

RHEUMATISM IN THE BLOOD

Cure it by Enriching the Blood With Dr. Williams' Pink Pills.

There is only one way by which rheumatism can be cured. It must be treated through the blood. Liniments and outward applications may give temporary relief, but they can't possibly cure the trouble. And while you are experimenting with liniments the trouble is every day becoming more firmly rooted in the system, and more difficult to cure. The poisonous acid that causes rheumatism must be driven out of the blood, and you can only do this by making new, rich, red blood through the use of Dr. Williams' Pink Pills.

Mr. Chas. H. Lumley, of Brickford, Ont., is one of the best known farmers in Lambton county. About three years ago, while Mr. Lumley was engaged in threshing, he became overheated, and this was followed by a severe chill that started the rheumatic pains. Mr. Lumley says: "I did not think anything of it at the time, as I was accustomed to being exposed to all kinds of weather. As a result I was unable to go about next morning. I had severe pains in my arms and legs which I treated at first with the usual home remedies. As these did not help me, and the trouble was growing worse the family doctor was sent for, but he did not have any better success. He told me I was suffering from a severe attack of rheumatism, and there could be no doubt about it, as I was confined to my home about four months before I was fortunately advised to try Dr. Williams' Pink Pills. I sent for a supply, and it was not long before I found they were helping me, and by the time I had taken a half dozen boxes the trouble had entirely disappeared. In other respects the pills also greatly improved my health, and I never felt better in my life than I have since taking them. I therefore most cheerfully recommend Dr. Williams' Pink Pills to other similar sufferers."

Dr. Williams' Pink Pills make cures of this kind after doctors and common medicines fail, because they actually make new blood. They don't cure the mere symptoms. They go right to the root of the trouble in the blood. That is why this medicine cures anemia, indigestion, neuralgia, palpitation of the heart, and the headaches and back aches brought on by the ailments that fill the lives of so many women with misery. Do not take any pills without the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around the box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

MUSIC AND INSANITY.

Some Instruments Useful in Some Cases, Harmful in Others.

The effects of music on both the sane and insane depend more on the kind of instrument or instruments employed than on the variety of the musical production, writes a physician in the Medical Journal.

Strings and horns have a soothing effect; more stirring effects are obtainable from wooden wind instruments; more enlivening yet from brass; and the most agitating and thrilling of all from drums and the upper octave instruments, such as the piccolo.

A string orchestra when playing lively dance music caused some increase in pulse and blood pressure and an awakening of attention among the depressed, and increased notably among the excited. Such instruments as strings and horns, especially playing soft or plaintive music, would be positively harmful in depressed conditions, but are useful in some mania cases, etc.

It has been noted lately in experiments on the effects of music on breathing that in the normal individual, listening to organ music, major or minor, loud or soft, shortens the respiratory pause and makes the breathing faster and shallower.

In hospital practice I found it useful to substitute the concert orchestra for ward purposes, using certain combinations for certain cases, depending on effects desired, as previously described. Patients should also be allowed freedom of movement during concerts. Palliative effects at least are nearly always obtainable.

In matters of amusement, diversion and occupation, in disordered mental states, it is found necessary to have variety. The same diversion cannot as a rule be long used with the same patients.

If physical training is utilized, various methods are employed; music may be used to accompany the exercises, and the music and instruments may be varied. Baseball games interest the entire household and cause diverting conversation. The same is true in these hospitals, respecting pool and billiard and bowling matches; and the benefits of patients' dances have been a matter of common observation and comment for years.

Rhythmic exercises, such as bicycle riding on level ground, are useful in states of partial exhaustion and in the spasmodic neuroses. Golf is frequently prescribed in many nervous disorders as a form of exercise, the dosage of which is easily regulated.

Callisthenic drills to increase the attention are apt to be too exhausting for mental cases unless sufficient reaction time is permitted, or the teacher accompany his commands with a performance of the same movements himself, thus permitting imitation, which is not accompanied by nearly as much mental exhaustion as the close and prolonged fixation of the attention demanded by following rapid commands only.

Duplicate what I have found of immense value in many mental cases of long standing in which there is not much deterioration. It controls the attention for considerable periods, to the exclusion of annoying delusions and hallucinations.

Many hospitals are provided with pedagogic schools, the object of which is the awakening and re-education of dormant energies by actual participation in study or discussion. Spelling and mental arithmetic; geography of countries and places of special current newspaper mention; reciting or reading aloud—all have their value.

ILLS OF CHILDHOOD, HOW TO CURE THEM

There is no medicine can equal Baby's Own Tablets for the cure of such ills of babyhood and childhood as constipation, indigestion, diarrhoea, colic, simple fever, worms and teething troubles. When you give this medicine to your little ones you have the guarantee of a government analyst that it is perfectly safe. Mrs. Thos. Mills, Ethel, Ont., says: "I have used Baby's Own Tablets for my little boy and find them just the medicine needed to keep babies healthy. They are easy to take and always do good." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rats have disappeared from Little Cumbray, where, before the recent experiments with a disease fatal to them, they were so thick as to almost preclude the habitation of the island.

The largest serpent ever measured was an anaconda, which Dr. Gardner found dead in Mexico. It was 37 feet long, and it took two horses to drag it.

HEALING POWER OF PINE

If you have ever taken a walk through a pine forest, you will remember how, almost unconsciously, the head was thrown back and lungs expanded as you drew in, with long deep breaths, the pine-laden air. How invigorating it was—how healing!

Thousands of men and women suffering from lung and bronchial affections, but whose circumstances prevent them from seeking renewed health in the pine forests, can be relieved and cured in their own home by using Virgin Oil of Pine (pure). This preparation contains all the health-giving properties of the forest trees, and will break up a cold in 24 hours and cure any cough that is curable. It is also a perfect neutralizing agent for uric acid, and affords speedy relief in cases of rheumatism, lame-back, or other affections resulting from disordered kidneys.

Virgin Oil of Pine is put up in 3/4-oz. each vial enclosed in a round wooden case to prevent breakage and exposure to light. This case is sealed with an engraved wrapper showing the name—Virgin Oil of Pine (pure). Prepared only by Leach Chemical Co., Windsor, Ont.—plainly printed thereon. It is the best to get the genuine. Should you be unable to get it, you can have a 3/4-oz. vial mailed to you by sending 50 cents to the Leach Chemical Co., Windsor, Ont.

FROM ERIN'S GREEN ISLE

NEWS BY MAIL FROM IRELAND'S SHORES.

Happenings in the Emerald Isle of Interest to Irishmen.

James Heard, of Merton Park, Ont., says: "While employed at the Specialty Works of Newmarket 6 or 7 years ago, I bruised my ankle; but through neglect this bruise turned to an ulcerated or burning sore which caused me a great deal of suffering. I tried a great number of doctors, and was in the hospital four times. I tried almost everything, but nothing did me any good. I could not sleep at night with the scalding and burning pain, but from the first application of Zambuk I never lost any sleep, and felt nothing more of it than if I hadn't had any sore at all. I started applying it to my ankle, and in a few days my ankle is now as sound and well as ever it was. I cannot speak too highly of Zambuk."

Zambuk cures cuts, burns, chapped hands, chafings, cold sores, itch, chilblains, eczema, running sores, sore throat, bad chest, ringworm, piles (blind or bleeding), bad legs, inflamed patches, rheumatism, neuralgia, sciatica, abscesses and all diseased, injured and irritated conditions of the skin. Obtainable of all druggists and stores, 50c. or post-paid upon receipt of price from Zambuk Co., Toronto.

Four men and two women have been arrested in Belfast, charged with the offence of being in possession of a large quantity of spirit-stone.

Two Belfast constables, sent to arrest a lunatic of the name of Dougan, had a strenuous time before they effected the capture. The man was armed with a razor, and both policemen received bad cuts.

The Belfast health authorities report another outbreak of spotted fever in that city. Owing to the use of a new serum, the death rate has, however, been reduced to thirty per cent., as against seventy per cent. in last year's epidemic.

Investigation into the irregularities in the Belfast treasury department has revealed a defalcation of £6,800 in three weeks alone. It is thought that the total shortage will be about £15,000.

Awakening from sleep, Rev. Lindsay Cullen, of Bangor, County Down, said that he was issuing from the lin pipe and the furniture in flames. Though almost overpowered, he managed to escape and turn in an alarm.

On the recommendation of the Earl of Carylston, H. M. L. for the County of Wicklow, the Lord Chancellor has appointed Mr. Christopher Charles Herbert Hill, of Knockree, Roundwood, to be a justice of the peace for that county.

The bridge which connects Cruil Island with the mainland collapsed while a number of young people had assembled on it for a dance, many of them being thrown into the sea.

Since the institution of a bath at Ballymaney workhouse only eight tramps went through the ordeal, and were received in the workhouse, compared with fifty tramps received in the corresponding week of last year.

Mrs. Margaret Fagan, of Cummings-town, West Meath, has just passed away at the age of 104 years.

It is reported from Dublin that the Duke line of steamers has been purchased by G. & J. Burns for the sum of £140,000.

In an address in Belfast General Booth announced that a lady gave him £20,000 for his social work, and had earmarked it for that purpose.

At Doncaster Geo. Percy Finn, an under-factor at Milton Hall, was committed for trial, charged with stealing a diamond tiara, the property of his mistress.

In endeavoring to rescue his dog, which had located an other burrow at Cenderlaw Co. Clare, John Cassidy had his hand so badly bitten by one of the others that an amputation had to be performed.

The committee of the Longford Agricultural Society propose to discontinue the annual show, in consequence of the land glutted. If they take entries from the graziers the people will object, and if they refuse such entries the Department of Agriculture will not give the annual grant.

The Dublin Gas Meter Factory was totally destroyed by fire last week. A hundred men have been thrown out of employment, but will be taken on again as soon as new quarters can be secured.

There died last week, Mrs. M. A. Nelson, of Carrick-on-Shannon, at the age of 103. Mrs. Nelson went through the Crimean War as one of Florence Nightingale's nurses. On her death she was in receipt of an annual pension of £24.

BEGGAR'S BANK BOOK.

A Clever Gang Captured by the British Police.

A clever gang of Turkish, Greek and Russian professional beggars, who have been "working" Berlin Germany since the middle of December after a series of successful operations in other continental capitals, was captured by the police a few days ago. Their profits had amassed at such a rate that they were compelled to open a bank account for the storage of their ill-gotten gains.

Their scheme was to send out four of the youngest members of the gang, who made a house-to-house canvass of various neighborhoods in the guise of deaf and dumb persons. A printed appeal which the "mutes" presented told a harrowing tale of how, during the last Turkish-Bulgarian hostilities, their parental homes had been pillaged, and the tongues of all the children of the households held out by bloodthirsty soldiers. Subsequent attacks of typhoid had then robbed them of their hearing.

"Help me, merciful Christian," concluded the appeal, "to supply you, you will recompense you a thousand times. The 'beggars' often came home at night with pockets clinking with gold and silver. The swindle came to light last week in consequence of a piece of bad management at the headquarters of the gang which resulted in one of the beggars applying by mistake to a house in which a colleague had successfully "worked" a couple of days before.

FOUR HOSPITALS FAILED.

Doctor to his cook, who is just leaving—"Well, Miss, I am sorry, but I can only give you a very indifferent character."

"Well, sir, never mind. Write it just like you do your prescriptions!"

A Benefactor to All.—The soldier, the sailor, the fisherman, the miner, the farmer, the mechanic, and all who live lives of toil and spend their existence in the dull routine of tedious tasks and who are exposed to injuries and ailments that those who toil do not know, will find in Dr. Thomas' Electric Oil an excellent friend and benefactor in every time of need.

A DILEMMA'S HORNS.

The young lady sighed deeply and was almost affected to tears.

"Harold," she said, "declares that if I don't marry him he will end his life. And I am afraid he will."

She stifled a sob, then continued: "And Randolph declares that if I don't marry him he will go into politics and become great and famous, and then he says I shall see what I have missed. And I am afraid he will keep his word, too."

Overcome by emotion, she buried her face in her hands, not knowing whether to save a life or to spare the country another politician.
