area of land was secured. In was secured, and was secured in the considerable experience on the Bendigo, Balarat and other Victorian gold fields, was speedily impressed by the autricity. Again an Amatear.—The officials of the C. W. A. in British Columbia hare the cover the following 'communication from Mr. E. G. Dorr, of Tacoma, the detay of the status of Cooper Har received the following' communication for succeed in finding gold until about a month fred service. While the status of Cooper Har discoveries followed, and a few days late: "Regarding Mr. Cooper ed it in a loose piece of quartz. Other the C. A. C. C. at San Francisco, and in any pricety. The delay in the action mately Mr. Neeld and his sons decided upon hoisting the red fing and pegring out ther is the subsed per the finance of the max subsequently found." SPEEDY JUSTICE. reported than the news spread like wild-fire, numbers of men riding the same night towards the scene of the gold discoveries of means. in order to secure claims wherever possible.

In January, 1894, there were over 500 men on the field. In the following March the first parcels of ore were crushed at Barmadman, the centre of a quartz mining district. sixteen miles distant, when the marvellous richness of the ore became ascertained. The result was a great rush to the ground,

and about three weeks later the population had increased to about 10,000, but many subsequently left, being unable to secure aurmerous land. At the end of 1894 the lowne at 7 a m. arriving at the Royal

The total yield from the Wyalong solar solar augreen with 31,886 ounces. The total yield from the Wyalong gold the total yield from the Wyalong go field from its discovery at the end of 1893 sent Victoria in this engagement, and it up to the present has been estimated at 130,000 ounces, worth more than half a million sterling. The gold is extremely

million sterling. The gold is extremely fine, and sometimes not to be detected with-out the aid of a pocket lens. No alluvial gold is found, and in this respect the dis-trict differs from most of the large gold fields of the colony. The number and ex-tent of the reefs promise not only a steady increase in the rate of production, but also furnish indications of its permanency. The township of Wyalong, which occupies a site practicnily uninhabited in 1893, now boasts a population of about 7,000, court house, public and private schools, branch banks public and private schools, branch banks, church, public offices, several large hotels and numerous stores: also postal, tele-graphic and other facilities; all the direct, include 24, 25, 26 and 32 Eldorado, were purchased not long since by his brother, Charles Worden, \$250,000 being the price paid, according to Stanley senior. Since then Gage has purchased a splen-did home at Adams Centre, N. Y. "It will take us about three years to work out our Eldorado mines," the wealthy Klondiker said. "That is, if we work as many men as we did last winter. But we would not have run such a large but unexpected, result of a Victorian set-tler taking up land in New South Wales.

CANADIAN IRON.

Industries and Iron, London, Eng., ob-serves that "Canada as a factor in the world's iron supply is a new notion to many people, and beside last year's pro-duction of 11.773,934 tons of pig iron in the United States, the exports of the the United States, the exports of the Dominion may appear like an item from a balance sheet from Liliput. But they do exist, and along their present diminu-

do exist, and along their present diminu-tive course are expanding a good percent-age, if not yet of a large amount. Since 1895 the exports of pig iron from Canada have steadily grown from 295 tons, valued at \$6,200, to \$2,403 tons, valued at \$61,000, practically three-fourths going to the United States, most of the remainder to Great Britain and

work, whose description was given. It, too, was vague-a man with a grey over-

coat and glasses. In the hope that such a man might be In the hope that such a man might be met, Detective Perdue and Mr. McKeon took a stroll, and fortune favoring them, came across the identical party at the corner of Pandora and Douglas streets. He was asked where he lived and re-plied at the Osborne House. The officer walked there with him, and at the door was halted by the stranger—who cave his

walked there with him, and at the door was halted by the stranger—who gave his name as James Williams—with the informa-tion that he had been "fooling." "And is his heart in this war?" "I dont' exactly know. I ju what he says that it is in his b of the time."—Harper's Bazar. "And why did you not say so at first?" "As the natural question of the detective. "Well, I thought you might vag me," was the ingenious reply. regularly was the ingenious reply. "I guess that's not a bad idea," said the

letective, and Williams was walked to when searched his pocket disclosed a

when scarched his pocket disclosed a card bearing the name of L. C. Wood, a guest at the Hotel Victoria who had losts a valise a week ago. Williams made an immediate attempt to recover this piece of pasteboard, which he falteringly said "a man" had given him. The manner of the defence as much as the matter convinced the detective that he was on the victoria. But we would not have run such a large force had we known the royalty would remain 10 per cent. The Canadian government assured me that it would be educed to 21/2 per cent. before the spring clean-up set in, else we may not have the detective that he was on the right trail, and Williams-doubtless imagining that he was more effectually cornered than employed so many men; or, in other words, would not have taken out so much gold."

cago News. he really was-soon set all doubts at rest.

"That card gives me dead away, I guess." he said—and he then gave his correct ad-dress. It was quickly verified, and Mr. Blath's two vallses, with Mr. Wood's, was recovered intact DOES THIS STRIKE YOU? Muddy complexion.
