Wills was paced by McIntosh and McCarthy on a tandem, and finished even with them at the tape. The first and last quarters were made in 28 seconds. The races resulted as follows:

Dear Sir,—It is now about three months ago since I first ntoitized that a cure of my rupture was being effected by the use of one of your Wilkinson Trusses, and now I am fully convinced that the cure is both complete and effectual. I have on several occasions within the last few weeks taken long walks without truss or support of any kind, and have every confidence that my rupture, which, as you are aware, was of a very severe description, is now permanently healed, and I can assure you that I feel deeply thankful for the beneficial results. I have already recommended your appliances to several of my friends similarly affected.

Yours very sincerely,
