The Bennett Bounty.

Now that the ballots are all counted no political kudos can be gained by the proposal made by John R. Bennett, the leader of the Opposition, to grant a bounty of one dollar a quintal on fish. The more we think of it the more we feel convinced that it would have solved the problem of fishery outfitting that now confronts the whole country. Now the only possible argument that could be raised against the project with any semblance of justification is—the country can't afford to do so. That is to say, the financial condition of the country will not allow the Government to undertake such an expensive work. After considering the subject in all its phases and anticipating its possible results, we say, with full justification, under all the circumstances that the country cannot afford not to do so. The issue involved is shall the fishery be carried on or shall it be abandoned by 60 per cent. of the fishermen? Assuming that our catch next December would be 1,500,000 quintals, a bounty of one dollar on every quintal would, of course, be \$1,500,000 provided that it was paid on all qualities of fish. Out of this fully six hundred thousand dollars would go back to the Government in taxes. There would be very little emigration of the fishermen and this would be another great gain to the country. The prospective poor relief that will likely have to be continued on a half a million dollar scale again next winter, all over the country, would be saved to the public treasury. The astonishing feature of it is that the majority of the fishermen of the country should by their votes throw down such an offer. With the bounty behind them they would make the fishery pay this season and the party that offered the bounty included the principal men who issue fishery supplies. How different would be the position of those fishermen to-day if they had voted for the party behind the bounty and the men in that party who issue fishery supplies. The whole situation is well illustrated in the old proverb: "Whom the gods wish to destroy the first make mad."

England's new Prime Minister, Stanley Baldwin, was born August 3, 1867, son of the late Alfred Baldwin, M.P. In 1892 he married Lucy, the daughter of the late E. L. J. Ridsdale, of Rotherham. This time at a by-election in the Bewdley division of Worcestershire, a vacancy caused by the death of his father. Here he was successful. For nearly ten years he attracted little attention. In fact business affairs principally absorbed him; then he acted as parliamentary private secretary to the man he has now succeeded in the Premiership, and early

I AM THE BABY.

I am the baby.
I am the youngest institution in the world—and the oldest.
The Earth is my heritage when I come into being, and when I go I leave it to the next generation of Babies.

My mission is to leave the Earth a better place than I found it.
With my million little Brothers and Sisters I can do this if the World does not impose too many handicaps. Now I need Pure Milk and Fresh Air and Play. When I am a little older I shall need good schools in which to learn the Lessons of Life.

I want to live, love, laugh, work and play. I want to hear good music, read good books see beautiful pictures.

I want to build Houses and Roads and Railroads and Cities.

I want to walk in the woods, bathe in the waters, and play in the snow. I am yesterday, to-day and to-morrow. If you will make my way easy now, I will help you when I grow up. I am your hope.

Herbert Warren Overdue.

VESSEL 100 DAYS OUT FROM CADIZ.

Grave fears are entertained for the schooner Herbert Warren, now 120 days out from Cadiz with a cargo of salt for this port. The vessel is owned by James Baird, Ltd. and was well found in every respect, having two suits of sails and a full stock of provisions. About a year ago she was completely refitted at Lonsburg, being given a new bottom, her repairs costing in the neighborhood of nine thousand dollars. The Herbert Warren left her last November for Seville with a cargo fish. After discharging a cargo of 300 tons salt was taken on board and the return trip was commenced on Jan. 20th. Since then no report of the vessel has been received. The Herbert Warren was formerly commanded by Capt. Gerald Doyle and under his charge proved a splendid sea boat and fast under sail. The vessel carries a crew of 22 men as follows:—Capt. A. Ringman, aged 35, born in Sweden but resident here for a number of years; Mate L. Hollman, 30, Victoria Street, married; Bosun Gus Johnson, 42, native of Norway, single; cook; Edward Wakeham, 30, resident "Pine Street, married; seaman Thomas Power, 22, Moore Street, single; Timothy Walsh, 24, native of Canada; B. Noseworthy, 23, native of Harbor Grace, but resident in this city.

Thunder and Lightning.

THOROUGHbred HORSES PERISH IN FIRE.

CLEVELAND, June 1.
Eight thoroughbred horses and a pony were burned to death in a fire which destroyed five barns at the Ohio State Jockey Club's race track, at Maple Heights, near Bedford, Ohio, late yesterday. Nearly one hundred and fifty racers were trapped in the barns, but attendants heroically cut them loose and let them run at large; but several may have to be destroyed. The loss to horse owners is estimated at \$300,000.

CANADA MAY WITHDRAW PRIVILEGES TO U.S. FISHING VESSELS.

OTTAWA, June 1.
The Hon. Ernest LaPointe announced in the Commons last night that the question of withdrawing from the American fishing vessels the privilege of using Canadian ports, is still under discussion. "A decision will be reached shortly," he added. "My opinion," said the Minister, "is, we cannot get similar privileges from the United States, and it is only fair that we should close our ports to them." Mr. R. B. Hanson, Conservative, for York, Sudbury, N.B., heartily agreed and said: "We will never get anything from the American Government by lying down." Mr. G. S. McBride, Progressive, for Carleton, said: "It is about time Canada should treat the American fishermen the way they treat ours."

DISASTROUS FIRE AT NORTH SYDNEY.

NORTH SYDNEY, June 1.

PROTEST EXHUMATION OF POCAHONTAS.

GRAVESEND, England, June 1.
Another storm of protest over the exhumation of the long forgotten dead; similar to that which attended the exhumation of the remains of the Indian Princess Pocahontas, who is believed to have been interred in the graveyard of the Parish Church, in this little Thames-side town. In spite of the dire warning of disaster, which surrounded the bones of their dead, Edward Page Weston of Chicago, with Government permits and surrounded by experts, has been steadily excavating and has dug up more than a hundred skeletons and skulls which appear to have been those of Indians and one of which may be that of Pocahontas; whose body, the Register says, was buried in that churchyard three hundred and seven years ago.

CHINESE BANDITS WILL RELEASE PRISONERS.

TUNTSIN, June 1.

RELIGIOUS RIOT IN MEXICO.

MEXICO CITY, June 1.
Ten persons were killed and seven wounded in religious riots at Durango City last night, when a mob attacked the Provincial Palace and destroyed the mounted police, according to despatches to the newspaper Excelsior. The disorders are said to have arisen over the new law, limiting the number of ministers permitted to officiate in the state to twenty for each denomination. The Catholic priests in Durango normally number two hundred and fifty. A mob of three thousand Catholics visited the Palace to ask for a repeal to this law, and after waiting for three hours before storming the Palace and a law was passed in which seven civilians and three policemen were killed.
