CIRCULAR, GANG AND MILL SAWS A SPECIALTY

Correspondence Solicited.

'The Automatic "Compression"'

DRY KILN (TRADE MARK) COPYRIGHTED

QUICKER, MORE ECONOMICAL to operate, BETTER RESULTS, and COSTS LESS than any other. 20 tons of water is the daily amount which a single room 20 x 100 feet extracts from the lumber therein.

BEWARE of FRAUDS and INFRINGEMENTS. Our system is covered by letters patent throughout the world. Our success has induced many unscrupulous parties to erect infringements, and, in many cases, sell worthless processes under the name of "COMPRESSION." The public is hereby warned against such impositions.

Our Guarantee: The Kiln costs you nothing until the guarantee is filled to the letter. Write for Catalogue "C."

WHY BAND SAWS BREAK

SIXTEEN REASONS, AND HOW TO AVOID THEM

Being instructions to filers on the care of large band saw blades used in the manufacture of lumber.

A book filled with valuable information on the care of band saws. Giving the reasons for breaking, analyzing each reason, giving instructions to dispense with the causes as laid down in each reason, and full details on filing and brazing. The proper styles of hammers to use are illustrated and described, and views of blades showing the blows of the different styles of hammers form an important part of the illustrations. Improper and unequal tension are then treated, and the manner of properly setting irregular teeth is described. In connection with the treatise is a history of the invention, manufacture and use of the saw from its origin to the present time. The work in whole makes an accumulation of information such as has never before been published.

The book is printed on fine paper, good clear type, and is handsomely and substantially bound in cloth. It will be sent to any address on receipt of the price, ONE DOLLAR.
