Local Market.

London, Thursday, Nov. 30.

The somber appearance of the weather today did not appear to mill-tate seriously against the attendance of the farmers. It was an ordinary market for a Thursday at this time of the year, when the farmers are preparing for the long winter months and desire to take advantage of the continued fine weather. In no line was there any appreciable falling off, unless it was potatoes, which are not as largely supplied as heretofore. Today there was a very active demand for good poultry, and all that could London, Thursday, Nov. 30.

CHICAGO, Nov. 29 .- Wheat-With the exception of a momentary bulge, the market was weak today, intensified by the depression of Liverpool and a poor demand, closing ½c to %c under yesterday. Corn closed a shade down. Oats were unchanged and provisions lower. The break in Liverpool, despite the strength developed here yesterday, was the prime factor in the local mar-ket. Operators looked for a rallying influence in cables. The wheat taken in yesterday was disposed of early. Buying against puts, together with purchases made on the strength of light Northwest receipts, caused a rally from the opening, May touching 70% c and December 66c. This advantage was and December 66c. This advantage was lost, however, as the cash and export demands were poor. The market became heavy and May closed 1/2c to 1/3c down, at 69%c; December, 1/3c to 1/3c off at 65%c to 65%c. Trade was dull. As tomorrow is a holiday this was the last day for December as a future, and much trading was done to even up and in preparation for delivery day. The

AGUINALDO STILL HIDING

Two Brigades of Filipinos Defeated and Scattered.

Col. Bell Captured All Their Artillery and Supplies.

Manila, Nov. 30.—Gen. Young, with three troops of 3rd Cavalry and a small detachment of Macabebes, commanded by Lieuts. Hall, Quinlan and Blount, arrived at Namacpacan from San Fernanda de Union, on Thursday, Nov. 23. There they received news of Aguinaldo, from which it appears that he passed north through Namacpacan on Tuesday, Nov. 21, while Gen. Young was waiting at San Fernando, twenty miles south. The rebel chief is now miles south. The rebel chief is now believed to be hiding in Abra province. When Aguinaldo passed through Namacpacan all his talk was in favor

of continuing the war. The Oregon, Samara and Callao, with The Oregon, Samara and Canao, with 160 bluejackets and marines from the Oregon, captured the port of Vigan, province of South Ilocos. The Samara and Callao ran close inshore, a few shots were fired, and then the Samara, Callac and Oregon angaged in a sharp Callao and Oregon engaged in a sharp bombardment of Vigan. The firing from the shore ceased almost immediately, and the sailors and marines, with a field piece, were landed, and found that the insurgents had fled.

'PINOS ON THE RUN. The fight in which Col. Bell defeated and scattered the rebel brigades of Gens. Alejandrino and Sans Miguel, took place on the summit of the mountains, west of Mangalaren, forming the

and Remingtons, some American Winchesters, and a thousand rounds of ammunition. The rifles, etc., were abandoned in the rebels' retreat and were scattered along their trail for two miles, the enemy escaping empty-handed, with the exception of a few rifles. The women and children in shacks in the camp, had no time to escape.

The rebels had artillery trained to command the regular trail from Mangalaren, but Col. Bell approached from the opposite direction. The rebels are estimated to have numbered 2,000 men, with some English, Japanese and four

To Accommodate the Expansion in Certain Departments.

The floor space of the Runians, Gray & Carrie Company's big store has been considerable increased by extensive alterations on the ground floor. Additional counters have been put in, but the counters have been arranged to leave broad, straight aisles from end to end of the store, a change which all customers who have experienced one of the Runians, Gray & Carrie Company's crowded days will appreciate. The approaches to the basement and to the first floor have been greatly improved. The manner in which every inch of space in the great store has been utilized to the best advantage compels admiration. The alterations were necessary to accommodate the rapid growth of business in the ribbon, lace and handkerchief and fancy goods de-partments. The volume of business in these departments has been phenomenal. Consequently the firm has invested many more thousands of dollars in them this season than formerly. Most of the Christmas goods have already been received. Never before in London have there been so many beautiful things to choose from. The novelties were never before so dainty or so serviceable. The dolls, whose name is legion, are marvels of beauty and ingenuity. Among the daintiest things shown are a large variety of lace and ivory fans. Some very handsome Wedgwood and cut glass goods are among the novelties. A line of Oriental goods in paper knives, bonbon spoons, pie knives, etc, are very attractive. In the lace department a lot of new hand-made Flemish and Battenberg laces have just arrived. They are exquisite. There is also a great variety of Christmas novelties in embroidered, lace-trimmed, lawn and linen handkerchiefs.

Farewell and Presentation to a Popular Farmer and His Family.

West Nissouri, Nov. 30 .- On Friday, Nov. 24, a very pleasant evening was spent at the home of Mr. John Baker, where not a small number of his friends and neighbors gathered together to show the high esteem in which he is held, and to bid him farewell before his departure to his new home in Thamesford. Mr. Baker is one of the oldest farmers in the neighborhood, and he and his family are much respected and beloved by all who know them. During the early part of the evening Mr., Mrs. and Miss Baker were made the recipients of a handsome chair each and a parlor table, and were presented with the following

BLACKSMITH'S PRICES GO UP

Increased Cost of Raw Materials Forces an Advance in Prices.

The blacksmiths of Oxford, Elgin, Perth, Huron, Middlesex, and of this city, held a meeting in Sherwood Hall yesterday for the purpose of discussing the advisability of an increase in prices. This is necessary on account of the continued advance in the cost of raw materials. This advance has entailed serious losses to them. About 100 representatives of the trade were at the meeting, and after seriously considering the situation, were unan-imous in the opinion that an increase was absolutely necessary, and agreed upon the scale mentioned in our ad-vertising columns. This move has not been made to increase their profits, but to prevent further losses. Representatives of the local merchants who supjdy blacksmithing materials were present, and understanding the situation, expressed their approval of the action, together with their determination
