## HAMILTON EVENING TIMES FRIDAY. SEPTEMBER' 24 1909.

## **THE HAMILTON TIMES** FRIDAY, SEPT. 24, 1909

## **MISDIRECTED CENSURE.**

The Toronto Star very properly com-plains that Hon. Charles Murphy and his ieputy, Mr. Thomas Mulvey, K. C., are not receiving justice at the hands of those who are discussing the Metropolitan racing charter, and passing resolu-tions condemning its issuance. In taking this ground it does not uphold race track betting and gambling. It points out that if gambling and betting on race tracks is made illegal by Parliament, no apany can be authorized to carry it by the mere issuance of a charter. Nothing more is needed to make it clear that the attacks made upon Hon. Mr. Murphy and his officials are misdirected and unjust. We cannot but think that Globe's error has had much to do with leading those uninformed as to the facts and the law into a false course, and one which is not helpful to curing the evil complained of. The position of the officials of the

Secretary of State's Department is not hard to understand. The Department issues charters enabling the applicants therefor to enter into business. It can authorize no illegal business. If the application is regular and conforms to the statute, and the business is a legal one, the Department must grant the charter. Why should it not do so? Its duties are purely ministerial. There are those ho contend that it should be discre tionary with the officials of the Department to grant or refuse charters as they please. That would be an exceedingly dangerous power to place in the hands of an official or officials. Why should John Smith be granted permission to organize a company and conduct a business which would be forbiddden to William Brown? Why should a Tory be refused a charter that would be granted to a Grit? Why should a Protestant be given a charter and a Catholic refused one? Why, in short, should any Minister or official be empowered to allow one Canadian to do a business, vermission to do which is denied to another? And yet this dangerous power is what some pepole are demanding occurred to the densest tariff idolater should be entrusted to the officials of the State Department.

with independently of the issuance of sia and the other foreign commercial charters. Gambling on race tracks is nations, could be taxed to pay the reveither right or wrong: either legal or enues of the Republic, there is no reaillegal. If it is legal, the law is at son for levying taxes on the United fault and should be amended. That is States people at all? Has any United a matter for Parliament. Those who States seek to stamp out this evil would be better employed in pressing the matter upon the attention of Parliament than unjustly abusing the officials of the Department of State,

### THE CANADIAN VIEW.

The recent article in the senior local Tory organ in which those Canadian newspapers which, it declared, "talk as though Canada were in all respects equal in authority to Great Britain," were severely reproved, being informed that we are a self-governing people, because the people of Great Britain "will to have it so," and that "at any time the British people, through their Parliament, and pay through the Colonial Secretary, can exert their authority over us," and reminded that the authority which granted self-government to a colony can withdraw it, "and ought to do so when power is abused and a great emergency re quires an heroic remedy," is somewhat severely commented upon by the Winnipeg Free Press. Our contemporary even suggests that the Spectator is a Bourand characterizes its article as "a veritable embodiment of the hopelessly out-of-date conception of the political status of Canadians held by these fossilized reactionaries."

Readers who perused the Spectator article and the Times' comments thereon, will be interested in the Winnipeg Free Press' view of the matter:

The Spectator can find support for all it says in text books and in official docu-ments. It can also learn from the same sources that the King has very exteners and is by no means the consize powers and is by no means the con-situtional figure-head he is supposed to be. The Governor-General of Canada, in this capacity as a special representative of the Imperial Government, has, techni-cally, very large powers, indet. The Spectator is misled by the letter which killeth; it is blind and deaf to the spirit which makes alive. The Canadian con-stitution was made over forty years ago when the views of the right relations, hetween the motherland and the colon-ies were not what they are to-day; and that document contains provisions for the subordination of the colony, as it was then regarded, which are not to be found in the Australian and South Afri-can constitutions. This certainly does not mean that Canada, in self-governing powers and freedom, is inferior to the newer Dominions. The Spectator, and other journals which take the antiquat-ed high Tory view of our status, fail to realize that in British countries the con-ditions of national growth and constitu-tional development are not determined by roles laid down by man in his wisstitutional figure-head he is supposed to itional development are not determined by rules laid down by man in his wis-dom. The race grows from within, as it listeth, as the wind blows; and the offi-cial documents and the text books have adjust themselves as rapidly as they ay, to the changed conditions. Usually ay, to the changed conditions. Usually levy are from a generation to a century shind, a fact which is of no consequence is the practical matter-of-fact British, hose disregard for strict logic has been ne of the prime factors in their consti-tional development. We look, therefore, not to dusty tomes the library shelf, but to current deo the

stitutional Club in June of this year, Mr stitutional Club in June of this year, Mr. Balfour said: "There was a time when the relations between this country and the off-shoots of this country were like the relations between parent and child. But let every man who hears me, who comes from any colony, understand that no politician of any party in this coun-try holds that view any longer. On that let there be neither doubt or hesi-tation. Everybody recognizes, so far as I know, that the parental stage is over. We have now reached the stage of for-mal equality, and nobody desires to dis-turb it."

As the Times has already pointed out Canada's self-government is practically complete. Even its written constitution concedes wide scope, and that scope is still wider in practice. The assertion that the Governor-General is a mere "rubber stamp" in the hands of the peo ple's representatives is happily one for which there is not lacking reason. Governor-General is appointed by the British Government, but he is specifically instructed that he is not to act even in so small a matter as the exercise of the prerogative of pardon, except on the advice of his Ministers. It may be said that the Governor-General may veto an act of Parliament. Theoretical-

ly, he may. Theoretically the King may veto an act of the British Parliament; but he does not do so. If there is any thing which Canada regards as limiting her right to govern herself, it exists only because she chooses not to ask for its removal. And that is what gives strength and life to her attachment to

### CAN'T TAX CANADA.

the Empire,

In the discussion of the probable adoption by the United States of the maximum provisions of their new tariff against Canadian goods, the old question of "Who pays the duty?" has been reicaturist. vived. An Associated Press despatch from Washington, evidently inspired by the combine interests, says: "Canada would be compelled to grant the same concessions to the United States as it grants to France, or else would be compelled to pay our maximum rates."

Men who seriously entertain such ideas as that are well fitted to be plundered by tariff combines, and to bear the exactions of trusts as if they were the very "will of God." Has it in the Darkest United States that if by an enactment of Congress Canada, This gambling matter should be dealt Great Britain, France, Germany, Rusman who thinks a notion that intelligent opinion. Uncle Sam can tax his neighbor nations by any means but the power the sword? The New York Journal of Commerce, which is under obligations to

no party boss to stultify its reason and shut its eyes to the light of common sense, has this to say on the matter This is a fine illustration of the topsy turvy reasoning and assumption to which the doctrine of protection and rewhich the doctrine of protection and re-taliation leads. It assumes that the for-eigner pays the duty and that making it preposterously high is a disadvantage to him and none to us, even if it be not a positive advantage. Now it is our im-pression that when we impose high du-ties on products from Canada or Ger-many or France, it is our importers who pay them and our consumers who get the burden in the increased prices, not only of their goods, but of domestic goods with which they compete. It may be a disadvantage to the foreigner in restricting his market and may compet mies of the Day of Rest could wish no

The "Spectator Leased Wire" (?) "Englishmen, except rank partisans, are restricting his market and may compel him to lower his price somewhat to keep in our market at all, but it is also a agreed to-day that Balfour's speech in

The Winnipeg Free Press reports that

TO-NIGHT AT GRAND.

TO-NIGHT AT GRAND. "The Gay Musician." which was so well received here last season, returns to the Grand to-night for three perform-ances. The production this season is even on a more elaborate scale than last, the costuming and scenery being entirely new, while the company is also composed of new faces, and the chorus has been greatly strengthened. "The Gay Musician." which is undoubtedly the best effort of Julian Edwards, has many catchy airs, which have made the opera very popular, and the engagement here should attract many theatregoers. "THE THIEF." "THE THIEF."

The story of Henry Bernstein's play of "The Thief," which is announced at the Grand for next Monday evening with Charles Frohman's special company, is simple enough as a story. It is intense, compelling straight away plot, without side issues. What intensifies the interside issues. What intensines the inter-est of the playgoer is the ingenuity with which Bernstein has told the story. Just when he thought to have reached his climax, he veers off and attains still an-other climax, and then another, until his resourcefulness seems without end. DE WOLF HOPPER.

DE WOLF HOPPER. On Tuesday and Wednesday next De Wolf Hopper will be seen at the Grand in his latest success, "A Matinee Idol." seats for which go on sale to-morrow. "A Matinee Idol" is a comedy with a number of bright and catchy songs, in-cluding "That's the Time." "The Little Lady of the Moon" and "I'm Looking for a Husband." The entire production is a Husband." The entire production is said to be most elaborate, and theatre-goers can look forward to a first class performance.

BELL IN "THE DEBTORS"

On Thursday evening next Digby Bell and Kathleen Clifford will be seen at the Grand here in "The Debtors," an American translation, of a German play founded on Charles Dickens' "Little Dor-Digby Bell, as William Dorrit, de-the pompous, irascible old gentle-who carried his desire for homage picts the man, wh man, who carried his desire for homage and attention even behind prison walls, and the comedy is produced by his effi-cient use of the various debtors as foils for his inscible temperament. The piece is well staged and costumed, while the supporting company is said to be a good one. Seats for the production go on sale Tuesday morning. DEVENTES NEXT WEEK

BENNETT'S NEXT WEEK. BENNETT'S NEXT WEEK. Marcene, Navarre and Marcene, the clever equilibrishts, whose work has been so favorably commented upon in the New York papers, are sure to contribute to the Bennett bill next week one of its best features. It takes something out of the ordinary in this line of variety next these days to avoing an enthus work these days to arouse any enthus iasm and the success of this clever trio who only recently returned from a tour of Europe, is a tribute to their worth They perform some astounding feats in strength, and polish the act off with an strength, and poins the act off with an abundance of enjoyable comedy. Gus Williams, who will occupy a prominent place on the bill, is recognized as a gift-ed entertainer, one of the most pleasing single acts in vaudeville. He is known as the German Senator, and not only

## GUELPH'S NEW WATERWORKS

### Formally Opened by the Lieutenant-Governor Yesterday.

Guelph, Sept. 23 .- A new waterworks ystem, bringing in fresh spring water from springs at Arkell, a distance of

four miles, has been completed at a cost of about \$125,000, in the city of Guelph, and the citizens to day celebarted the

And the citizens to-day celebarted the formal opening of the new system. His Honor Lieut-Governor J. M. Gib-son officially turned on the water at the pumping station of the waterworks this afternoon in the presence of members of the City Council, Board of Trade, and many others prominent, as well as a large crowd of other citizens of Gue'ph. The Lieut-Governor was met at the station by a large number of citizens. station by a large number of citizens who, forming a procession, proceeded to the pumping station. Here the Com-missioners, other city officials, aldermer and several prominent visitors represe ing cities and towns from all ing crites and towns from all over the Province, made interesting speeches. The prominent visitors present, including the Lieutenant-Governor, were united in the hearty congratulations they offered Guelphites upon the completion of such a fine new system of waterworks.

a fine new system of waterworks. The standpipe, a steel structure 109 feet high, and with a capacity of half a million gallons, was next visited, and then on the market square a very suc-cessful test was made of the fire pressure

rom fire hydrants. His Henor was then driven aroun he city until 7.30, at which hour th

His Henor was then' driven around the city until 7.30, at which hour the banquet began. At the banquet the Lieutenant-Gover-nor responded to the toast to "Our Guests." Dr. McKinnon, of Guelph, "goke on the advantages of the pure water system from the standpoint of health. The toast to sister municipal-tites, proposed by Mr. Hugh Guthrie, M. P., was responded to by Mayors Mc-Laren, of Hamilton; Slater, of Nisgara Falls, and Charles, of Peterboro, while J. P. Downey, M. P. P., Mr. James, of Toronto, and Mr. Harrington Fitzgerald, of the Philadelphia Item, responded to the toast to the press.

the world are so many and varied that no one man can decide which of them are significant, and which are of no account This reflection-it is stale enough, in all conscience—is in the present instance produced by nothing more or less that a consideration of September 12, 1906—

produced by nothing more or less than a consideration of September 12. 1906--three years ago to-morrow. It dogs not seem an extraordinary day, and prob-ably there is not one of us all who re-members that it was in any way a day to be marked out among the other days of that year. Certainly very few of us thought much of it at the time. Cast your mind back-do you remember anything about it? Does September 12 stand in your mind as a date to be remembered? Can you recollect anything to mark it in any way from the days which came be-fore and followed it? It is doubtful if one in ten thousand knows any reason why that date should be remembered. The papers of the next day hardly mentioned the matter which will in the years to come make it in-creasingly famous. There are so many things happening in the world, and some of them seem so important—at the time. It is only after years that one is able to realize what that importance really amounts to.

So on that day the world concerned itself about the usual things, its politi-cal news, its foreign news, its sport and pleasures. There was a cricket mate

cal news, its long in news, its sport and pleasures. There was a cricket match this—the champion county, and Kent was playing the Rest of England. Men were interested in the score in that game—but who thought of another score that was being made on that day? Few knew anything about it, and most of those who knew looked upon it as the work of a crank. A few people knew that a man was worrying about with some frames covered with canvas, and that he thought he had found out how to do something which had been puz-zling men for centuries—but hardly any-one took much notice of it. And yet in the centuries ahead of us, it is more than possible that men will look back and remember that day. For on September 12, 1906, the first official-ly recorded flight in a motor-driven are-celare tok place in Eurone. On that the

on september 12, now, the meson are by recorded flight in a motor-driven are-oplane took place in Europe. On that day, three years ago to-morrow, M. San-tos-Dømont flew exactly twelve yards.

In the discussion of further clauses, the Government's majority increased to the

BEYOND SPEAKING DISTANCE.

Washington, Sept. 24.—Nearer to the earth by 15,000,000 miles than it has been for fifteen years, the planet Mars to-day is the object of immense inter-est to the astronomers throughout the world, particularly at the U. S. navaf observatory here. Its average distance from the earth is 50,000,000 miles. Its distance from the earth to-day was only 35,000,000 miles. With this proximity interest in the planet which is always keen, will be:

planet which is always keen, will b come, even among those who cannot claim to be students af astronomy, all the keener, on account of the probabil-ity that new discoveries concerning mat-ters Martinian will be made.

#### UALL IN THE HEADSMAN.

(Toronto Globe.) The News prints editorially this para-graph: "The Kingston Standard de-clares that 'the movement among the Conservatives in Canada is not only dis-tinctly away from high protection, but it is to a low protection—lower, cer-tainly, than that favored by the Liber-als." There is nothing for it but to hang The News and Standard on Ha-man's gallows. Mr. Gurney will no doubt man's gallows. Mr. Gurney will no doubt gladly officiate.

## FATAL AUTO ACCIDENT.

Rockford, Ill., Sept. 24.—Charles W. Jodgett, of Chicago, a travelling sales-nan, was killed, Albert Westerberg was stally injured, and Oscar Johnson, Eric hristiansen and Fred Dangtson were urt last night, when an automobile in hich they were returning from Belvi-ere turned turtle.

the toast to the press. In his speech at the banquet Lieufen-ant-Governor Gibson had something to say on municipal ownership. He pointed out that there should be kept in vices the distinction between municipal owner-ship and municipal owner of the start ship and municipal control. Every eity, he believed, should own its public utili-ties, but there were cases where the di-rect operation by the municipalities was not to be desired. "Guelph has been particularly fortun-

ate in this respect. As in Glasgow, the right men have been in control. Guelph had made a success of the street rail-way, but the arguments are ninety-nine

way, but the arguments are ninety-nine to a hundled against civic operation of such a department in the larger cities. Toronto would not make a success of the street railway with civic operation," said His Honor. "I believe the proper solution would be a commission to govern the public utilities, and the people should have a larger say as between the old Council idea and the newer one of civic econnis-sion government," said His Honor; "that being so long as those at the head hear being so long as those at the head ke clear of political pull."

THREE YEARS.

Accomplishments of Aviators Have Been Remarkable.

Have Been Remarkable. The following from the Daily Sketch, of London, England, although a little late, is worthy of reproduction. It should set a train of thought in motion. It was published on September 11: Some people there are who disturb the mass care to come. They examine the past carefully, and from that they try to forecast the events of the coming years. They even write books about it, striving to form some picture of the world as it will be. It is an interesting and quite harmi-less occupation. It is indeed one of the most fascinating of all the games at which me can play-but it is not much more than a game. For the doings of

R. track at Rideau Station, east of Kingston Junc-tion. It would seem likely that he had fallen from a passing train. pedition if Funds Are Found. London, Sept. 23.—Assuming the funds will be found to meet the ex-penses of Capt. Scott's Antarctic ex-pedition, the ship that will be used is the old Dundee whaler, Terra Nova, now owned by Bowring Brothers, of St. John. She was employed by the Ad-miralty as a relief ship for the Dis-covery expedition to Franz Josc't Land. Bowring Brothers have granted an option for her purchase on easy terms, and they also subscribe \$2,500 to the fund.

Railways and Commerce Extended,

Telephones and a Census. Bangkok, Sept. 23.—The year just elapsed has been one of advance for Siam. It has been marked by an ex-tension of the railway system, the maintenance of the commerce of the kingdom, the introduction of gold coinage, the installation of a new telephone system, and a city water supply for Bangkok. In the same period also a general courts of justice has been improved, ond the Anglo-Siamese treaty has been suc-cessfully negotiated. TO POSTAL CONVENTION.

#### Hon, Rodolphe Lemieux Sails fo England To-day.

England To-day. Ottawa, Sept. 23.— Hon. Rodolphe Lemieux and Mrs. Lemeux left the capital this afternoon for Quebee, whence they sail to-morrow for Eng-land. The Postmaster-General will re-present Canada at the International Postal Convention, which opens at Berne on Oct. 4. At the conclusion of the convention he will spend some time in London, and will again confer with the imperial auto-critics relative to the question of cheaper cable rates. Mr. Lemieux will return to Ottawa in time for the opening of Parliament on Nov. 11.

London, Sept. 23.-Two of the Suf-fragettes imprisoned at Birmingham tried the tactics successfully adopted by

Bears the Art of the Kind You Ham Alsar, Bought

"Roosevelt has not shot many rhinoc-eroses, has he?" "Nope, he'd lose too much money by doing that." "How so?" "That is too big a word to sell for \$1." -Houston Post.

Their Low factors successfully adopted by their London colleagues to get released. They started in to starve themselves, but the prison doctor, with the sanction of the Home Ofice, fed them with a stomach pump. After this experience the prisoners promised to take their food in the usual way.
