NOVA-SCOTIA.

HORTLY will be published for Schools and private instruction, a comprehensive Groonative Ann History of Nova Scotta, written in plain yand easy language, with biographical and explanatory notes, and illustrated by A New Mar or Nova Scotta and the adjacent Provinces.

Upwards of two years since, the benefits of a work like that proposed allove, were publicly suggested by its outlior. Though approved of generally and forcibly teiterated by a talented gentfeman of the Mechancis' Institute, the suggestion was not followed up by a practical effort, and as the want which was then felt is daily become in more urgent,—the subscriber has been induced to prepare a small work which he trusts will supply the deficiency.

The object kept in view has been to afford assistance to those who are engaged in the honourable task of instructing the rising gent atton, in their efforts to inculcate a branch of knowledge with which all should be intimately acquainted—to present to the youth of Nova Scotia a succinct, yet complete and consecutive outline of the History of the Country, with a clear view of its principal' Geographical features. HORTLY will be published for Schools and

try, with a clear view of its principal Geographical features.

The subjects will be arranged in short chapters, apon the oniversally approved plan of Pinnock's Catechisms— with this peculiar deviation—that although the questions come in their proper places, the answers will be independent of them, and being printed in type one size larger than the questions) can be read successively without interruption. The book will contain 72 or more closely printed pages, and will be sold at the lowest possible price—unt higher than 1s 6d. A liberal deduction will be made to Booksellers Schoolmagers, and others taking several copies, who will bilige by forwarding their opinion of the number they may require, in order that the demand may be nearly ascertained.
