### SURVEYORS AT WORK FOR NEW RADIAL LONDON TO SARNIA

Petrolia Will be Included on the Proposed Electric Line.

[Special to The Advertiser.]  
WYOMING, July 3.—Surveyors have been at work in this vicinity during the week on the proposed new radial line—London to Sarnia—including Petrolia. Butcher cattle and stockmen are in lively demand. Local stockmen are kept busy buying in smaller lots to meet the demands for large numbers and car loads. One farmer alone handled seventy-five head during last week. Spring crops are looking well, although only light rain-falls have been in this locality. Hay is, of course, light, particularly the clovers. The corn fields, which were badly blackened by June's frost, are reviving wonderfully. The cloudy weather, it is believed, which followed the frost, proving beneficial.

### BLOWS ON HEAD CAUSED DEATH OF GUELPH ITALIAN

Little Progress Made Towards Clearing Up Murder Mystery.

### RECORD BUILDING YEAR

Permits for June Were Double Those Issued Same Time Last Year.

[Special to The Advertiser.]  
GUELPH, July 3.—After taking evidence until after midnight, the following verdict was returned by the coroner's jury, empaneled to investigate the cause of the death, and if possible, to find out the person or persons responsible for the death of John Barr, the Italian who was brutally murdered a week ago last Sunday night, in the vicinity of Holiday's brewery, on Essex street: "That the said John Barr came by his death on the night of Sunday, June 21, or early Monday morning, June 22, from blows on the head by some blunt instrument in the hands of some party or parties unknown to the jury."

This year will undoubtedly be the biggest building year Guelph has experienced for several years. During the month of June the permits totaled \$66,170, as against \$33,385 for the same month last year. This brings the total for the first six months of the year up to \$381,999, as compared with \$229,289 for the same period last year. The amount for the first half of this year is greater by several thousand dollars than for the whole of last year.

### CLAIM SARNIA MAN RAN HIS AUTOMOBILE THROUGH A FUNERAL

Must Appear Before Blenheim Magistrate for Violating Act.

[Special to The Advertiser.]  
SARNIA, July 3.—For running his auto through a funeral a few days ago, a resident of Sarnia has been summoned here to appear before Police Magistrate Greenwood for a violation of the act. Funeral directors here are very much annoyed.

The main road for tourists is the Ridge road, and this road leads towards the cemetery, and frequently in the past funerals have been passed or cut through by auto drivers, who do not seem to know the law in this matter, and openly violate it.

The Sarnia man is not the first one who has had to face the court here for breach of the act.

Early Potatoes Plentiful.  
The early potato harvest will be on next week, the weather being favorable. Several early growers have been using the early tubers for some days, and shipments will be made next week. Owing to the scarcity, they are looking for a good price. The crop is reported good. The Ridge land here is quite adapted to this industry.

Organization for the year has been completed for the great Harwich Township and Blenheim School fair, and the dates fixed for Nov. 2 and 3, two days this year. The officers chosen are as follows: Honorary president, A. R. Everett; president, John A. Cameron; vice-president, Reeve A. Huffman; secretary, W. J. Baird; executive officer, Inspector Rev. W. H. G. Colles; director of judging, A. R. Everett; advisory committee, the above officers and R. L. Gosnell, chairman of the P. S. Board; Roy Abraham, field agent education department; A. S. Maynard, Andrew Denholm, Mayor J. B. Little, Charles Johnson and Warden Byron Robinson.

The fair last year was a much-talked-of event the province over, and according to plans laid for this year the committee propose that it shall exceed by far that of last year.

A much larger prize list is offered, and arrangements will be made for indoor space, so that the weather will not interfere much with the show. The school children have made great plans by planting and caring for products of their own raising to exhibit.

### FRANK PARKER RESIGNS FROM HOUSE OF REFUGE

[Special to The Advertiser.]  
WOODSTOCK, July 3.—Mr. Frank Parker, who has been the manager of the Oxford County House of Refuge for the past five years, resigned today on account of the ill health of Mrs. Parker, who was matron of the institution. Mr. Parker has been a very capable official. Mr. and Mrs. Parker will remain until the end of the year.

### SARNIA WORKERS INDIGNANT OVER NEW INCOME TAX

Many Girls Employed in Port Huron Must Pay.

MEN ARE HIT HARDEST  
Many Declare That They Will Move Across the River.

[Special to The Advertiser.]  
SARNIA, July 3.—It is estimated that about two hundred Canadians, who reside in Sarnia and work in Port Huron, are affected by the United States income tax, the provisions of which require that any alien living abroad and working in the States shall pay one per cent on his income.

Fully half of the Sarnia people who work in Port Huron are girls, and the majority of them receive but small salaries, one per cent of which must go to the Government.

The girls are very indignant, and in the offices and stores, laundries and factories throughout the city, the main topic of conversation is the income tax.

Many of them do not understand it, and the views held by different ones are amusing. Among the men indignation finds vent in strong language and threats to go back and work in Canada. Those who are holding positions that pay a good salary, are talking of moving to Port Huron to avoid the income tax.

Essentially this tax was drawn up to hit the rich people living abroad, who derive their wealth from sources in the States, but under its special wording the whole border between Canada and the United States is hit even harder. Threats are being heard in Canada of a similar tax to be imposed on Americans who work there and reside here.

### BUILDING TURNING SLIP

[Special to The Advertiser.]  
SARNIA, July 3.—A turning slip is now being constructed in the Port Huron and Sarnia ferry company's wharf in Black River at Port Huron, so that the steamers can be turned about at that end of the run without such a loss of time as is required by the present process. The slip is merely a triangular cut in the dock, into which the stern of the boat fits when she is being turned about.

### STROKE RESULTS FATALITY

BRIDGEN, July 3.—Mrs. William Aiken, aged 87, died at her home in Detroit, Mich., from a paralytic stroke. Deceased was a resident of Bridgen for many years. The funeral will take place from the residence of D. P. Shaw, Sydenham avenue, Bridgen, on Saturday, to Bear Creek cemetery. Three daughters, Mrs. William Shaw, of the 6th Concession; Grace and Martha, of Detroit, and two sons, Joe, of Detroit, and John, of Point Edward, survive.

### REIDS HAVE FLOATED THE STEAMER HANNA

Big Boat Ran on the Rocks in November Gale.

NOW IN GOOD CONDITION

Will Be Brought to Sarnia as Soon as Repairs Are Made.

[Special to The Advertiser.]  
SARNIA, July 3.—Captain Tom Reid and his crew of wreckers have successfully floated the steamer Howard M. Hanna Jun., from the rocks at Point Aux Barques, and have taken her into Harbor Beach. If the boat is in good condition the trip to Port Huron will be made today, and the steamer should reach this port during the afternoon.

It is asserted that the steamer is in better shape than was supposed, and that as soon as the pumps were started the water went down rapidly, and the steamer lifted off the rocks without difficulty. After a hasty examination by Captain Reid, the order was given to steam ahead for Harbor Beach.

Own Pumps Operating.  
The Hanna's own pumps are operating under her own steam. In salvaging the Hanna it is thought that the Reid's have secured a good prize. The boat was wrecked during the heavy storm of November 9. During the winter months, while she was surrounded with ice, the steamer was stripped of everything that could be carried away by beach combers.

The Reids have been working on the wreck for three weeks, most of the time having been spent lightening her cargo of coal, which was brought to Sarnia. The Hanna, having purchased her from the underwriters. Her exact condition will not be known until she is placed in dry dock.

### STRATFORD COUNCIL AIMS TO PREVENT ANY DISASTER

Will Ask for Tenders for Large Amount of Fire Apparatus.

[Special to The Advertiser.]  
STRATFORD, July 3.—Notwithstanding that the people recently turned down a bylaw, which had as its purpose the securing of adequate fire apparatus for this city, the city council has instructed Fire Chief Kappela to ask for tenders for the following: One steam fire engine, one city service ladder truck, one horse-drawn combination, chemical and hose wagon.

In connection with the latter, tenders will also be asked for a motor-driven wagon for the same use. The city council declares that it refuses to let any neglect on its part be the means of any big disaster in Stratford.

A very enjoyable evening was spent and lunch served on the lawn. All joined in wishing them every success at their new home in Pembroke, Dr. Eckel's successor will be Dr. S. O. H. Jones, of London.

### CAN FIND NO TRACE OF KIDNAPPED BABY

Relatives Think Child Was Likely Taken to St. Thomas.

MOTHER IS IN DETROIT

Authorities Asked to Take Steps to Secure Child's Return.

[Special to The Advertiser.]  
PORT DUFFER, July 3.—So far, all efforts to locate the Brock baby, which was kidnapped from its grandmother's home yesterday by its father, have failed. Mrs. W. W. Wells, who has been raising the child, went to Simcoe to interview the crown attorney, with a view to getting the baby back again.

Mrs. Brock, its mother, is at present working in Detroit.

It is thought here that Brock has taken the baby to St. Thomas.

A Splendid Season.  
The tourist season here has been a splendid one so far. Scores of people from Toronto, Brantford, London, Woodstock and other points are spending their vacations here.

A narrow escape from a serious accident happened on Wednesday afternoon, when the horse of J. A. McBride, became frightened, and his son Arnold who had the bit out of the horse's mouth to allow it to eat grass, was unable to get it stopped. He held on and after going around 2 or 3 blocks, the horse finally came to a stop against a tree, smashing the buggy and throwing the boy violently to the ground. He had his leg badly cut and bruised.

Miss Jennie Sloan, of Brantford, was home for the holiday, at her parents.

Miss Franklin, of Port Rowan, was the guest of Miss Wimmer over the holiday.

Mr. W. J. Wiggins, of the Northern Crown Bank, left Thursday evening for Napanee, to which place he has been transferred. His many friends will miss his congenial company, but wish him success in his new position.

Gordon Silverthorn and wife are visiting his parents here for a few days. They motored here from Des Moines.

After an extended trip to the Thousand Islands and Montreal, Mr. and Mrs. Boulton will reside on Nelson street, Wallaceburg.

### MONSTER BERRIES PICKED AT BRUSSELS SURPRISE GROWERS

Strawberries Measured Eight Inches in Circumference.

GREAT CROP PROSPECTS

Grain is in Fine Shape, and Fruit Will Be Very Plentiful.

[Special to The Advertiser.]  
BRUSSELS, July 3.—That this district has undreamed-of possibilities for fruit-raising, is indicated by strawberries just grown by Mr. John R. Bell. He picked a number recently which measured eight inches in circumference. The berries were of the very finest flavor and the highest quality.

Crops in general all through this district are in splendid shape, especially the grain, and farmers are preparing for a bumper harvest. There will be a good yield of fruit.

In the absence of Rev. D. Wren, who is holidaying at Belleville, the Methodist Church pulpit will be occupied on Sunday by Rev. Mr. Thompson, of Moncton.

Dunelna Thompson fell at her home, breaking her collarbone and injuring her arm.

DR MACKENZIE HURT  
BY FALL FROM BALCONY

[Special to The Advertiser.]  
SARNIA, July 3.—Dr. Mackenzie, a former resident of this city but now of the northwest, met with a serious accident today when he fell from the balcony of the Belchamber hotel to the pavement. He was sitting on the railing, when he lost his balance and went backwards on to the electric wires, which are just outside. The wire threw him back and he fell to the sidewalk a distance of about twelve feet. He alighted on his shoulders and although he was picked up unconscious, it is not thought that he secured any great injuries of a serious nature. He is being attended by Dr. Haves.
