

The Lungs of Your Range

There is no flue system just like that of the Pandora Range. Before you buy a range learn about the Pandora method of heat distribution—it is the secret of good baking and of every kind of good work a good range should do. It is the lung system of the range.

LIKE HIS IMPERIAL MASTER

Von Buelow, Under the Wings of the German Eagle, Typical as of Ill-Omen to Mankind.

From Brand Whitlock's story of German oppression in Belgium in Everybody's Magazine, we take the following account of a single incident that occurred in May, 1914, just before the war. Mr. Whitlock, with other diplomats, was the dinner guest of Mr. Von Buelow, the German minister to Belgium.

"We were standing by a table in the corner of the room, and from among the objects d'art, the various trinkets, the signed photographs in silver frames, with which it was loaded, he drew forward a silver bowl that he used as a cendrier. As I dropped the ash of my cigar into it, I noticed that it was pierced on one side near the rim by a perfectly round hole, the jagged edges of which were thrust inward; plainly a bullet hole; doubtless it had a history. I asked him.

"Yes, a bullet hole," he said. "In China it stood on my desk, and one day during the riots a bullet came through the window and went right through it."

"Several of the guests pressed up to see; such a bowl with its jagged bullet hole and a history was an excellent subject for conversation; the German minister had to recount the circumstances several times.

"I have never had a post," he said, "where there has not been trouble; in Turkey it was the revolution; in China it was the Boxers. I am a bird of ill-omen."

MAKE LIGHT OF ALL RISKS

British Aviators Think Little of Danger When There is a Chance to Hurt the Enemy.

The daringly low flights of English airmen at the front are shown in the official notes to awards of the military cross:

Lieut. Richard Arvidine Maybery, R. F. C., after attacking two aeroplanes in succession at very low altitudes and inflicting considerable damage, attacked and dispersed a number of mounted men and then attacked a freight train. He next attacked and shot down a hostile machine at 500 feet, and before returning attacked a passenger train.

Second Lieut. Walbanke A. Pritt, R. F. C., in attacking a hostile aerodrome dropped bombs from a very low altitude and attacked and destroyed two enemy machines almost as soon as they had left the ground. A machine gun then opened upon him from the aerodrome, which he immediately attacked. Both on his outward and homeward journey he was under very heavy fire. Once he attacked a motorcar and shot one of the occupants from about fifty feet, afterward attacking infantry on the march and inflicting severe casualties upon them.

Second Lieut. Alexander A. N. Pentland, R. F. C., descended to within twenty feet of the ground and fired into eight hostile machines. On his return journey he attacked a train with considerable effect from low altitude. He has always shown fearlessness and devotion to duty in attacking enemy balloons and troops on the ground.

Finland's New Flag.

The Russian revolution will probably result in lengthening the list of the world's flags by several additions. Finland, which, since March, has ceased to be a grand duchy and has declared her independence and status as a republic, has now decided on her national colors. She will have three different standards: the national flag, the flag of the merchant service, and that of the pilot and customs services. The national colors are those which were acclaimed at the time of the revolution, the yellow lion of Finland surrounded by nine white roses on a red ground. The flag of the merchant service will have a yellow perpendicular cross on a red ground and in the top right-hand corner, nine white roses set symmetrically in three rows. The pilot and customs services flag will be the same, except that it will carry the yellow of Finland instead of the white roses.

Fought With Owl.

An employee of the Helena Land and Lumber company near Perkins, a short distance north of Escanaba, Mich., had a desperate encounter with a huge owl while walking through the woods late at night.

His first warning of the attack was when he was struck on the head and his fur cap pulled off. The great claws of the bird next were fastened to his skull and his face.

After a desperate fight in the dark the man succeeded in securing a good hold on the owl and killed it by dashing its head against a tree. The owl is on exhibition at the camp and is said to be the largest ever killed in that vicinity.

"CARDIFF GIANT" PURE FAKE

Had Its Origin in Hoax Which is Understood to Have Had Its Inception at Chicago.

Andrew D. White gives some of the particulars of the "Cardiff Giant" in a book entitled "The True Story of a Remarkable Deception." The Cardiff giant was the huge stone image of a man which Farmer Newell of Cardiff, N. Y., claimed to have unearthed while digging a well in the autumn of 1869. After it had been sold to a joint-stock company formed to exploit the wonder for show purposes, Barnum tried to buy it for his own museum, but his offer was declined. The showman then had an imitation made, with the result that two Cardiff giants were on exhibition at the same time, the duplicate being shown to the public as "the only and original." Doctor White attributes the exposure of the fake to Professor Marsh of Yale; in another account it was Dr. John V. Boynton of Syracuse, N. Y., who laid bare the fraud. The original Cardiff giant was carved or chiseled out of a gypsum block in a stoneyard in Chicago and was transported thence by rail and wagon to Cardiff. According to Doctor White, scientists as well as clergymen were much impressed with the colossal figure. Dr. James Hall, state geologist, issuing a statement in which he described the giant as "the most remarkable object brought to light in this country" and as "deserving the attention of archaeologists."

AN ALWAYS READY PILL.—To those of regular habit medicine is of little concern but the great majority of men are not of regular habit. The worry and cares of business prevent it, and out of the irregularity of life comes dyspepsia, indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective and there is none better than Parmelee's Vegetable Pills. They are simple in their composition and can be taken by the most delicately constituted.

Profiteering an Old Crime. Profiteering in necessities, which has been revealed in all degrees of baseness since the United States entered the war, is one of the world's oldest crimes, according to the Bible and other ancient writings. Bunyan showed that it was one of the banes of his time, and Pepsy told of the sacking of storehouses by the hungry English populace as the speculators held back supplies for higher prices when the people starved.

Not Much. "Be an optimist." "How?" "If they hand you a lemon, make lemonade." "What can you do with sour grapes?"—Louisville Courier-Journal.

\$500,000 for Muskrat Skins.

The annual January fur auction closed at St. Louis with sales totalling approximately \$3,350,000.

A lot of 710,000 muskrats brought \$500,000. Many of the skins brought \$1.50 each, an average price for good pelts being 75 cents. A few years ago muskrat skins sold on the market at low as five cents each. A collection of beaver brought \$25 per skin and the small lot of marten from Alaska set a record price of \$57 each.

Extraordinarily high prices paid this year were said to be due to the high quality of the furs.

More than 350 buyers from all parts of the world attended the sale.

Children Cry FOR FLETCHER'S CASTORIA

Aged Tree Is Dying. The original navel orange tree, planted 44 years ago, producer of the first navel oranges grown in the United States and parent of millions of trees now growing in California, is believed to be dying. Horticultural experts have begun efforts to diagnose the disease that threatens it in the hope of prolonging its life.

This tree, the most noted in the citrus industry of California, came originally from Bahia, Brazil. It was planted in 1873 by Mrs. C. L. Tibbets, who obtained it from the botanical gardens in Washington, D. C.

Electric Protection.

Many of the devices conjured up for war service, under pressure of deep desires, will be useful for the piping times of peace. The Canadian aviator who has designed a way to keep a flier warm by equipping his suit with electric wires may be painting the dawn of a new day for people who live in apartments where the janitor is careless.—Montreal Star.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

China has increased its telegraph lines to a total of 30,000 miles, of which the government owns more than one half.

Water pressure operates a new air compressor for automobilists so that no oil is sprayed into tires to injure them.

Home in Halifax roofed with Brantford Asphalt Slates

A handsome roof that defies the weather

An added touch of beauty to any house is a roof of Brantford Asphalt Slates, which are in soft, harmonious shades of reddish brown and dark green. The colors are permanent and unfadeable, being the natural shades of the slate just as it is taken out of the quarries.

It will also prove a very economical roof, because Brantford Asphalt Slates do not split, get loose, absorb water or rot. They are strongly fire-resistant and are classified as non-combustible by the fire insurance companies, and allowed to be used in cities where the most rigid fire-prevention By-laws are in force.

Brantford Asphalt Slates are very moderate in cost. The regular size of the slates and their pliability make them easily and quickly laid, thus saving time and cost of labor. Being made of high grade felt saturated and coated with asphalt, and with a surface of crushed slate, they make a roof that defies the elements and is a permanent part of the building, just like the walls and the foundation.

Brantford Asphalt Slates

are being used more extensively every year for city, country and summer homes, churches, golf clubs, stores, garages, and wherever an artistic effect is desired on a pitch roof.

If you are going to do any building this year or have an old roof that needs replacing, it will be to your advantage to investigate Brantford Asphalt Slates.
