### Will You Permit It?

#### The Sale of the Labrador to the Canadians.

There is before us a prospectus issued by the Labrador Goldfields Ltd. of Montreal. It is an interesting document, and especially so, when the Squires-Coaker are asking power to carry out the sale of the Labrador to Canada. Do you vote for it? Will you sell the country?

Gold has been discovered on Labrador—"Poor man's gold", it is said, because no machinery is used to mine it. When Klondike discovered, 30,000 people went there from here. From 70,000 to 80,000 are expected to go to Labrador this summer. The gold fields are valued at \$50,000,000. The Klondike miners believe there is more gold in the Labrador than in the Klondike. One hundred and twenty thousand (120,000) have been granted leases (104,000) have been granted by the Labrador Goldfields Company has incorporated under the laws of the Dominion of Canada. All these particulars have been taken by us from the prospectus.

It is significant of the fact that the sale of our Labrador to Canada has already been decided, and that the return of the Squires-Coaker to power is all we need to seal the same. Otherwise, has the Company formed under the laws of Canada? Not under the laws of Newfoundland? And what, pray, are you to do about it?

Here is a country belonging to us, rich in gold that one mining site alone is worth more than all our public debt, and it is proposed to give this away to Canada. Here is a country in which all the able-bodied men in this Colony could be employed this year, and it is proposed to hand its control over to Quebec. Here is a country whose population this year may be half as much as that of the whole of this Colony, and pay half as much as all our revenue, yet Squires and Coaker would sell it to Canada. What is their price, not the beggarly price this Colony will receive, but the price in "honors" and other considerations they are to get for selling our Labrador, with all our fellow citizens there into the Dominion of Canada? Fellow countrymen, will you permit the sale?

## Tide Against Government at Carbonear.

### Overflow Meeting Held Last Night—Prominent Citizens Express Disgust with the Present Administration.

Carbonear, April 26th.—(By Tele. phone).—An overflow and enthusiastic public meeting was held in St. Patrick's Hall to-night when Mr. James Moore, the Opposition Candidate, and several prominent supporters of the Liberal-Labor-Progressive Party delivered addresses.

Mr. George Brocklehurst, the well known West End druggist was chosen as Chairman, and Mr. M. J. Hawker as Secretary.

A significant sign of the turn of the tide against the Government is the fact that the Chairman was the Secretary of the Squires Party here at the last election. Mr. Brocklehurst stated that he was so disgusted with the actions of the Government that he had decided to clear out, and put his whole energies into the cause of the party led by Mr. J. R. Bennett.

Mr. James Moore, the Opposition Candidate then continued his Nomination Day speech, which had been interrupted by a heavy downfall of rain, just as matters of local interest were being discussed by him. Several other subjects which affected the Carbonear District in an especial degree, were referred to by him, and his policy connected therewith was outlined.

Mr. John Rorke, of Rorke & Sons, the next speaker, referred to the manner in which the trade had been crippled by the Fishery Regulations and by the intolerable burden of taxation.

Mr. Albert E. Penney, director of Saunders, Howell Company, made his maiden speech on a political platform, and he pointed out the great

deceit which was being practiced by the Government in this election. He warned the electors not to be deceived, but to vote for Moore and the Bennett Party, which would mean to them and the country the best of the Deal, the most employment, and the most encouragement for the fisheries.

Mr. Robert Duff, whose father formerly represented Carbonear District briefly reviewed the sad conditions of the people of the country at present and during recent years and asked for the support of the Opposition party, through voting for Moore, its representative.

The Secretary, Mr. M. J. Hawker, closed with a review of the facts as stated and expressed his confidence that Carbonear District's decision on next Thursday would be for Bennett and Better Times, and would find its expression by voting in large numbers for James Moore.

This ended a most successful meeting. The National Anthem was sung, and cheers for Moore and the Bennett party followed. By actual count there were 366 voters present in the Hall.

If betting is any indication the following may be of interest. A number of young men here pooled \$750.00 on Nomination Day on Moore and the Opposition. The offer has not been accepted.

This district has suffered greatly. How greatly is shown by the exodus of young men here pooled \$750.00 on Nomination Day on Moore and the Opposition. The offer has not been accepted.

#### Meeting at Logy Bay.

ST. JOHN'S EAST SOLID FOR HIGGINS, FOX AND VINCOMBE.

To the chain of triumphs that the Fighting Trio of St. John's East have achieved another link was added last evening when Higgins, Fox and Vincombe were tendered a tremendous reception by the entire settlement of Logy Bay. During the past week similar receptions were given at Torbay, Outer Cove, Flatrock and Logy Bay. These places are voting 90 to 100 per cent. for the Bennett Candidates. Outer Cove last night went over the top and welcomed the Fighting Trio with volleys of musketry, bonfires and a display of bunting. Houses all along the way had their windows lighted with candles, while in several places strings of flags crossed the road. The meeting was held in the parish schoolhouse. Mr. McDonnell who was unanimously elected chairman and in a splendid speech extended a hearty welcome to the candidates. Mr. W. J. Higgins was the first speaker. In his usual

heartly style he showed up the misdeeds of the Government and the present attempt to get a new lease of power under the guise of the Hummer Deal. Mr. N. J. Vincombe was next called upon. More popular than ever Nix was given a great reception. Through his speech there was frequent applause. Mr. Fox in an eloquent speech that lasted for a full hour reviewed the scandals and maladministration of the present Government; and the prominent benefits offered to the country in Mr. Bennett's Manifesto. He summarized the Government's disastrous handling of such important subjects as fish, salt and sugar. Mr. Fox was cheered repeatedly and was given a tremendous ovation as he resumed his seat.

Mr. James Gould proposed a vote of thanks to the Chairman, which was enthusiastically carried. The singing of the National Anthem closed the most unanimous meeting ever held in Logy Bay.

## Nfld. Expects Every Man to Do His Duty.

PERTINENT QUESTIONS OF THE MOMENT.

Editor Evening Telegram.

Dear Sir,—May 3rd—less than one week away—the date that will be written down in history as just as eventful as the date of the Magna Charta, because it is the day on which the freeborn sons of Newfoundland will take effective steps to regenerate their fallen country. The poet has truly said:—

"Breathes there a man with soul so dead,  
Who never to himself hath said  
This is my own, my native land."

And here, gentlemen electors of the whole island, a most pertinent question arises, and it is this: Is this island home of ours just as well off as it was four years ago, or as it might have been to-day. Is my home just as happy and my children just as comfortable? Have I, as a citizen or an elector just as much piece of mind? Am I just as prosperous; is my avocation in life just as secure; is my work just as remunerative? And gentlemen, these are not idle questions but ones that very seriously affect every reader of this letter. The answer must be an unqualified Yes or No. If the former, then vote for the men who have made it possible, but if the latter—and unfortunately, it is the latter for most of us—then we cannot before God and conscience vote even one single assent for any candidate of the party who is responsible for such calamitous times as now exist all over our once-prosperous island home.

May third—the day of rejuvenation—the day of national house-cleaning as it were—the resurrection day, from the grave of immorality of public life, of unconstitutional government, of the degradation of our people—the day when truly, as in the olden times "Newfoundland expects every man to do his duty," and that duty is as plain to every elector as it is possible to be. We must judge between two issues, two parties, two policies—one party of retrogressive measures, of impure public actions, of gross callousness to the needs of its constituents, of greed and gain and self, and the other party standing for progress, the rights of the people, the duties of the duly-elected representatives, the common right of existence. One policy of deathly regrets at what might have been, vain promises that from past experience will be broken, of negligence that is criminal; of apathy, of indifference and of gross injustices to the many, while the other policy stands for clean administration of the country, a banding together for the common good of labor and capital, of North and South and East and West, of fishermen and merchant, a chance to live in our own homeland and for better times to come, indeed.

Electors, one and all, let each man ask and answer these questions, and then like true freeborn men, who value their rights as citizens, and home-makers, fathers and husbands, do your duty, fearlessly and without favor. This is no time for petty strife—this is no time for personal bitterness—this is not the time for self or friends or relatives. It is the time for a complete vindication of our privileges, for a decided effort to nip in the bud, to choke while yet there is time, any effort on the part of Newfoundland's enemies to wreck her affairs.

Men, voters, true red-blooded men—loyal and worthy descendants of our forefathers who fought and bled for the rights that are ours to-day! Once and for all, are you satisfied with existing conditions? Are they good enough for you? If not, act the part of intelligent jurors who, having tried their case, as peers of your fellow men, must do your duty and render a verdict of Guilty, are guilty with deliberate intent, and let the present administration who is now the prisoner at the bar, answer if there be any reason why a well-merited sentence should not be passed. May 3rd—Newfoundland expects every man to do his duty.

VIVAMUS.

## Visited War Memorial Site.

HIS EXCELLENCY PLEASED WITH PROJECT.

This forenoon His Excellency Sir Wm. Allard, Lt.-Col. Padre Mangie with Captain Wilberforce Bell visited the site of the War Memorial at King's Beach and the G.W.V.A. Rooms where the model of the monument on display. The party also paid a visit to the Sergeant's War Memorial, Cathedral Square. ## Splendid Meeting at Spaniard's Bay Last Night.

(By Telephone)

There is no doubt to-day as to the feeling of Spaniard's Bay in strong support of the Opposition. Johnnie Le-Drew had better keep away from here with his little tricks after last night. It was a rousing meeting. A few heels had been primed to break it up but they quickly saw the spirit of the crowd and wisely kept quiet. The leader of the Opposition, Mr. Bennett spoke and although suffering from a bad cold he poured round after round into the Government defence amid enthusiastic cheers. Mr. Hickman followed next and then Mr. Archibald, the speaker of both being received with an intense enthusiasm that leaves no doubt as to the vote here. The meeting lasted over three hours, the hall was packed to the doors, and dissolved amid ringing cheers for the speakers, the Opposition and Bennett and Better Times. The news of the Squires fiasco in St. John's on Wednesday night and the sentiment that is reaching here from the town shows that Squires is down and out. Thank heaven we have representatives this time who can do something for us. We hear that Squires is coming over here to try and elect Piccott so that he can get a seat when Piccott resigns. Nothing doing.

We have real men this time and are going to keep them.

## Household Notes.

A good sweet sandwich is made by spreading one slice of bread with creamed peanut butter and the other with tart jelly.

When mixing mustard for a mustard plaster, use tepid water, as hot water destroys the medicinal properties of mustard.

To make cinnamon toast, butter the well browned toast and spread with scraped maple sugar mixed in cinnamon to taste.

If one half teaspoonful baking powder is used for crust of each fruit pie the upper crust will not sink in and become soggy.

Asbestos Baking Sheets.—Just arrived a new shipment, will not burn, absolutely clean and antiseptic for use in baking bread, pastry, roasts, fish, game, etc., can be used repeatedly. If the oven bakes to rapidly on the bottom place a sheet under the baking pan.—ap27,11
