

Nature's Own Great Skin Healer

Ancient Greece and Rome will always be remembered for the fine types of manhood found on the battlefields and in their arenas, but perhaps these manly men themselves will be most remembered because of the valuable custom they bequeathed to later ages of healing sore and injured places on their bodies by the external application of secret balms or salves. The charioteers, gladiators and wrestlers seldom emerged from their contests without some severe bruise or gaping wound; and to anoint each injury carefully with their favorite balm was an indispensable part of the day's programme. If we go back in history we find that this external rubbing has prevailed right from the earliest times, and the only explanation of its survival amidst so many changes in science, seems to lie in the fact that the external use of salves and balms is dictated to us by nature herself. Our own instinct tells us to rub a part that hurts, and in Zam-Buk the ideal substance to apply to an injured or diseased surface is universally believed to have been found at last. The objection to ointments, salves, liniments and embrocations has hitherto been that they are imperfect in their action, and frequently contain quantities of rancid animal fat and mineral products of a harmful nature. A simple yet novel theory provided the way out of the difficulty. This was that Nature, having given to man the instinct to rub, might well be supposed to have secreted somewhere the proper substance to rub

with, and a search amongst certain rare medical herbs showed how some of them could be made to yield gums and juices possessing healing, soothing and antiseptic properties of a wonderful order. Many experiments were made with mixtures or blendings of these juices, and Zam-Buk, a combination with astonishing powers as a healer and antiseptic, was eventually secured.

Whoever watches the healing of a wound or sore with Zam-Buk is face to face with one of Nature's greatest wonders. The healing process thus set in motion is nothing but a phenomenon of regeneration—a natural process of replacing destroyed tissues by new ones. The antiseptic substances contained in Zam-Buk first attack and kill off the microbes or germs that are the cause of inflammation of disease, and then the healing ingredients proceed to build up new tissue to replace that which has been damaged or lost. New cells appear like a builder extending a new row of houses; the whole of the wounded area is gradually overlapped, and soon it is difficult to tell where the injury has been, so perfect and complete is the growth of the new skin.

Zam-Buk is a household necessity. For skin disease, or injuries in home, factory, field or workshop, Zam-Buk can be confidently recommended as well for its general efficacy as for its wholesomeness, its power and purity.

To the woman in the home Zam-Buk is the "good fairy." Are her hands raw and chapped—she rubs in Zam-Buk. Are her feet sore with being on them all day—Zam-Buk cools and eases. An eruption breaks out on her face—Zam-Buk removes all skin disfigurements like magic. Baby's skin is chafing and hot—Zam-Buk is the purest and most wholesome emollient known. Her little boy cuts his finger, or her daughter burns her hand—Zam-Buk again is the healer. The father at the factory, or on the farm, gets a nasty cut or bruise—Zam-Buk stops bleeding, stops the smarting, allays inflammation and heals.

So it comes about that Zam-Buk is the greatest and most universally used balm in all the countries where it has been introduced. You are now, for the first time, offered the opportunity of purchasing it in Canada.

FREE SAMPLE BOX—A dainty free sample box of Zam-Buk will be sent to applicants for same who cut out this coupon and forward it, with one cent stamp (to pay return postage) and full name and address to THE ZAM-BUK CO., COLBORNE STREET, TORONTO.

ECZEMA CURED

A TORONTO MAN'S EXPERIENCE

Mr. George Rhinehart, of 210 Wilton avenue, Toronto, says: "Eczema broke out on my arm, the calf of my leg, and on the back of both hands. I had sore and inflamed patches on these parts, which caused me great pain and which, despite all the ointments and salves I tried, showed no signs of getting better. My wife advised me to try Zam-Buk, which, being purely herbal, we thought would be better than anything else we had tried. I bought a box, and it proved to be so. Zam-Buk from the first improved my condition, and in a short time rid me of all traces of eczema. The sores are now completely healed, Zam-Buk having succeeded in effecting a cure when all else had failed."

WHAT ZAM-BUK CURES

Zam-Buk is a pure, refined balm of extraordinary power. It expels disease from the system and virtually creates new, healthy skin. It is especially valuable for cuts, bruises, burns, running sores, ringworm, scalp irritation, eczema, psoriasis, sore backs, abscesses, boils, pimples, cracks, chafing, chills, festering sores, poisoned wounds, scalds, piles, stiffness, swollen joints, sore throat, aching feet, sprains, rheumatism and all nerve pains. Obtainable from all druggists at 50 cents a box, or post free from THE ZAM-BUK CO., COLBORNE STREET, TORONTO, upon receipt of price. Six boxes for \$2.50.

FRAUDULENT, SAYS FOY.

First of the Cobalt "Blanketing" Cases Is Being Heard.

Toronto, May 17.—Edward C. Hargrave, Bay City, Mich.; C. C. Williams, Montreal; F. N. Rutherford, Niagara Falls, and the White Silver Co., Toronto, are defendants in the first of the Attorney-General's actions to set aside the granting of leases for certain lands in Cobalt, which came before Judge Boyd yesterday.

Affidavits made by Rutherford and Hargrave to the effect that they made the discoveries of valuable mineral products on leased lands in the Township of Coleman, which were taken over by White Silver Co. of Toronto, are claimed by the Attorney-General to be fraudulent.

Frank B. Haines, prospector, is chief among the 30 odd witnesses subpoenaed. It is alleged that Haines prospected while snow was on the ground, and that his staking is illegal. He however, states that he was over the ground previous to November, and while the ground was clear. His cross-examination by counsel will take place to-day.

CAUSED BY BAD TOOTH.

Operation on Dr. Reumeau at Windsor Is Quite Successful.

Windsor, May 17.—Hon. J. O. Reumeau, Minister of Public Works for Ontario, was operated on yesterday morning in the Hotel Dieu, Windsor, for a growth in his mouth.

Dr. C. W. Casgrain, assisted by Dr. Daniel La Ferte of Detroit, performed the operation, and the physicians say that it was entirely successful. They found that the trouble had been caused by a decayed tooth.

For some time past Dr. Reumeau has been suffering intense pain from the growth, but he disliked to undergo the operation on account of the many demands made on his time on account of the Legislature being in session.

Operation Was Successful. The doctor is resting easily and quietly. This was the reassuring wire received yesterday afternoon by the Premier regarding the operation.

HAVE GOT TRAIN ROBBERS.

Little Room For Doubt Men Arrested Are Right Ones.

Victoria, B. C., May 17.—Advice to the Attorney-General's office yesterday indicates that there is little room for doubt that the three men arrested near Douglas Lake, Grand Prairie, and taken to Kamloops Tuesday afternoon, are the perpetrators of the C. P. R. hold-up.

They gave the names of George Edwards, aged 42; Lewis Colquhoun, who says he is a Canadian, and an account-

ant by profession; and Thomas or "Shorty" Dunn, the only one who resisted arrest. He received a bullet in the leg. Dunn declares himself ignorant of his own nationality, and as to residence "anywhere and everywhere."

SITUATION IN MANCHURIA.

Distrustful Attitude of Japanese Toward Russian Troops.

Tokio, May 17.—The Premier, Marquis Saionji, has returned from his trip of inspection in Manchuria. It is expected that his report will suggest a solution of the deadlock between the military and civil authorities over the best means of settling the Manchurian difficulties.

The Japanese and Russians in Manchuria are closely watching each others' movements. The Japanese apparently will not evacuate that territory before they are assured that the Russians will leave it, in accordance with the stipulations of the Portsmouth treaty.

Fights to Honor Gorky.

New York, May 16.—The Herald says: Men and women fought for a chance to shake hands with Maxim Gorky at the close of an address to more than 2,000 persons in the Labor Lyceum, Williamsburg, Monday evening. Many were bruised.

BE DONE WITH CATARRH!

Why allow this filthy disease to poison your system? It drains your strength, ruins digestion, pollutes the breath, makes you repulsive. The one certain cure is "Catarrhazone." It cures because it destroys the cause of the disease, cures thoroughly because it goes wherever the catarrh is, cures every case because its vapor destroys the catarrh germs instantly. To get well and stay free from catarrh get Catarrhazone and use it; satisfaction guaranteed.

WHARFS BUT NO BOATS

Improper Expenditure of Public Money Debated.

Mr. Blain (Peel) Moves the Condemnation and Regrets of the House and Furnishes Scandalous Instances of Public Money Gone to Waste—"Arm of the Lake" Which Was a Meadow and Grew Hay.

Ottawa, May 17.—On motion to go in supply in the House yesterday, Mr. Blain (Peel), moved an amendment that "this House condemns the expenditure of public money for purposes not contemplated or authorized by Parliament and especially regrets that any sums voted for the construction of public works should have been expended for purposes not contemplated or authorized."

He said that, at the instance of some friend, from Montreal, Sir Wilfrid Laurier, in the absence of Mr. Tarte, then Minister of Public Works, had ordered a survey for a wharf at St. Joseph, on Lake Huron, a small hamlet, without shipping of harbor. The member from that riding, although a Liberal, had protested against spending the \$5,000 as an absolute waste of money.

The Government had persisted and the wharf had cost \$15,000. No boat had ever used it. He gave several other instances of a similar sort, and declared that the Government had virtually invited party workers to think up schemes to loot the treasury.

Mr. Tobin (Liberal, Richmond and Wolfe), in whose riding the bridge was built, said in effect that Disraeli was bluff, and that Mr. Blain's informant was a member of that party. The principal informant upon whom Mr. Blain relied had made the Speaker an improper proposition respecting the timber to be used in the wharf. He said that Mr. Blain had been playing detective.

Mr. Lemieux (Nicolet) said these were old stories about St. Joseph, Grand Valley and Disraeli. He admitted that he had induced the Laurier Government to build several wharves, but they were badly needed.

Mr. McKim (Jacques Cartier) said this Grand Valley wharf was so inconveniently situated that it did not serve as a shelter for fishermen, and indeed no one used it except Americans who were exploiting the timber limits that had formerly belonged to Mr. Lovel (Stanstead).

Mr. Hyman, Minister of Public

Works, said that all Governments made local improvements. In Quebec and the Maritime Provinces, these naturally run to the building of wharves, wharves, etc. As to the wharf at St. Joseph, that had been a disapp pointment. The Grand Valley wharf, he thought, had been sufficiently defended by Mr. Lemieux.

The Disraeli affair troubled the Minister not a little. He referred to alleged soundings taken at Lake Aylmer. But when members pointed out that Lake Aylmer was several miles distant, insisted that this was an "arm of the lake."

This brought to his feet Mr. Morin (Dorchester). "It is a meadow," he protested. "My cousin raised two tons of hay on it."

This raised a general laugh, and Mr. Hyman promised to call on the engineers.

Mr. Borden said that the Minister had made no defence. He could not and would not say that a single steamer had ever touched at Disraeli since the village was founded. By the report of the Minister, the improvement as described was virtually a bridge.

Hon. Mr. Fisher and Mr. Morin (Conservative, Dorchester) closed the debate.

Budget Speech Tuesday.

Mr. Fielding, Minister of Finance, announced that the budget will be brought down on Tuesday next.

The private bill to incorporate the Woman's Art Association was with drawn to-day.

Mr. Brodeur, Minister of Marine and Fisheries, in reply to Mr. Northrup (East Hastings), admitted that during the past ten minutes there had been paid to George Merwin and to his firm, L. F. Brooks & Co., \$175,000. In addition, there is still nearly \$25,000 due for supplies.

The House in committee considered Mr. Oliver's bill respecting placer mining in the Yukon Territory. The act seeks to encourage prospecting, and to protect the miner in his rights.

SPRAINED HER ANKLE.

"I slipped on an icy step and sprained my right ankle very badly," writes Miss Minnie Burgoyne, of Glenwood. It swelled to a tremendous size and caused intense pain. I applied Polson's Nerviline and got prompt relief; the swelling was reduced, and before long I was able to use my foot. For sprains, swellings and muscular pains Nerviline is the one sure remedy. Strong, penetrating, swift to destroy pain—that's Polson's Nerviline. Fifty years in use.

De Marco Not Guilty.

Toronto, May 17.—Samuel Barron—attempted rape—five years in Kingston penitentiary.

Charles de Marco—murder—not guilty—discharged.

After considering the evidence for nearly three hours, the jury, decided Charles de Marco was not guilty of killing Charles Hoban on Sept. 4 last. De Marco at a previous trial was found guilty. Judge Anglin pronounced the sentences.

NERVOUSNESS A CALAMITY.

Many who don't realize what lies beyond, treat an attack of the "nerves" with information. Others consider it will soon pass away. But in every case nervousness is a calamity. Only one remedy will cure—Ferrozone—a nerve strengthener that acts through the blood. First it gives you appetite—you eat plenty. This fills the blood with nourishment and strength is instilled into every part of the system. You get well—keep well—nervousness forever departs because you've used Ferrozone. Price 50c. per box of fifty tablets at all dealers.

Vesuvius Shooting Sand.

Naples, May 17.—Prof. Matteucci, director of the Royal Observatory, telegraphed yesterday that the volcanic activity of Mount Vesuvius is increasing and that the main crater is discharging a great quantity of sand. The professor added that it was impossible on account of rain to explore the volcano.
