

tinued administration in full doses frequently fails to produce these evidences of heightened reflex activity, and in their place causes a more or less active delirium, in which the patient frequently refuses to take his medicine, or develops the delusion that his attendants are conspiring to poison him or do him some other injury.—*Therapeutic Gazette*.

**MALARIAL CONDITIONS.**—For all malarial conditions quinine is the best remedy we have. But associated with this condition there is always more or less pain, which often renders the life of the individual uncomfortable, if not positively miserable. Antikamnia will remove these unpleasant symptoms and place the system in the best condition for the quinine to do its work. There are a number of ailments, not closely defined, which are due to the presence of the malarial poison. All such conditions are greatly benefited by the use of antikamnia and quinine. In headache (hemicrania), in the neuralgias occurring in anæmic patients who have malarial cachexia, and in a large number of affections more or less dependent upon this cachec-

tic condition, the regular administration of this combination will produce the most happy results. In cases of malarial fever it should be given as a prophylactic and cure. "Antikamnia and Quinine" are put up in tablet form, each tablet containing two and one-half grains of antikamnia and two and one-half grains of quinine, and is the most satisfactory mode of exhibition.—*E.v.*

The grand decoration bestowed upon William R. Warner & Co. by the Belgian Government has just been received by that firm. It is an additional tribute for the excellence and superiority of the firm's ready-coated pills and other pharmaceutical products, for which the house has a great name. The decoration is of the most beautiful, in gold and white enamel, taking the form of a Maltese cross, on the centre of which on a blue ground is the inscription. A wreath in blue and gold surmounts the cross, the whole being topped by ribbon, tied in a bow, of the national colors. The design is very pretty, and the recipients are, of course, delighted over the award and the form it has taken.—*Philadelphia Inquirer*.

# LAKEHURST SANITARIUM

## OAKVILLE, ONT.

FOR THE TREATMENT OF

## **INEBRIETY**

(Habitual and Periodical.)

**MORPHINE,** and other

**DRUG HABITS** and

**NERVOUS DISEASES**

**PHYSICIANS** generally now concede that these diseases cannot be treated with entire success except under the conditions afforded by some **FIRST-CLASS SANITARIUM**.
