

CROWN BRAND CORN SYRUP

Why Have We Sense of Taste?

Foods which have a delicious flavour or articles which add a nice taste to food are naturally *more acceptable* to the system, more easily digested and assimilated, than foods in which these qualities are absent.

CROWN BRAND CORN SYRUP

adds just *that deliciousness* of flavour which makes you enjoy your food most thoroughly; moreover it contains all the food value of *fine ripe corn*, and is a most valuable addition to the diet of young or old.

Give it to the children and *they will* relish their bread, porridge, puddings, etc., much more.
