WITH THE TOMLINSON

(PATENT)

BARREL MACHINE

One man and two boys can turn out

**One Hundred and Fifty First-class
Flour Barrels in Ten Hours,**made from veneered wood of two thicknesses. The
inside is one solid sheet of veneer running around the
barrel, making in reality one hoop from top to bottom,
and in the outside thickness the grain is reversed, run-
ning up and down, finished with five hoops almost three
thicknesses, which gives the package superior strength,
tightness and durability over the ordinary hand made
flour barrels, yet with all its many advantages cost less
than the old style of package. My barrel machine is
arranged to make all sized packages from a large barrel
down to small nail kegs, butter packages and cheese
boxes. I am open to prove at any time the superior
strength of my barrel. That one will stand more hard-
ship by any actual test than one hundred of the old
ordinary flour barrels. County rights for sale, and all
information given by applying to**JAMES TOMLINSON, Patentee,**

113 KING ST. EAST, TORONTO. L15
