ST. PIERRE BULLETIN.

PARIS, via St. Pierre, July 26. On Sunday in Artois, between the Oise and Aisne, the usual artillery duels took place. On the northern banks of the Aisne in Troyon district and in Champagne on the Ferthes-Bascongron front, mining operations continued to our advantage, and in southern Wever, intermittent cannonading. In the Vosges our troops consolidated in spite of a bombardment, the positions gained at Ban de Sapt, Friday. The number of German prisoners taken was 11 officers and 325 men, of which 70 only are wounded. There were numerous corpses in the trenches. We only had engaged on our side two battalions of an infantry regiment. Six machine guns have been found so far in the trenches taken.

of Constantinople, sinking a Turkish transport and two gunboats, and a steamer loaded with ammunition. Advice reaching here from Constantinople said that the submarine first torpedoed the Turkish transport in the Sea of Marmora. Proceeding to Constantinople, the British raider sank the gunboats and an ammunition steamer near the wharves. One of the submarine's shots damaged the wharf of Topkapi, a suburb of Constantinople, where the Turkish arsenal and barracks are located. Turkish soldiers fired several rifle shots at the submarine as she disappeared. British aviators bombarded Smyrna yesterday, destroying the gas works and petrol depots, according to a Mitylene despatch. A French aviator destroyed a Turkish convoy near the port of Alvali, Asia Minor.

IN AND AROUND WARSAW.

LONDON, July 26. A despatch from Petrograd to Reuters' Telegram Co. to-day, says: German air raid on the Vistula bridge at Warsaw failed in its object, though the bombs caused several casualties among civilians. The German advance from the Narv River is now 24 miles as a crow flies from the Warsaw-Petrograd main railroad, but the Germans still have to fight their way across the Bug River, as well as six to ten miles of virtually roadless country between the Narv and the Bug. The fate of Warsaw really depends on the Bug River, which is a much more formidable obstacle than is the Narv crossing, which the Germans were facilitated by an inlet in the middle of the River near its confluence with the Orytza River.

A BRITISH AND AMERICAN STEAMER SUNK.

LONDON, July 26. The British steamer Grangewood, 2,442 tons, from Archangel for Harve, has been torpedoed and sunk in the North Sea by a German submarine. The crew was landed at Lornwick, Scotland. The American steamer Leelanaw, from Archangel for Belfast, with a cargo of fax, was sunk yesterday by a German submarine off the northwest coast of Scotland. All the members of the crew were saved.

THE "LEELANAW."

LONDON, July 26. A despatch from Kirkwall to the Central News Agency, says that after the members of the crew had left the Leelanaw, about a dozen shots were fired at the steamer, but failed to hit her. However, she was ultimately sent to the bottom by a torpedo. The members of the crew were taken on board the submarine, the despatch adds, and were well treated. When in sight of the Orkney Islands, the men were ordered to return to their boat, and the submarine disappeared.

WILL AWAIT INFORMATION.

CORNISH, N.H., July 26. Unofficial word of the sinking of the American steamer Leelanaw by a German submarine, was conveyed to President Wilson to-day, but he declined to make any comment for publication, pending the receipt of full official details. News that the crew of the steamer were saved, was received with relief by the members of the Presidential party.

WARSAW STILL HOLDS OUT.

LONDON, July 26. Field Marshal Von Mackensen's sustained effort, through an army of a considerable body of Austro-German troops, astride of the Lublin Chelm railway, having to date met with no success, the Germans are now centering their main offensive north of Warsaw's salient, having crossed the

Narv River along the forty mile front, driving the Russians toward the Bug, where it joins the Narv north of the Polish capital. Warships still holds out, but the general belief here is that its loss by the Russians, is only a matter of time. Despatches reaching London to-night from Petrograd, predict that the much discussed climax of the great struggle in Poland will come within a fortnight with simultaneous attacks on the city from north and south. In the meantime, Von Buelow's troops are driving south from Courland, and are thirty-five miles southeast of Shavti, having reached Poni Wesch railway junction, which is linked with the Vilna-Prilisk line, and which the German cavalry are attempting to seize preparatory to cutting the more important Kovno-Vilna line. The effective German cavalry in this area is estimated at Petrograd to be thirty thousand.

CANADA'S CONTRIBUTION.

OTTAWA, July 26. From information in the hands of the Military Headquarters, it is announced that funds sufficient to purchase more than 1,000 machine guns are already contributed at various points in Canada. This means nearly forty guns for each regiment of two Canadian divisions to be maintained in the field.

NORWEGIAN STEAMER TORPEDOED.

HALIFAX, July 26.

The Norwegian steamer Fimreite, in the service of the Nova Scotia Steel Company, was torpedoed by a German submarine and sunk within one day's run of Swansea. She was bound from Wabana with a cargo of ore. The fate of the crew is not mentioned. The steamer was 2,724 tons net. The news came by cable to General Manager Cantley.

SHIPBUILDING FIGURES.

LONDON, July 26. Lloyd's shipbuilding returns which, owing to the war, are confined to details of merchant vessels, shows that there were 434 steam vessels of 1,565,025 gross tonnage, and eight sailing vessels of 1,900 tons, under construction in the United Kingdom during the quarter ended June 30th, 1915, or 81,000 tons less than at the end of the previous quarter. During the quarter ended June 30th this year, 74 steamers of 147,964 gross tonnage, were launched.

Good Exhibition of Baseball.

CUBS VICTORS.
Last evening being an ideal one for baseball, a large gathering of fans was in evidence on the Christian Brothers grounds, to witness the Cubs and Wanderers contest. It was generally conceded to be about the finest exhibition of ball since the introduction of the game here. The result was: Wanderers 0 0 0 2-3
Cubs 0 0 0 13-4

The umpires were Messrs. Chessman and Smith; scorer: P. Outerbridge; players: Cubs—Batteries, Simms, Clouston; infield, T. Winter, Ellis, Peddigrew, St. John; outfield, Ryall, Tessier, D. Winter.

Wanderers—Batteries, King, Britt; infield, Hartnett, Hocken, McCrindle, McLeod; outfield, Trappnell, McLean, Trappnell.

The Cubs scored the first run in the fourth innings and both sides made three each in the fifth and final innings. The latter was very exciting. The Wanderers' fielders got rattled. Clouston took advantage and finished off the last run amid great applause.

The Cubs thought they were handicapped at the outset because of losing one of their regular players but events proved differently. The new comers showed up well.

Though being on the sick list, Bob Simms pitched very effectively and although designated the "green pitcher" gave the Wanderers some balls last evening that were certainly green to them. What he lacked in flourishes he easily made up for in strength.

The Cubs and Red Lions will contest for the H. D. Reid Trophy at Mt. Cashel Garden Party to-morrow.

Loan Results Are Far in Excess

OF WHAT WAS HOPED FOR.

London, July 16.—Sir George Paish, who has participated in various conferences at which war loans were considered, said yesterday that the way in which Great Britain took up the 4½ per cent. loan had even exceeded the hopes of the Government.

In reflects deeply the loyal sentiment among all Britons," said Sir George. "The British workman of large family and slender means has shown that he is anxious to respond to the call of the Empire for financial aid. Heretofore there has been a feeling that on the call of the Empire, its rich men were to do the buying of bonds.

"This time all were asked to join in, and the man of medium means has bought the war loan as well as the rich investor. It is all a good sign that the Empire is united in the sentiment of a continuance of the war and the providing of sinews with which to carry it on."

German Bankers' Action.

Sir George was impressed, he said.

with the tendency of the business men of Germany to have the war ended, as evidenced in their call upon the Kaiser.

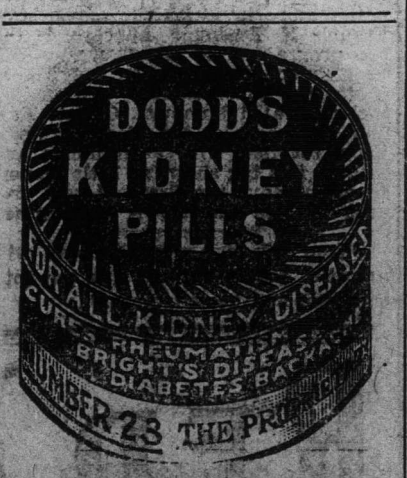

"That was the first ray of sunshine that has come since the war began," he said. "It seems to indicate that the bankers of Germany realize the disastrous consequences that must fall on their country the longer the war continues.

"Already in human life that country has lost what cannot be replaced for a great many years, and if the war continues for another twelve months, it is evident that the loss of life among the young men of Germany will be so serious that the growth of Germany's population may be entirely checked for a long time to come.

"From Germany's financial point of view, as well as from the standpoint of humanity, the action of the bankers in waiting upon the Kaiser and urging the necessity of peace is a matter for general congratulation."
