

THE UNDERWOOD

"Tried and True". Don't take our word for it. We are prejudiced. We can show you the Underwood, how it works and what it will do, but for the **Most Convincing Argument**, you will have to ask any of the 5500 users in **Canada**.

More Underwood Typewriters are in use in Canada than all other makes Combined.

We carry a large stock of rebuilt typewriters at very low prices. Send for Catalogue and List.

GALT, ONT.

The "Safety" Fruit Picker

does away with ladders and climbing, and ensures safety to the operator and avoids bruising of the fruit

The "Safety" Fruit Picker will save money in clearing up your trees, and is the "proper thing" for picking "Exhibition" fruit.

DESCRIPTION

The "Safety" Fruit Picker consists of a rubber covered wire hood, attached to a 12 foot pole, which grasps the fruit the same as the human hand, tilts it up and a single twist releases the fruit and drops it down the chute into a canvas bag at the waist of the operator without bruising or coming in contact with other fruit. It can be operated by a woman or child as easily as by a man.

The pole is bamboo, which insures lightness and stability, and is divided into 3 and 4 foot lengths, which are adjustable and can be used for large or small trees, at the pleasure of the operator. The wire spring, which holds the mouth of the chute in position, allows for the interference of the branches. The whole outfit weighs only 2 1/2 lbs.

The bag is made of canvas duck, and is attached to a steel wire frame, which conforms to contour of the body, and is strong and durable and holds half bushel of fruit; is held in position by a wide canvas strap, which goes over the shoulder with an adjustable snap to secure it, and which is easily detached to facilitate the emptying of the bag when full.

Price, complete, \$2.00
