May was hauling ice, and was seated on a plank on top of a load. The plank slipped on the ice and the driver was precipitated at the horses' heels. One of the team was a spirited animal, and it immediately started to run. The other animal required no additional prompting, and they were soon beyond control. May's head was directly in front of the wagon wheels, and acted much after the fashion of a brake. He was pushed over the frozen ground for a considerable distance, it being remarkable that he was not killed outright. He is doing as well as could be expected.

OFFERING LASTS THERE'S 30% DIVIDEND IN COAL OIL

I have been asked to offer to investors for immediate subscription at par, \$10,000.00 worth of the capital stock of the Comet Oil Company, Limited.

The Company is engaged in merchandising coal oil, a commodity which pays a gross profit of fully 100% for The business has been established about seven years,

in which term a trade of over nine thousand steady customers has been built up. Without the advantage of this additional capital, the earnings of the business for the past year were sufficient

to pay 30% upon the paid-up capital. Personally I feel satisfied that the business is an exceptionally good one, and that an investment in its

shares will net a substantial revenue to those interested. The shares are being marketed at \$10.00 par, payable

\$5.00 per shares with order, and balance at allotment. Applications to have shares reserved may be made by letter or telegram, subject to prospectus, a copy of

which will be mailed to all interested. Subscription books will remain open for six days only, and shares will be allotted in the same order as the applications are received, and all over or late subscriptions will be returned to subscribers.
