Winnipeg Wheat

Winnipeg, Sept. 26.—There was liftle new on the grain market today. Options opened fractionally under the previous close, and trading was very moderate. Cash demand was confined almost entirely to spot wheat, and all grades were wanted, while inquiry was light and all bids were reported out of line. grades were wanted, while inquiry was light and all bids were reported out of line.

Receipts were fairly liberal, and there were 260 cars in sight for the day. Grading was well sustained, there being 254 cars of contract out of 282 cars inspected.

The close showed a decline for the day of ½ to % cents at Winnipes, %c to %c at Minneapolis, and %c to %c at Chicago.

Chicago, Sept. 26.—Wheat prices became heavier today under selling due to clearing weather conditions in the northwest poor cash demand, and depressing cables. The market closed nervous, % to %c net lower. Latest trading left corn %c to %c decline, cats down % to %c cent.

News that threshers had been able to resume work in North Dakota gave courage to the bears in wheat. Previous advices from that direction told of delay after delay, because of the rain, cold and snow. Today Winnipeg sent word that receipts were expected to increase forthwith

A dittle export inquiry was reported rain, coid and snow. Today Winnipeg sent word that receipts were expected to increase forthwith

A little export inquiry was reported there, but in other quarters except Minneapolis, cash dealings, whether domestic or foreign, showed a decided lack of vim.

Larger and cheaper offerings of Russian and Canadian wheat were regarded here as chiefly responsible for the backset in Europe's quotations. Favorable crop reports from Argentina counted also against the bulls, and corn weakness added to the overweight. December fluctuated between \$19% and 90%, with last sales 90%, a loss of % to %c as compared with 24 hours before.

Frosts failed to stimulate any important buying of corn. On the other hand, sellers were plentiful and seemed confident that the crop had gone safely past the danger period, although more frosts were predicted for nearly all the central states tonight. December ranged from 53% to 54, to 53% cents. Cash grades were weak.

Oats dragged lower, with wheat and corn. Country holders were reported to be letting go with great readiness. Outside limits reached by December were 32% to 32% cents. The close, 32% cents, was a decline of % to % cent net.

der arrest here in connection with the \$271,000 robbery of the branch Bank of Montreal at New Westminster. This much was grudgingly admitted last night by Herman Scheuttler, acting chief of police. Chief Scheuttler was quite stingy with his secrets, and it cannot be positively stated whether the rest of the crackers—the long and short men-who bounced a piano stool off the head of Lieutenant Burns and then galloped away, are caught or not. The chief does not know the exact status in underground society of the two men who beat Lieutenant Burns. He cannot positively say their names or rattle off their pedigree. This, he admits, is why he caused the two ar-rested men to be sneaked out to an outlying police station in an automo-bile where the third degree may be administered without fear of habeas corpus, lawyers or flashlight photogcaphers.

Also the police have a slice of the much-sought Canadian loot. The value is given as \$10,000. The generally accepted theory is that the money was turned over to the police by an attorney for Sidias, keeper of the Greek saloon on Wabash avenue, where Lieutenant Burns made his last stand and fell down.

The \$10,000 is said to have been

given to some man in Sidias' saloon, if not to Sidias himself, to have it transferred into United States money. The man who got the money is reported and asked him to do the changing The private banker advised him in good conscience and good law to go

The story of the two cracksmen's escape as told here is remarkable Two crooks of international reputation, both well known to the officers involved, and according to the police here with a large slice of the proceeds of the Bank of Montreal robbery in their possession, have been in Chicago for the last three weeks. In the ordinary course of events the Chicago police were informed of their whereabouts and were given details as to the robbery, the amount of the loot and the hangout of the alleged thieves in this city.
