
This guide is divided into two sections. The first contains a listing of the food shows for the retail trade and the second details the food shows for the hotel, restaurant and institutional trade. Some shows are intended for both trade groups and as a result are listed in each section.

Each show is also identified as being either a national or regional trade show. A regional show attracts primarily a regional audience (from a metropolitan area, a state or surrounding states) while a national show appeals to an audience from all parts of the U.S.
