THE BRAENDER

**JET PUMP, WATER ELEVATOR
 AND CELLAR DRAINER**

Patented
 May 8, 1891

This automatic device for removing water from Cellars, Excavations, Trenches, Wheelpits, or any depression where water accumulates, either from springs, Surface Water, Leakages, or Tide Water, is so constructed as to be not only reliable at all times, but will, with a very small amount of water under moderate pressure, remove a large body of water and discharge it to a higher level. It will prevent the accumulation of water, and its construction is strong, durable, uncorrosive, and is so simple, that it will last for years without attention. *Send for Catalogues and Price Lists.*
