conventional in design than in the Spanish. The ace cards are adorned with typical Portuguese scenes.

"A peculiarity of the great length of the cards is that the ace of clubs, diamond, club or heart in the covered deck, is held in the center of the deck, but held and lower right hand corner.

"The Russian face cards portray decidedly gloomy personages. Features of the face-cards, by the way, are in small print the name and address of the maker. These are tiny packs, an inch and a quarter by an inch and three-quarters in size, which can be bought on the streets of Naples for a sou. These resemble the Spanish cards to some extent, although the royalties are more dignified.

"Castro is a great card-emporium, and Mosky street offers rich returns to the card hunter. Fortune telling cards must be in demand there, to judge from the samples I saw in the collection. The Castro playing cards come mostly from Germany. They are brilliant in their coloring. The ace-carry scenes from lands both west and east.

"The gam of all the packs comes from Switzerland. The cards are small, one and three-quarters by two and a half inches in size, and the back design is the elaborate. The kings, queens, and jacks are distinguished in Swiss costume, and the purchaser certainly gets his money's worth, for each face card has two half figures quite unlike. On the ace are Swiss scenes and objects of interest, also two to a card, the subjects including the castle of Chillon, the Matterhorn, the bridge of Rapperswil and the Lake of Geneva."

Notice to Creditors

REMARKABLE INVENTION FOR THE CULTURE OF HAIR

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

60 DAYS' FREE TRIAL!

The Company's Guarantee

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand without questions or comment, at any time during the trial period.

The eminent Dr. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots), without resorting to any irritating process, the problem of hair growth would be solved. Later on when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable. An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

FRIENDSHIP WHAT DOES IT COST YOU

A few days ago two farmers off the B. & W. were seen comparing each other's suits.—The taller man said, "You were beat out of \$8.00. Why don't you try Semi-Ready?" The other replied that he was a personal friend of this other merchant and did not like to go past him.

His friendship cost him \$3.00.—You say he was an easy mark, and so he was and yet the bush is full of such people.

Reader, if you buy your clothes at any old price because of friendship, you pay too much—the price is too high for what you get.

Price and Quality are Our Best Salesmen

Style and fit we throw in gratis. Sir, will you hold on to your friendship, but purchase your next suit from the man that offers you the best for your money? Will you make up your mind right now so that when you purchase again you will give your money where it belongs, not to the man that can smile the broadest (friendship), but to the man that puts up the best bid for your custom. Do it now.—If not, why not?
