

Commandant Hurd, S.A.

DELIVERS INTERESTING LECTURE.

There was a large attendance at the lecture given by Commandant Hurd on the subject of the Salvation Army. The Commandant is well qualified to deal with such a subject, having been connected with the Army's Social work for several years, during which time he had charge of the social operations in Montreal and several other Canadian cities. He has also visited and made himself familiar with the work in New York and other parts of the United States as well as in London, England.

He spoke very strongly on the drink question, stating that a great number of the down and outs who come to the army's institutions can attribute their downfall to the drink habit. He was pronounced in favour of prohibition when the law is properly enforced, but regretted as a Newfoundlander he was compelled to say that there was more drunkenness to be seen in the city of St. John's in one week than would be seen in any Canadian city of the same size in a month.

He spoke of the army's prison gate work and described the system the army used of meeting prisoners on being released from jail, and caring for them till they can get employment. Large numbers, he stated, are in the army helped back to respectability who would otherwise in all probability yield to temptation again and become confirmed criminals.

Girls detention homes are institutions to which girls convicted for the first time are often sentenced by the magistrates instead of sending them to jail, here while they are deprived of full liberty they have not the stigma of jail birds, but are dealt with by women of wide experience in such work and large numbers of them are helped to such an extent that they are never found to give any trouble afterwards.

The Commandant also spoke to some length on the army's maternity hospitals and left no doubt in the minds of his hearers as to the good that was being done in this direction. He referred to the hospital being built here and stated that a rumor was being circulated through the city to the effect that this home would tend to encourage immorality. He wished to disabuse the mind of everyone present of any such idea. The building, he stated, would be what its name implied a maternity hospital, and women of all classes and creeds would be treated there in a properly scientific manner. Those able to pay the best price would be the most elaborate surroundings, but all would receive the very best treatment possible. It is hoped, he said, to have wards for the treatment of children's diseases and women other than maternity cases.

The above is but a brief synopsis of what proved a very interesting address which lasted over an hour and was full of interesting information regarding the army's social work. The Commandant urged his hearers to support the coming Harvest Festival which would help to carry on this work.

Japanese Lake Freezes in June.

Asahikawa and districts of Hokkaido, Japan, suffered an unusual drop of temperature on June 24, 1922, all the lakes and streams freezing. Such an experience at that time of the year has only been recorded once before in those localities. That was 35 years ago when the rivers from July 2. Serious damage was done to crops.

Legislative Councillors Entertains Friends.

PARTISAN SUPPER GAVE "A BIRD A MAN."

Hon. Frank McNamara entertained a number of his intimate friends to a "bird a man" festive repast on Monday night at his residence LeMarchant Road, as the outwind of a most successful sporting trip this season. It was an occasion of much enjoyment to all the happy guests and was entwined by vocal and instrumental selections in conformity with the occasion. Mr. James Harris, on behalf of those present thanked the Hon. Mr. McNamara and his lady, the amiable hostess, for the pleasure they had afforded all, and expressed the hope that the well directed aim and prowess of the honorable gentleman as a sportsman and otherwise would long continue.

For a dainty supper and a good Card Game come to the St. Andrew's Rooms October 4th, at 8.30 p.m.—oct3,21,t,w

Published by Authority.

His Excellency the Administrator has been pleased to appoint Mr. Michael Sinnott (Placeantia), to be a Justice of the Peace for the Colony.

His Excellency the Administrator in Council has been pleased to appoint Mr. Ed. J. Kennedy (Long Pond) to be a member of the Church of England Board of Education for the District of Foxtrap-Long Pond, in place of Mr. John Dawe, retired; Mr. Charles Brett to be a member of the Church of England Board of Education for the District of Barr'd Isld. and Joe Batt's Arm, in place of Mr. Simon Brett, resigned; Mr. Jacob Chapman to be a member of the Church of England Board of Education for the District of Hr. Breton, in place of Mr. Jacob Jensen, resigned; Mr. Noah Miller, J.P. (New Bonaventure), to be a member of the Church of England Board of Education for the District of Trinity, in place of Mr. Samuel King, resigned; Rev. A. Sheppard, to be a member of the Church of England Board of Education for the District of Herring Neck, in place of Rev. J. Marks, left the District; Mr. Henry Kirby to be a member of the Church of England Board of Education for the District of Pouch Cove, in place of Mr. Robert Gillett, resigned; Rev. Leslie W. Blundon, to be a member of the Methodist Board of Education for the District of Change Islds., in place of Rev. Roland T. Moores, left the District; Mr. Richard Legge, to be a member of the Methodist Board of Education for the District of Garinish, in place of Mr. Joseph G. Grandy, retired; Rev. Josiah Osmond (Grand Bruit) to be a member of the Methodist Board of Education for the District of Petties, in place of Rev. Roger W. Gough, left the District; Mr. J. C. Stewart to be a member of the Methodist Board of Education for the District of Bell Island, in place of Mr. S. K. LeDrew, retired. Dept. of the Colonial Secretary. October 3, 1922.

For a real select little Dance, try St. Andrew's Rooms October 4th, Card Party, Supper and Dance.—oct3,21,t,w

SLANDER CASE.—A woman had a neighbour before court this morning charged with using lewd and abusive language towards her. Accused said the only abusive term she had applied to plaintiff was "backster." Plaintiff delivered a lengthy discourse on the iniquitous statements made about her by the defendant, but despite this, the case was dismissed.

Oppressive Heat in The Atlantic.

WEATHER FEARS OF VOYAGE FROM NEW YORK.

Abnormal weather conditions in the North Atlantic were reported on the arrival of the White Star liner Home-ric at Southampton, yesterday afternoon. From New York, oppressive heat was experienced for two-thirds of the voyage, the temperature of the ocean being as high as 78 degrees Fahrenheit, until after the ship was more than 1,500 miles east of New York and 72 within one day's steaming of the British Isles. Immense quantities of Gulf weed were observed, as well as whales, porpoises, and swarms of flying fish.

Captain Howarth, who commands the liner said he could not recall a voyage in which the waters of the Gulf Stream carried their high temperature so far north and east or were accompanied so far by the species of marine life more commonly associated with the tropic seas. Passengers by the Home-ric were surprised to learn on arrival that whilst they had been basking in the tropical sun, the ship had experienced a cold spell on this side of the Atlantic.—Huddersfield Examiner, Sept. 18.

It is quite possible that these Marine Caloric conditions have been responsible for the various schools of sperm whales and other huge fish of unknown species which have made a habit of our waters this season. So the fine and genial weather now being enjoyed might be attributed to the abnormal Meteorological conditions reported by the Captain of the Home-ric.

Of Interest to Tourists.

CASH'S TOBACCO STORE IS NOW READY FOR THE TOURIST TRADE.

The man from England or the United States or any other country, when visiting our city, will find his favorite brand of Cigars, Cigarettes and Tobacco and other Smokers' Requisites at our store.

We also carry a full line of Picture Postcards and Books of Views of Newfoundland.

Our Soda Water Fountain is now in full swing. Our Ice Cold Coca Cola and other Syrups are pronounced by all to be the very best in the city.

A good smoke, a cool drink and a visit to our beautiful Bowling Park will linger in your memory for many years.

CASH'S TOBACCO STORE, Water Street, July 27, eod,tf

English Prisoners Delight in Violin.

E. Percy Brown is a comparatively young man, with a young man's enthusiasm for reform. He wants to make prisoners better and happier men inside the jail, and to give them a chance to make good when they get out. He is governor of Dorchester jail, England, where he is trying certain experiments that come to him from the United States, and the home office is watching them to see how they turn out.

The effects of the new treatment already are pronounced to be amazing. The tone of the prison is excellent and the general conduct of the prisoners is very good. And this in spite of the protests raised by the old type of prison authorities against undermining discipline by introducing "flashy American methods."

Music is Mr. Brown's most powerful instrument of amelioration. Nearly every week he organizes good concerts. The prisoners display a real hunger for these events, and the better the music the better they like them, showing an almost pathetic delight in violin solos of the higher class.

Also Mr. Brown has organized a series of debates and lectures for the prisoners. The debates, especially, are hugely enjoyed by the prisoners. Some of them participate with great zest, for among these now "doing time" at Dorchester are men of excellent education and remarkable argumentative skill.

DANCING.—Miss Power will be resuming her classes on Monday, October 9th. For particulars apply to 16 Queen's Road 'Phone 1016.—oct2,3,eod

Samara Becoming a Model of Sanitation.

SAMARA, RUSSIA.—Five thousand men are at work cleaning the narrow streets of this Russian city, and in order to get meals from the local kitchens of the American Relief Administration, every child must prove he has made use of the bar of soap issued to him once a month. Every one of the 1,200,000 children and adults in the Samara district still receiving American relief has been vaccinated against smallpox and inoculated against typhoid, paratyphoid and cholera. Altogether the outlook for the health of Samara is very bright.

Have you a Suit or Overcoat to be made. Bring it to FARRELL THE TAILOR, Adelaide Street. First class work at moderate prices.—sept28,tf

TO-DAY'S MESSAGES.

MAYFLOWER RULED OUT OF ELIMINATION TESTS.

The American Fishermen's Race Committee, to-day, refused the request of the Mayflower Association, owners of the Boston schooner Mayflower, to have that vessel, already debarred as a contender for the International Fishermen's Trophy, take part in the elimination races to choose this year's American challenger. At the same time, Wm. J. MacInnes, Chairman of the American Race Committee, suggested Mayflower as a challenger to winner of International race. In the event of such a challenge being accepted, the American Race Committee would take charge of the event, Mr. MacInnes said.

CANADIAN CATTLE COMMITTEE.

LONDON, Oct. 4. Arrangements have been completed for a preliminary meeting on Friday of representatives of British and Canadian Governments to discuss the drafting of legislation providing for the raising of the embargo against Canadian story cattle. Canada's delegation includes J. H. Driedale, Deputy Minister of Agriculture; Hon. Duncan Marshall, Minister of Agriculture for Alberta; Peter Larkin, High Commissioner in London; Hon. W. S. Fielding, and Hon. Ernest LaPointe now in Geneva. British representatives will probably include Winston Churchill, and Boscawen, Minister of Agriculture.

LEAVING CITY.

CONSTANTINOPLE, Oct. 4. One hundred families of British officers and civilians left Constantinople in accordance with the plan of evacuation of the city by the British, in the event of amicable arrangements being reached with Kemalists for the occupation of the capital.

REAL WORK BEGINS TO-DAY.

LONDON, Oct. 4. The Mudania Conference is to begin in earnest to-day, following the belated arrival of General Mazarakis and Colonel Sarriyannis, Greek representatives. Nothing was done at yesterday's conference.

A MYSTERIOUS EXPEDITION.

OTTAWA, Oct. 4. A report on their trip to Baffin Land and the Polar regions, made by R. W. Craig of the Department of the Interior, and Captain Joseph Bernier in the C.G.S. Arctic is expected to be in the hands of the Minister of the Interior to-day. The Arctic returned to Quebec yesterday, causing surprise as the trip was expected to have taken a year. The purpose of the journey is being kept a secret until Craig's report is in the hands of the Minister but it is thought to have concerned the establishment of Canadian jurisdiction over certain territories visited.

TERRIBLE TOLL OF LIFE.

LONDON, Aug. 4. People arriving in Calcutta on the first through train from Darjeeling in eight days, say recent floods in Northern Bengal have taken terrible toll of life, and it is believed that thousands have perished.

London Boxing Season Opens Early.

LONDON.—The London boxing season has opened early this year. At the ring recently Fred Archer survived 20 rounds of an encounter with Colin McLauchlan, of America, and was given the verdict on points. McLauchlan brought with him a formidable record of reported knockouts to his credit. British boxers were duly impressed, but Fred Archer, a Londoner, took the newcomer on and boxed a draw with him. McLauchlan was wroth at the verdict, and demanded another bout. The second contest between them took place at the "ring."

"McLauchlan," says the Daily News, describing the fight, "is a rugged, strong fighter with no defense. He can hit, but he has no of the learned proper way. Archer, a better boxer, scored dozens of lefts, and almost closed his rival's left eye. The loser won no more than three of the rounds, and the best that may be said of him is that he is game to the core. The majority of men would have been disheartened at such persistent assault and battery as his face endured."

Roland Todd, of Doncaster, fought Frankie Burns, the Australian middleweight, at Liverpool and won in the 12th round. In the third round Burns was knocked down twice, and again in the ninth round. After he had been badly punished his seconds threw in the towel.

Personal.

Mr. E. C. Brown of King's Cove, who was in town for some days, on a business trip, returned home by S.S. Prospero, which ship left port this morning.

HEMORRHOIDS

Do not suffer another day with Piles, Hemorrhoids, or Protruding Piles or Hemorrhoids. No surgical operation required. Dr. Charles J. Farrell, 701 St. John's Street, St. John's, Nfld., will relieve you at once and afford lasting benefit. He has a box of "Farrell's Piles & Hemorrhoids" (Limited, Toronto. Sample box free.

Dope Fiends Piled in Heaps in Montreal.

Montreal is suffering from the drug evil, the bulk of illicit drug cargoes peddled there being received from Germany, where absolutely no check is maintained on exports of this kind. Germany is reaping a huge fortune from the traffic, which has increased by leaps and bounds since the war. In describing conditions in Montreal, D. A. Lafortune, K.C., M.P., Crown Prosecutor, said last week: "Can you imagine drug parties," where as many as fourteen persons are heaped over one another in a state of semi or total unconsciousness? Have we reached the limits of perversion or are we to see worse? There must be something done, and I do not believe that "something" is being done now. Perhaps it lies in sterner treatment of those whom we find guilty; perhaps it lies elsewhere; but it must be found." During the past week a ghastly drama has been enacted almost daily at the General Hospital. It is usually brought to its climax as cold gray dawn breaks, and the last scene shows a battered shrunk-on human stretched on the floor—the last victim of the narcotic epidemic—whose death made futile the frantic all-night efforts of a corps of medical men and attendants.

Here and There.

Underwood Typewriter, \$155.00.

oct4,25i

NAME OMITTED.—The name of Joseph Michael, Assistant Vice-President, was omitted from the list of the officers of St. Patrick's Christian Doctrine Society, published yesterday.

Never Again!

A philanthropic lady visited an asylum not long ago and displayed great interest in the inmates. One old man particularly gained her compassion. "And how long have you been here, my man?" she inquired. "Twelve years," was the answer. "Do they treat you well?" "Yes."

After addressing a few more questions to him the visitor passed on. She noticed a smile broadening on the face of her attendant, and, on asking the cause, heard with consternation that the old man was none other than the medical superintendent. She hurried back to make apologies. How successful she was may be gathered from these words: "I am sorry, doctor, I will never be governed by appearances again."

WAR DECLARED!

War has been officially Declared upon High Prices.

This war began on Saturday, the 30th, at 8.30 a.m., and will continue until Saturday, the 7th October, at 10.30 p.m., without cessation of hostilities.

HIGH PRICES WILL GET IT IN THE NECK SURE!

So, MR. SMOKER, wade in and help yourself and, incidentally, your pocket by buying your cigarettes and cigars at Faour's. The quality is of the best—the prices low. Read for yourself and become convinced.

The following Smokes are being Sold at less than Cost.

Rubber and Civilization.

How rubber enters into the usage of daily life is described picturesquely by Richard H. Tingley in Our World for October, just issued. He says: "First of all, to begin at to-day's beginning, the rubber people make the process of getting up and dressing comfortable for you each morning. The plug in the bathtub is rubber. The curtain around the shower, the window strips which keep out the cold air, are rubber. The tooth-brushes, shaving brushes, hair brushes, are set in rubber. The cork in the ammonia bottle is rubber."

"In the nursery your little daughter wears a rubber bib, and gets her breakfast from a rubber-nipped nursing bottle; she plays with a rubber doll. She has her own little rubber tub, a big rubber apron is used in bathing her."

"After all, it's the flippers that make the rubber business. About three-quarters of all the crude rubber goes into the automobile. However, even though the flippers do make the rubber business, the two are so interdependent that it would be just as true the other way round. We won't have twice as many motor cars till we double the acreage of rubber. The rubber men made Detroit. If we hadn't gone out and got the rubber for them—made it grow where it never grew before—Detroit wouldn't be on the map."

"You can't have automobiles without rubber. The canopy is rubberized, there's rubber on the running board, rubber insulation on the wiring. And most important of all, the tires. In the four tires and the spare one on behind there are about forty-five pounds of rubber. It takes twenty

full grown rubber trees a full year to produce that much crude rubber.

"Before 1908 half the world's supply of crude rubber—all the best of it—came from the Amazon, where Para rubber trees grow wild. In those days we used about 65,000 tons. Now, although we could use a lot more, we are actually getting about 300,000 tons. And 9/10 of it comes from artificial, cultivated plantations in the Dutch and British East Indies."

"Perhaps you sometimes idly wonder how rubber is made. But you never really see the picture. The thousands and thousands of 'native' laborers, working in the temperature of a Turkish bath. The scientists—chemists and agricultural experts—studying rubber, finding out what kind of plants give the most and the best juice with the least labor. The chaps from our universities, who sit out there in the jungle, neglecting their own fevers to study the diseases of rubber, bitten raw by mosquitoes while they boil poisons in test tubes to kill the bugs that attack the plants, all this for the comfort of those who accept it as a matter of course."

Classes in Theory of Music ON SATURDAYS.

Hours:—11.30 to 12.30. 3.30 to 4.30. Terms on application to MISS DELANEY, L.T.C.L., 40 Coakstown Road. (Pupils prepared for theoretical and Practical Examinations). oct2,eod

Knowledge.

No sooner do our schoolboys and girls get to installing radio sets than science announces that the lowly humble bug uses radio for communication, and the evanescent lightning bug uses a radio set for household illumination. In a few more years the mosquito will be using a drilling-rig for his typhoid injection, and the rattlesnake will put in a self-winding set. All animate creatures are soaking their hides full of the new knowledge—all except Father. He, poor devil, still buys old stock, runs-for office, grumbles about the bills and wonders why the rising generation has no sense about the value of a dollar. Father learns nothing, and forgets nothing. He and Adam start from the same law, and get no further as the generations pass.—Judge.
