

Questions

and Denmark, and has served as acting senior archaeologist at intervals since 1960.

4. Teachers: In the field he has worked with J. N. Emerson, U. of Toronto; K. E. Kidd, Royal Ontario Museum; J. C. McGregor, U. of Illinois; H. B. Collins, Smithsonian institute; E. F. Greenman, U. of Michigan; and T. E. Lee, Ottawa.

In universities, he has studied under Emerson, McGregor, Greenman and J. B. Griffin, R. K. Beardsley, A. C. Spaulding at the University of Michigan. Among the other anthropologists he has studied under are J. Steward, O. Lewis, and E. Wolfe at Illinois, L. White, F. Thieme, and E. Service at Michigan, and T. McIlwraith, G. Brown, and E. Carpenter at Toronto.

5. Mr. Taylor is also a: fellow, Arctic institute of North America; fellow, American association for the advancement of science; fellow, society of the sigmaXi; member, Arctic circle; member, society for American archaeology; member, American anthropological association; assistant editor for the journal "Anthropologica"; consulting director, Canadian research center for anthropology.

SKOPJE, YUGOSLAVIA—REQUEST FOR AID

Question No. 1,438—Mr. Matheson:

1. Has the government received any requests for aid to the stricken city of Skopje, if so, from whom, and when?
2. What aid has been advanced thus far?
3. What plans, if any, have been formulated by Canada to contribute to the rebuilding of Skopje?

Mr. Martin (Essex East): 1. Yes. On August 8, 1963 the Yugoslav ambassador to Canada called on me to report the tragic disaster at Skopje and to describe the more immediate needs for which his government was making an international appeal. On August 15 he provided me with preliminary estimates of longer term reconstruction costs.

2. To date some \$45,000 has been made available from Canadian sources, of which \$10,000 was a grant from public funds.

3. No decision has been taken concerning additional Canadian government assistance.

USE OF LIME TO COMBAT STRONTIUM 90
IN WHEAT**Question No. 1,440—Mr. Cameron (Nanaimo-Cowichan-The Islands):**

1. Has the Department of Agriculture inaugurated any program to encourage increased lime applications on wheat lands to combat the tenfold increase of strontium 90 in spring wheat reported by the Department of National Health and Welfare in the September issue of "Data from the Radiation Protection Programs"?

2. Has the department inaugurated any similar program with regard to increasing calcium intake of livestock to counteract the uptake of strontium 90 by cattle?

Mr. Hays: 1. 2. No.

The Departments of Agriculture and National Health and Welfare keep closely in touch with each other in such matters. It is felt that the measures mentioned are not required to ensure public safety with the levels of strontium 90 that have been found to date.

*INCREASES IN BREAD PRICES

Question No. 1,445—Mr. Pigeon:

Since this government took office, what have been the increases, if any, in the prices of bread and milk in the cities of Montreal and Toronto?

Mr. Sharp: As measured by the consumer price indexes for Montreal and Toronto respectively, the price of bread increased 2.8 per cent in Montreal and decreased 1.4 per cent in Toronto between May 1963 and September 1963. Over the same period, the price of milk was unchanged in Montreal but increased 0.8 per cent in Toronto.

BEER ADVERTISING ON TELEVISION

Question No. 1,453—Mr. Laprise:

1. Have any consultations been held between the B.B.G. and the Secretary of State in connection with the decision taken by the B.B.G. to increase from 12 to 60 seconds the time allowed on television for advertising by breweries?
2. Were temperance associations requested to present their views on this matter before a decision was taken and, if so, how many, and what associations accepted such an invitation?
3. Is the decision taken by the B.B.G. in this matter irrevocable and final?

Mr. Pickersgill: 1. No consultations were held between the Secretary of State and the B.B.G. in connection with the decision by the board to amend the regulations governing the advertising of beer and wine by broadcasting stations. The amendment enacted by the board on August 29, 1963, does not, in fact, increase the time allowed on television for advertising by breweries, but it permits certain changes in the form and technique of such advertising.

2. As required by section 11(2) of the Broadcasting Act, the board published in the Canada Gazette of July 20, 1963, a notice of its intention to amend the regulations governing the advertising of beer and wine by broadcasting stations. Copies of this notice were at the same time provided to the press gallery of the House of Commons and were sent out to those names on the board's general mailing list. The notice confirmed that representations on the proposed amendment would be received by the board at a public hearing on August 27, 1963. Association Lacordaire et Sainte-Jeanne d'Arc du
