The Opium Habit.

THE STORY OF A MAN WHO CONQUERED IT longer a symbol of truth, and the moral

many a day I prayed. Then also came the may, to be done with this damnable tyranny. At 6 o'clock that evening I took a hearty meal (principally), and a little (very little)

red wine. It was June 10, 1868. I had determined to walk in the summer night, walk till I died if necessary, but walk till I won my battle, if I lived through the ordeal. I left my watch at home that I might not pawn it as I left home, and struck across the downs, I felt the craving coming on (the hour for my penultimate day dose was at hand), and I knew my temptation was with me, and realized how long and bitter the struggle she will give as large returns of milk in win-

The craving seemed to me a palpable shape me like a faithful dog that would not lose or leave me, that I could not leave or lose! Sometimes I sung, sometimes I raved and once, thank God, did my resolution falter. Much of that night I cannot remember.

Dim things come back to me at times -- such think I frightened some one who asked me

my head dropped on my hands. I slept for quite well. Since that day I have never touch it.

others, to put on record these plain and simple facts.

This I now do, and if I do so anonymously it is only because I believe that no further good could follow the knowledge of my identity or name.

A Cure for Dyspepsia. In investigating the cause of this preva-lent complaint it is found to rest principally in wrong action of the stomach and impur-ity of the blood. These exciting causes are

The wear and tear of life come chiefly

—The continual succession of boils, pimples, and eruptions from which many suffer, indicates an impure state of the blood. The most effective remedy is Ayer's Sarsaparilla. It expels the poison harmlessly through the natural channels, and leaves the skin clean perly do the work of underdraining such a

The Dairy Cow in Winter. ANSWERS TO THE RURAL NEW YORKER'S QUESTIONS ABOUT HER COMFORT. How much exercise does the winter milk-

What should be her stable comforts to induce her to do her best? I do not believe that she needs much exercise. Where cows are in full flow of milk pect a fine Autumn; if gnats fly in compact they rarely take any more exercise than bodies in the beams of the setting sun, there | they are obliged to. If in the pasture, they will eat, lie down, chew the cud, digest, eat If the garden spiders break and destroy again. The function of milk giving seems to call for as much quietude as possible. fend her. My own idea is that cows should have all Tenth-To remember her always in my winter I like to see them turned out for a blessed.

abolishment of the stanchion and the rigid fulfilling of the matrimonial as well as o length of floor involved in a drop. I would the Jewish law. tie the cow with a halter, giving her $3\frac{1}{2}$ feet of space in width, and seperate each cow from her neighbor. I would then secure if If green blinds are dingy and faded, wash, possible as perfect ventilation as could be and rub on a little sweet oil. If foxes and dogs howl and bark more provided while, preventing the freezing of For the earache, drop one drop of sweet than usual; if dogs grow sleepy and dull, the manure, I would give the cow sufficient oil up in the ear and place a piece of cotton Rur bedding for her comfort, and would rigidly in the outer ear. see to it that the stable was well sprinkled with land plaster morning and night. This the air and assemble in the corner of a field is from the standpoint of the largest promachine, and clothes wringer.

Editor Hoard's Dairyman. I have been dairying the whole year round If peacocks and guinea fowls scream and turkeys gobble, and if quail make more noise think my cows should be let out to water twice a day for exercise, but the longer I continued at winter dairying the more clearly I found that the less cows go out in the If swallows fly lower than usual, expect | cold the better the results, and when my If bats flutter and beetles fly about, there solved to build a more convenient one, which absorb, will be found of very great benefit would be warm and comfortable for the to infants, delicate children, the aged and

This I did and fitted it up with swinging stanchions of the latest and most comfortable pattern, and during the past two winters I have found that my cows do better and give If their are no falling stars to be seen on a bright Summer's evening you may look for fine weather.

have found that my cows do better and give better raturns when kept in their winter home from Dec. 1 to April 15, without be civilization, went upon record last week. As If there be many falling stars on a clear ing out except occassionally on very warm, thrifty mechanic married a young lady two

Now I put my dairy cows in the stable about the last of October at nights, and after about the first of November, or the 15th died, as the doctor said she would. Great confidence is placed in the old pro- at the latest, I do not let them out oftener I saw the new moon late yestreen Wi' the old moon in her arm. And if we're going to sea. master. I fear well come to harm.

It is also said of the moon that "if the new moon appears with the points of the crescent turned up, the month will be dry. If the points are turned down, it will be wet."

The Opium Habit.

I than once a week, and then only for a few minutes, and they are glad to come in their stable and enjoy it. Three times a day I feed cut corn fodder, dry cured, as green as I can secure, from Nov. 1 to April 15, or longer, if I have enough; then good clover hay antil I turn them out. To each cow I feed about fourteen pounds of grain, composed about fourteen pounds of grain, composed for han, oats, cornmeal, oil and cottonseed meal mixed. This I give dry, half in the morning and half in the evening after each than once a week, and then only for a few mean inixed. This ignee dry, and in the morning and half in the evening after each milbing. This is the best feed I can use.

nature I had not quite drowned leaped up in the dark, and called me "liar!" to my face.

I what may happen to cause the horse to shy would not allow cows to be out in a storm, or stumble, when before the driver can get especially rain in cold weather. I think it | control of the horse it might bolt and caus better for them to go a longer time without an accident. exercise than to have it under such circumstances. Stable comforts almost do away

ter as in summe 1. Provide a warm stable, with no drafts that walked beside me - a presence that of cold air. That the person in charge outran me and lost mε, and came back to should be warm enough with his coat off is a good rule to go by. 2. These should be plenty of room for each cow in her stall, the size of which should vary according to swore, sometimes prayed and wept; but never that of the animal. 3. The bed should be made of clean litter, knee deep, and then a little more might be added. The advantage of this cannot be emphasized too much. 4. as a fall I had once, burting my knee. I of this cannot be channeled as a fall I had once, burting my knee. I The stables should be clean. No stock can do their best in a filthy stable. No man is some question, and I believe I can recollect fit to care for them who allows such a condition. All dirty bedding and filth should fear of hurting myself, not others; and be removed night and morning and replaced

awful thirst—but I must have slaked it somewhere, for in the morning my clothes

6. The cows should have clean and moderand necktie were all wet, and so was my ately warm water twice a day. 7. They At 7 in the morning of the next day I should get a bushel of good ensilage night and morning with what nice mixed clover found myself leaning on a gate and looking and timothy hay they will eat up clean. I out on the landscape before me with a sort always feed bran liberally at all times of the THE GRODER DYSPEPSIA CURE Co. (I think) only a few minutes, and awoke tion with it, such as commeal or linseed or quite well. Since that day I have never cottonseed meal. Regularity in care and feeding is a very important element of sucouch it.

Of course I am well aware that the doses cess. So are quietness and gentleness in and about the stable. I find when these to which I had became accustomed were rules are carefully observed in minute detail not very large, but I am also sure that they that any cow will be willing to do her best. were on the increase, and having told my And if in ten months out of twelve (which experience lately to a distinguished English is as long as a cow ought to be required to

Geod gravel roads exist in great abundance throughout the villages and towns of Massachusetts. The gravel should not be a clean, dry gravel, but should have sufficient clayey or earthy matter to give it the binding quality. Any pebbles greater than 11 ity of the blood. These exciting causes are easily removed by the regularing, purifying tonic and digestive effects of Burdock Blood Bitters, hence the success of B. B. a. in curing Dyspepsia in any form, no matter of how long standing or how severe it may be. keeping the gravel wet while it is being roll The wear and tear of life come chiefly from straining after the impossible. Nervous excitement, alternate hopes and disappointments, unavailing struggles, feverish anxieties, bitter failures—these are the worst enemies of health and happiness, the most fatal destroyers of peace and property. They come for the most part from taking up needless burdens. ed. Then add a second layer, and treat it the wear, has the compact sides to resist the spreading of the material and can be rolled very hard and solid. A gravel road well pervious covering and will shed the water

> road would do excellent service withou being unduly expensive. The Plain Truth

Is good enough for Hoods Sarsaparilla—there is no need of embellishment or sensationalism. Simply what Hood's Sarsaparilla does, that tells the story of its merit. If you have never realized its benefit a single bottle will convince you it is a good medicine.

The highest praise has been won by Hood's Pills for their easy, yet efficient act by all druggists. Price 25 cents.

sauce or jelly may be used. CRANBERRY PUDDING .- Cook one pint of another." cranberries and rub through a sieve. Add er of to the pulp half a pound or a little more of

sugar, one-fourth pound of melted butter,

thirty minutes. CRANBERRY DUMPLINGS. - Make a rich you have waited for this job until you were biscuit dough with sour milk and soda, or with sweet milk and baking powder. The dough should be a trifle stiffer than for biseuis Roll out until about half an inch thick, t in convenient pieces, fill with raw cranberries and a little sugar. Press the edges

of the dough together carefully. They may each be wrapped in cloth, and dropped into a kettle of boiling water, or they may be BAKED CRANBERRY DUMPLINGS. - Make

a dough as for boiled dumplings, only softer. Place the dumplings in a pan which is four or five inches deep (do not let them touch each other); then pour in hot water, just J. CUTHIT BOWLBY and ELLEN BOWLBY, Def'dants. dumplings allow one teacupful of sugar and mplings allow one teacupful of sugar and half a cupful of butter. Bake for thirty or forty minutes. If the water cooks away too much add more. Serve the dumplings on a large flat dish or platter, and the liquid in a

sauce-boat for dressing. Useful Receipts.

Black lead brushes up quicker if mixed with turpentine. Corks which have been steeped in vase ine are said to be an excellent substitute for Dripping is most useful in a moderate mily; it will make good pie-crust and supply the place of suet in dumpling; it is also

excellent for frying. The skin of a boiled egg is the best remedy or a boil. Carefully peel it, wet, and apply to the boil; it draws out the matter and re ieves soreness. When you have spilled anything on the stove, or milk has boiled over and a suffocating smoke arises, sprinkle the spot with

salt and it will disappear immediately. How to Stop a Hiccough.-A very good authority in The Ladies' Home Journal, gives a simple remedy for hiccough:-a lump the place of beginning, containing four acres, be the same more or less.

Together with all and singular the aphiccough in nine.

How to Drink Milk.

Some complain, says a contemporary, that they cannot drink milk without being distressed by it." The most common reaon why milk is not well borne is due to the fact that people drink it ato quickly. If a glass of it is swallowed hastily it enters the tomach and then enters in one solid, curdled ass, difficult of digestion. If, on the other hand, the same quantity is sipped, and three minutes at least are occupied in drinking it, then on reaching the stomach it is so divided that when coagulated, as it must be by the gastric juice, while digestion is going on, nstead of being in one hard, condensed mass upon the outside of which only the diges. tive fluids can act, it is more in the form of sponge and in and out of the entire bulk the gastric juice can play freely and perform
