# THOSE \$6 ROBES

TLL be harder to get one of 'em at \$8 or \$9 a month hence than it is now to get one for \$6. Nothing like 'em ever seen in Canada for the money. Without saying much, we're sending them out in dozens every day to all sections of the country. Orders coming in with every mail. Why wouldn't they? Never be a chance like it again. Think of it! A handsome, long-haired Guat Robe, 60 x 72 inches, plush lined, felt edged, selected skins, and entirely our own make for \$6. Not the kind of Robe that's made up in a hurry, but made specially by our own hands. No haste about the work. You get 'em for \$6, but they're being sold at \$8, and even higher. Can't last much longer-so hurry up.

MONEY RACK IF NOT SATISFIED.

#### NEW ENTERPRISE

E call the attention of our many readers to the commendable method employed by the Co-Operative Knitting Company of this withod employed by the Co-Operative Knitting Company of this City, of employing people at their homes on the Co-operative plan, whereby the interests of the company and their employees at once become mutual. This method has been successfully employed in the manufacture of various kinds of goods in many parts of Europe, and we cannot see why the same co-operative method should not be equally successful in this country. Therefore we wish to congratulate the promocers of this company in the introduction of this method to the people of this country, thus enabling them to secure profitable employment at home. By this co-operative plan those wanting employment get a \$20 machine and out if free. The company for its part turnishes the knitters the necessary yarn, patterns, instructions PREE, and money to pay

them for their work, superintends the business and takes for its part the profits derived from the products of the labor of the knitters. All the workers naturally have the welfare and interest of the company at heart and bend their energies to assure it of success, as their interests and that of the company are mutual. The workers cannot hope for the company to succeed without the proper effort and hearty co-operation on their part as they are virtually a part of the company. Thus it will be seen that the company employing people at their homes, doing business on the co-operative plan, will necessarily succeed, whereas other companies doing business by the old method cannot hope to successfully compete with the co-operative plan. We feel it of importance to many of our readers that they should write for a membership and avail them selves of the opportunity of taking employment at home with this Co-operative Company.
