

TRADE NOTES.

The Canadian General Electric Company have just received another order from the Montreal Ry. Co. for 12 of their standard G. E. 1000 railway motors.

The Stanstead Electric Light Co., of Stanstead, P.Q., have recently purchased a 2000 light single phase alternator from the Canadian General Electric Co.

Messrs. A. Gagnon & Co. of Arthabaskaville, have recently installed a new 2000 light single phase alternator of the Canadian General Electric Co's. new type.

The Canadian General Electric Company have closed a contract with A. S. & W. H. Masterman, of Montreal, for one of their new type multipolar 200 light generators.

The Ottawa Electric Co., Ottawa, have recently added to their arc lighting equipment one No. 12 125-light Brush arc dynamo, purchased from the Canadian General Electric Co.

The Department of Railways and Canals have placed an order with the Canadian General Electric Company for additional apparatus to be used at the Sault Ste. Marie canal.

The Hawthorn Woolen Mill Co., of Carleton Place, Ont., are increasing their lighting plant, and have placed their order with The Royal Electric Company for a 25 k.w. bi-polar generator, which is to be installed at once.

The Canadian General Electric Company are installing for H. A. Lozier & Co., Toronto Junction, one of their 200 light dynamos, with marble panel, and are wiring up some 200 incandescent lights in their new factory.

The Watson Mfg. Co., of Thorold, are removing to their new factories at Paris, and have placed an order with the Canadian General Electric Company for the wiring up of these factories, and installing a plant to furnish some two hundred and fifty 16 c. p. lamps.

The R. & O. Navigation Company have placed an order with the Canadian General Electric Company for one of their standard 30 kilowatt direct current generators, to be direct connected to an "Ideal" engine, as manufactured by the Goldie & McCulloch Co., of Galt.

The Canadian General Electric Company have recently installed for Messrs. Robertson, Rowland & Co., of Walkerton, a 2000 light single phase alternator. This company have been operating a 60 kilowatt machine, of a similar type, for the past four years, and have met with great success in the their electrical undertaking.

Mr. N. P. Tanquay, of Weedon, P.Q., has contracted with the Canadian General Electric Company for one of their standard 55 kilowatt new type multipolar generators and a 35 h.p. motor, together with marble panels and all line material and supplies required for carrying out the transmission of the above power.

The London Electric Company have placed an order with the Canadian General Electric Company for another No. 12 4-circuit, 125-light Brush arc dynamo, and an additional 300 kilowatt revolving field single phase alternator. When these are installed, the above company will have one of the most complete lighting stations in Canada.

At the last meeting of Toronto No. 1, C.A.S.E it was resolved that the association deeply deplore the loss of life and personal injury to the innocent victims who suffered as the result of the recent boiler explosion at the icehouse in the east end of the city. And be it further resolved that we, as a body of engineers, wish to place ourselves upon record as concurring with the verdict of the Coroner's jury, which clearly set out the fact that the man in charge was incompetent; and be it further resolved, that all steam boilers should be under the charge of practical engineers, who have certificates, and each boiler be inspected yearly by some competent person."

A peculiar accident occurred to a motorman of the Toronto street railway recently. He had charge of a Queen west car, and when approaching Spadina avenue the trolley wire broke, the loose end falling through the window of the vestibule and touching the motorman on the shoulders, thus making a connection with the ground. The motorman was thrown through the vestibule window onto the car track, but fortunately the car had stopped. His clothes were badly burned and his face and head cut, although the current had not affected his body.

ELECTRIC REPAIR & CONTRACTING CO.

Refill these and all other systems.
