The Canada Life Assurance Company

enjoyed another prosperous year in 1914.

The policies paid for in cash totalled over \$14,000,000., and the business in force now amounts to over \$157,400,000.

The increase in assets of \$3,942,000. was greater than that of 1913 and brings their total up to \$56,103,841.

A most gratifying feature of the year's business is the surplus earnings of over \$1,533,000., the year being in this respect one of the very best in the Company's history.

The Canada Life is this year distributing to policyholders

Dividends of over \$2,800,000

Not only is the amount now distributed materially greater than that of the last distribution in 1910, but the rate declared on policies has continuously improved since 1900.
