To Farmers and Gardeners.

I invite all who have been in the habit of buying their garden seed from boxes left at the stores, to give my seed a trial side by side, and mark the difference in their germinating, and in the purity and quality of the vegetables raised from them. I have made it my mission for several years past to drive bad seed from the market, and so save farmers and gardeners the immense loss they annually suffer from the purchase of it. The public have well appreciated my efforts, and I have now fifty thousand customers in the United States and Canada. I sell no seed I do not warrant, and what is the real pith of the matter, I stand by my warranty; to enable me to do this I grow myself a large proportion of the seed I sell. Catalogue sent free to any applicant. JAMES J. H. GREGORY, Marblehead Mass. v3-12-4t.
