JAMES McISAAC,

Editor & Proprietor.

WEDNESDAY, NOVEMBER 14, 1894.

The revenue of the Dominion for the last four months is two and a half millions over the expenditure.

Mr. Robert Birmingham, chief Conservative organizer for Ontario, arrived in Montreal on Wednesday last.

We notice that the Grit press manifests a disposition to break the fall of the Democratic party in the United States.

According to the Montreal Gazette the export of horses from Montreal to Great Britain from the beginning of navigation to the end of October reached the total of 5,095.

The office of Governor of New York State is no small matter. It carries with it many lucrative appointments, to be given to those whom the Governor may deem worthy of them.

National deficits appear to be the order of the day. England has one of several million pounds. The United States, which always does things on a grand scale, beat the world's record in the last fiscal year with a deficit of seventy million dollars and the national revenue in four months, from July first last, was fifteen millions less than the expenditure.

The Milwaukee Sentinel, of a recent date, publishes an article containing the substance of a discussion which took place at a meeting of the executive committee of the Wisconsin Dairy-men's Association, held at Port Atkinson, to consider the best means of preventing the entire destruction of the dairy interests of the State.

It may not be inopportune to refer here to some of the anomalies apparent in the working out of the political system of the United States. The Congress meet on the 8th do not take their seats in the nation's Parliament till December, 1895, so that the present Congress, notwithstanding that it has lost the confidence of the people, will go on making laws for the government of those whom they no longer represent.

The United States Elections.

The elections held in the United States on Tuesday of last week, proved a veritable Waterloo for the Democrats. States, counties, and districts, hitherto regarded as Democratic strongholds, elected Republicans.

Following are some of the seats captured from the Democrats in the different States: New York, 15; California, 3; Connecticut, 3; Delaware, 1; Illinois, 3; Kentucky, 2; Maryland, 2; Massachusetts, 3; Michigan, 1; Minnesota, 1; Nebraska, 1; Missouri, 6; New Jersey, 6; North Carolina, 1; Ohio, 9; Pennsylvania, 9; Rhode Island, 2; Tennessee, 2; West Virginia, 4; Wisconsin, 6; and Wyoming, 1.

The greatest Republican victory was in New York State, hitherto overwhelmingly Democratic. Senator Hill, the Democratic candidate for governor was defeated by a plurality of about 150,000 votes. Various causes may be assigned for this crushing defeat.

Some very large majorities were rolled up in other States as well as in New York. In Pennsylvania, which is a Republican stronghold, was carried by that party by nearly 240,000 plurality, the largest by one hundred thousand ever recorded there.

It may not be inopportune to refer here to some of the anomalies apparent in the working out of the political system of the United States. The Congress meet on the 8th do not take their seats in the nation's Parliament till December, 1895, so that the present Congress, notwithstanding that it has lost the confidence of the people, will go on making laws for the government of those whom they no longer represent.

Some 2,000 head of cattle, 4,000 horses and 120,000 sheep have been shipped from Montreal this season in excess of last year. The Congress meet on the 8th do not take their seats in the nation's Parliament till December, 1895, so that the present Congress, notwithstanding that it has lost the confidence of the people, will go on making laws for the government of those whom they no longer represent.

CONDUCT OF PUBLIC MEETINGS.

Now that a time of year is approaching when our young men will be forming debating societies, mock parliament, and meetings for mutual improvement, and mutual admiration, it is following rules which have been established by general consent regarding the conducting of public meetings may prove of interest.

The Pacific Cable.

Ottawa advices of the 9th say the proposal for constructing and maintaining the Pacific cable were laid by the minister of trade and commerce on that date, Sanford Fleming, W. H. Mercer of the House of Commons, being also present. The advertisement asked for proposals for laying a cable by eight different routes, and also for laying and maintaining Six others which were received all from English manufacturers.

The Pitou Iron Works.

The Canadian miners who are now in Nova Scotia have been visiting the iron mines and iron works in the neighborhood of New Glasgow. The Pitou charcoal iron works, which were first seen, have been giving employment to 150 men in the mines and furnaces.

The Victorious Japanese.

The Central News' correspondent of Tokio reports to London as follows on the subject of a Japanese victory over the Chinese. A report from Hwang Chu with dispatches as to the course of war in Korea. Kinchow was taken by the Japanese on the 11th. The resistance of the Chinese was feeble. Few Japanese were wounded, but twenty or thirty Chinese were killed.

Some 2,000 head of cattle, 4,000 horses and 120,000 sheep have been shipped from Montreal this season in excess of last year. The Congress meet on the 8th do not take their seats in the nation's Parliament till December, 1895, so that the present Congress, notwithstanding that it has lost the confidence of the people, will go on making laws for the government of those whom they no longer represent.
