Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., mr. George Andrews of Hainax, N.S., writes:

"For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.

He left today for Edmonton. Speaking of reciprocity, Mr. Wilson was confident it would work for the good of Canada.

this statement of the Conservatives that the Liberals of England are not giving Canada a square deal on the tariff question is foolish. If they do not get them now, they will need them badly in ten years, when their own are de pleted that they may lower the tariff wall of their own accord. On the other hand when they do lower their tariff wall as they offer to do now, they will see to it that they will make a good bargain. If Canada does not get into that bargain, the States will join with Argentine or some other country and will be only too glad to get their trade on any terms. The question simply resolves itself into whether Canada could have got better terms or not, not whether there ing of the pact or not. There is no doubt that reciprocity will boom this
