FOR SHINCLES OR METAL OUR ROOFING CEMENT-PAINT IS UNEQUALLED. PRESERVES BOTH WOOD AND IRON, STOPS LEAKS AND DECAY, AND MAKES OLD ROOFS AS GOOD AS NEW.

## A SUPERIOR ARTICLE AT A LOW PRICE IS SURE TO BECOME POPULAR.

#### <u>A SINGLE TRIAL OF OUR ASBESTOS ROOF SHEATHING WILL CUARANTEE ITS FUTURE USE.</u>

HOW IT IS MADE.

Its fire and water-proof component parts are combined as follows:

11s nre and water-proot component parts are combined as follows:

3-PLY-six A strong foundation of saturated Asbestos Wool, and A water-proof layer of Vege table Gum. 3rd. A sheet each of best saturated roofing felt and Asbestos wool, 4th Another layer of Vegetable Gum. 3th. Camperseed Felt and Wool. . All these are subjected to hydraulic pressure and formed late a solid impermeable sheet, and where put on coated with fire and water-proof Cement-Paint.

2-PLY—Has one layer less of Felt and Wool and Vegetable Gum.

LY—Has one injer ies of that when the house of the house

## DIRECTIONS FOR APPLYING.

Sweep the boards of the root clean of all nails, chips, etc., then commence at the eaves or gutter to lay the roofing; nail the lower ends, using ordinary lath nails with thin heads, shielded by the caps. Then let the second sheet lap over the first sheet two inches, being SURE to paste all laps with the Cement-Paint, then nail as before and so repeat. Use great care in fitting around chimneys, guiters, etc.

chiminys, guiters, etc.

Upon flat roofs nails should not be more than one and one-half inches apart from centre of caps, and two inches on steep roofs. The roofing should receive a coat of Cennent-Paint the DAY IT IS LAID, unless it gets west; if caught in a shower wait until the Sheathing dries before coating and sanding. The Roofing Cennent-Paint should be applied in string from ridge to caves, beginning at end of building and working across to the other end. Use all the Cennent-Paint the Sheathing will absorb without running, applying the sand as you go. Use no Gravel in any case.

## WE MANUFACTURE UNDER NEWTON'S PATENT, NEW YORK CITY.

Office of New York Board of Five Underwriters,

115 Broadway. New York, April 15, 1884.

Dear Sir, — The Insurance rate on buildings covered with NEWTON'S Prepared

Roofing, painted with one cost of Victora Cement-Paint, sanded, is the same as the regular

slate on metal roofs.

JAMES HARRISON, Supt. for New York Board of Underwriters. Yours truly,

16 St. Henri Street, Montreal, April 7, 1888.

VICTORIA ROOFING CO.:

DEAR SIRE,—We stripped off the old shingles of our warehouse last fall and put on your Patent Asbestos Sheathing and coated it with your Fire and Water-Proof Cement-Paint. It made a fine job, tight and handsome. No locices such to the caves.

Yours truly.
