#### Preparations For the Wedding By JULIA HOYT

A wedding is a beautiful religious house decorations, the music, cost ceremony which should be planned of opening the church, conveyances for the bridal party, awnings, marriage announcements and newspaper the rest present with the solemnity notices. of the occasion. It is not an enterstaged especially to gratify the bride's or the parents' vanity. Simplicity and dignity should be its chief

within the means of the family, can never be called ostentatious. For my part, I would spend more thought However, I hesitate to set down any and money on that than on any other rule for as personal and intimate

the bride's family pay the expenses of the wedding, it should be planned within their means.

It is the bride's privilege to name

the wedding day and to decide whether she wants the wedding at home or in church, and what clergyman she wishes to perform the mony. It is unnecessary to add, I imagine, that in spite of this convention the bride should at least consider the wishes of the bridegroom. In other words they come to a mutual agreement as to a date and similar details. If the bride has a pet clergyman and the bridegroom also, it is customary for the bride's clergyman to "officiate" and the choice of the bridegroom to "assist" at the the bridegroom to "assist" at the

"Before the invitations are engraved the mother of the bride should make certain that the clergyman (or clergymen) as well as the church (if to be a church wedding) are available for the date decided upon.

One should allow the stationer at least a month to prepare these invitations, and they should all be addressed, stamped and sent out fully two weeks before the wedding.

Although the list of invitations is made by both the bride's and the bridegroom's mothers, the bride's 5½ inches wide by 7½ long. family pays for them, as it also pays With this invitation also goes for the trousseau, the church or card of admission to the church.

What the Bridegroom May Pay For plicity and dignity should be its chief characteristics. All ostentatious display is vulgar.

Beautiful music, however, if it is license, and the wedding present to license the license to license the license to l detail of the occasion.

Since it is the law of etiquette that the bride's family pay the expenses that personal feeling dictates.

The invitations are engraved on the first sheet of a heavy white plate-marked note paper and are always inclosed in two envelopes. The outer envelope bears both the name and address of the guest, while the inner one has only the name of the invited person written across it and always remains unsealed.

Two invitations are issued for a church wedding, one to the church and another to the house. In this case the double note paper is used for the church wedding and reads as

Beautiful Shoes

Wardrobe of Harrison Ford. BY A. T. GALLICO.

NEW YORK .- [Special Correspondence.]—It is possible that at present Harrison Ford knows less about his clothes than I do. Because he has probably forgotten what he wore the other day when I talked with him, whereas I have not. Although Mr. Ford is one of the best dressed actors on the screen, it is not due to constant effort and thought on his part. His good taste in clothes comes so naturaliy to him at the time of purchase and subsequent wearing of his various articles of apparel, that he can afford to onscious of what he is wearing. Which is exactly what happens with Mr. Ford, for to the numerous questions I put to him on the subject of ais wardrobe, he was able to give only

However, a brief mention of what h vore at the time of our meeting will give some idea as to the style of clothes he prefers. His suit was an oxford gray unfinished worsted of the most conservative cut. A rather bright blue four in hand cravat with a small white figure was worn in interesting combination with a solid color shirt of grayish blue, with self-attached collar. This was one point upon which I succeeded in getting definite information. Mr. Ford is especially partial to solid color shirts, as well as white oxford sports shirts. He never wears a stiff white collar except on the screen, when he is careful to be correctly and conventionally dressed in every detail if the part calls for it. A grayish brown top coat of the English slip on type, and a soft hat of about the same color, a tan wool mutfler, low shoes, and woolen socks com-

Nanny knew now that she was on the right track. Her nose told her this. Perhaps, after all, Danny had simply stayed away to work on that new tunnel. She raced along it and presently came to the end. There was no Danny Meadow Mouse. Right at the end of the tunnel was the dry stalk of a big weed. A little ray of light came down beside that dry stalk. Nanny understood at once that Danny Chatham Chapter had climbed that stalk and made a little hole out through the snow and ice. It was through this little hole

So Nanny Meadow Mouse climbed up the old stalk and slowly poked her funny little head out until she could see in all directions. She didn't look first for Danny. She looked first for danger. So it was that almost at once she saw Roughleg the Hawk heading straight for that spot. With-out even looking to see just where Danny was Nanny squeaked a warn-

ing and hastily backed down. That warning squeak was all that saved Danny Meadow Mouse. The instant he heard it he dropped down from that weed-top where he had been so busy eating seeds, and plunged head first down through that ole. He was barely in time. Roughleg's great wings brushed the snow above that hole a second after Danny had disappeared. Nanny had been

Just two pieces of material make this smart little frock, the pattern for which is cut in sizes 8, 10, 12 and 14 years. Only 1% yards of 36-inch material is

necessary to make it in the 8-year size. Price, 15 cents, stamps or coin (coin preferred).
You just stitch up the shoulder seams and side seams and finish the neck, and the prettiest little frock you have ever seen is finished

Crepe de chine would be just the ma-terial to make this frock because of its suppleness and adaptability to this particular style. A soft wash fabric would also make up well. Figuring crepe de chine at \$1.50 per yard, this crepe de chine at \$1.50 per yard, this little frock could be made for about \$2.80.
