## DESTRUCTION OF MONOPOLIES AND LOWER COST OF LIVING Cleaners THE AIM OF WILSON TARIFF

New Bill is Remarkable in the History of Tariff Legislation Because of Genuine Downward Revision in Favor of. Consumers-New System of Taxation Shifts Burden From Poor to Wealthy-Reciprocity is Favored.

Special to The Toronto World. WASHINGTON, April 7 .-The sixty - third congress -Democratic - called in extraordinary session by President Wilson, came into being at noon today. With the opening of the session comes the introduction of the new tariff bill, remarkable in the history of tariff legislation because of its purpose of genuine downward revision in favor of the consumers, the lowering of the cost of living, the elimination He Was Mad Because He of special privilege, and the enaetment into law by means of both tariff and income tax provisions of the principle: "Tax wealth, not poverty." The bill is classed as distinctly "competitive."

As presented to the house today, with the approval of President Wilson, this dual measure is regarded as being the forerunner of a new commercial and economic era in this country from which these tangible results will spring: A reduction in the excessive prices of food stuffs and clothing, as well as many other necessities of

A new system of taxation whereby much of the burden will be shifted from the shoulders of the poor to those of the wealthy.

of the wealthy.

The destruction of protection to favorite industries and the recreation of a national prosperity founded on the natural laws of competition.

The Understanding.

The ways and means committee presented the tauliff measure to congress. ted the tariff measure to congress

with the understanding:
That it is the lowest and most equitable tariff bill designed since the Walker bill was enacted before the That it was written on the theory

that competition and not protection is he life blood of trade.

That it will save the consumer of the country approximately \$1,000,000.

000 a year.

That this reduction in the cost of living will be brought about by demolishing artificial prices which have been established and maintained by the That the bill has been constructed on the theory that necessary taxation should be derived from luxuries and the minimum rate be maintained on

necessities. That no section of the bill will dis-turb enterprises that can stand without preps, but that concerns which have grown to be national liabilities have received no favors.

To Cover Deficit.

The equalization of duties, it as estimated, will result in a deficit of something like \$80,000,000 annually. The income tax, it is figured, will produce at least \$125,000,000 to cover the deficit. Every income of more than \$4000 will contribute to this fund. The proposed levy is based on a rising scale. The minimum rate is 1 per cent., and the maximum 4 per cent.,

which is applicable to such parts of incomes as exeed \$100,000.

The tax bill is based on the theory that the more money a man is making or has made because of the opportu-nities afforded by the country, the more he should contribute to the national government.

It covers revenues of all sorts and from all sources. The business man, professional man and the salaried man vill contribute according to their in vested wealth or earning capacity. The president, federal judges and some other ers in official life alone are exempted. One per cent. will be collected on sums between \$4000 and \$20,000. Thus the man with \$5000 will pay \$10 per annum and the man with \$20,000 will pay \$160. Incomes between \$20,000 and \$50,000 pay an additional 1 per cent. on the amount between those figures, and again those ranging from \$50,000 to \$100,000 will pay another 1 per cent. on the surplus. Amounts above \$100,-

.000 will be assessed 1 per cent. more. The tax is not cumulative. In the income tax section of the tariff bill the corporation tax is con-

tinued as at present.
In presenting the tariff measure the ontinue in that class.

the potentialities of future prosperity it was given a chance to grow. ## To Blockade Montenegrin

Ports. LONDON, April 7.—(Can. Press.)—The powers propose that unless Montenegro complies with their wishes in regard to Scutari, the blockade of the Montenegrin ports of

of the Montenegrin ports of Antivari and Dulcigno shall begin in three days.

Austria is urging that the blockade be extended to the Albanian ports occupied by the Servians, that special steps be taken at Beigrade as Servia is now, playing the object role in the service of th now playing the chief role in the siege of Scutari. No decision has been taken on this

Couldn't Get a Seat in New York Res-

taurant.

Special to The Toronto World. NEW York, April 7.-There were such crowds in "Joe" Guffanti's restaurant tonight when a man, who said he was William Frazier of Hamilton, Ont., came in, that there was no place for him at a table.

# MRS. PANKHURST

But is in a Critical Condition as Result of Hunger Strike and a Noted Specialist Has Been Sent to See Her-"We Know No Fear," Says Miss Kennedy.

Special Cable to The World.

LONDON, April 7.—(Copyright.)—
That Mrs. Pankhurst is in a critical condition is inferred from the significant fact that Home Secretary Mc-Kenna sent a noted specialist to Hol-loway Jail today, to consult with the regular prison physician regarding

But the report that she has been fed by force, published by The Daily Express, is officially denied from the It is said that Mrs. Pankhurst has been unable to resist drinking water, but refuses to touch any solid food. Her followers still expect that she will be present at their big meeting in Albert Hall next Friday.

Know No Fear. At a meeting of suffragettes this afternoon, Miss Annie Kenney, commander-in-chief of the militants during the imprisonment of the general-issimo, promised her comrades that Mrs. Pankhurst will be with them "in a few days, if not within a few hours," adding: "I wish to publicly notify the government that it can no more quench the fire in the women's hearts than it could put out the fire on the Ayr racecourse, until the question of suffrage has been settled. We know no fear. We are not afraid of anything the government can put up against us, because we know righteousness will always win. Viscount tie for the English Cup, fixed for Gladstone had to go, Reginald Mc- April 19. According to typewritten in-

## "All That Was Left of Them."

BELGRADE, April 7.—(Can. Press.)—The Servian forces, which have been searching for Djavid Pasha, formerly military commander at Uskup, who, with his army, was recently erroneously reported as having surrendered on the Skumbi River, in Albania, encountered him at Llousme, countered him at Liousme, where he had taken up a po-sition. The remnant of his army consisted of eight battalions, with four field guns and three quick-firers and a small detachment of cavalry.

After a desperate engagement the Turks retired.

Plans Were Abandoned.

Special Cable to The World. LONDON, April 8.—(Copyright.)— 4.30 a.m.--The Daily Express this

observed the mat a table.

"Wait a few minutes and we will arrange for you," said Guffantl.

"But I'm a busy man from Ontario and I can't wait," shouted Frazier.

He went to the street and hurled a stone thru the window. He was held by waiters until the police came and then he was taken to the West I'nt St. Police Station and locked up.

"T'm an ardent follower of Mrs. Pankhurst's organization, the here to begin a crusade of violence and this crusade will continue until the people of this country are forced to enlist their sympathies for the English suffragettes."

Ecousness will always win. Viscount Kenna it a table.

Stone thru the window. He was held by waiters until the police came and then he was taken to the West I'nt St. Pankhurst's organization, the Women's Social and Political Union, issued a statement this afternoon detained by climbing a fence.

Women to take part in the outrage are all indicated by numbers showing the existence of an "outrage organized as a result of Mrs. Pankhurst's imprisonment; that attacks will still be upon property alone; that the members will continue to respect human life, but their warfare on property done of the government's measure of corecion.

# TRI-WEEKLY

New Contract Entered Into by Government With Four Steamship Lines Will Provide Such Service in Summer and Bi-Weekly Arrivals in Winter-Costs Million Dollars.

OTTAWA, April 7.—(Special.)—An important announcement of the new contract entered into for ocean mails was made in the house this afternoon was made in the house this afternoon by Hon. L. P. Pelletier, postmastergeneral. Instead of a weekly service, provided by four steamers as at present, there will be, after May 1, a triweekly service in summer and a biweekly service in winter, provided by 12 steamers in summer and by eight in winter, with a ninth maintained to fill in any emergency that may arise. The contract is between the govrangements to Wreck Crystal Palace Football Grounds and Draw Off Fire Brigade by Fake Alarms, But the Plans Were Abandana and the White Star-Dominion. The boats on the summer service will be as follows: Alaln Line, Victorian, Virginian, Corsican, Tunisian, and until the Alsatian and Calgarian are ready, the Grampian and Hesperian ready, the Grampian and Hesperian C. P. R., the two Empresses; C. N. R. the two Royals; White Star-Domin-ion, Laurentian and Megantic.

Winter Service.
On the winter service will be the two Empresses, the two Royals, the Alsatian, Victorian, Virginian and the Teutonic of the White Star Line, as a substitute for any steamer disabled or

Summer sailings will be on Tues tie for the English Cup, fixed for from Montreal and Quebec in summer

as three boats in summer. The subsidies in the past have amounted to over \$650,000, and in addition over \$180,000 was paid to the U.S. Government for mails handled at New York, a large part of which will now

be saved.
In addition, it is expected that Great structions are written in a female hand these words "Polly reports no use, everything too well guarded."

The document is to be placed at the disposal of Scotland Yard and as it is written on the official note paper of the militant organization, it should prove valuable evidence in any proceedings against that body.

Britain will pay more for the carriage of British mails to Canada, so that the actual amount of the new subsidies will be little more than the total cost in the past. The new contract is regarded here as a most signal achievement for the postmaster-general, who has been giving his attention to it for months past.

## OCEAN MAILS TO TUBE SYSTEM MAY BE STARTED IN TORONTO DURING THE YEAR AS WELL AS MORE CAR LINES

fore midnight, after declaring he favored the annexation.

Into Effect—Amendments
Are Likely

Toronto needs for a modernized rapid transit system is quickly available.

Higher Interest Now.

Now that the provincial government has consented to Toronto offering the 4 1-2 per cent. interest on her bonds, and hypers can therefore get a little.

OTTAWA, April 7.—(Special.)—Notice will be given tomorrow of amendment to the rules of the house amounting to clo-

the rules of the house and the sure.

The first rule which the government proposes, provides that all motions standing on the orders of the day, as well as all other motions of a substantial character, shall be debatable in the future, as in the past, but that other motions of a more or less formal character shall not be debatable and therefore cannot be used for purposes of obstruction.

struction.

The second amendment provides that

The second amendment provides that after the debate upon the question under consideration has been adjourned in the house either with the Speaker in the chair, or when the house is sitting in committee of the whole, a minister of the crown may give notice that such motion or proceeding shall not be adjourned beyond the next sitting.

Putting on the Lid.

If at the next sitting the debate shall not have been resumed and concluded before 2 o'clock in the morning all questions necessary to determine the action of the house upon the measure under consideration shall be put and decided without further debate. The rule also provides that upon such further adjourned debate no member shall speak more than once or for a longer period than twenty minutes. The third amendment proposed by the government provides that on Thursdays and Fridays the house shall go into committee of supply, or ways and means, without debate. It is also provided, however, that the estimates of each department must be first taken up on some other day, so that any member desiring to challenge the administration of the department in any respect will have opportunity to do so.

Keen Guillotine.

It is difficult to explain the sweeping changes contemplated, but the guillotine will be one of the keenest ever erected. If literally enforced every day, it would make an ordinary session of parliament last about six weeks instead of I six months. However, the object aimed at is the passage of the naval bill, and public opinion will, no doubt, endorse drastic action by the government.

Country is Ablaze With Excitement and Tide of Popular Passion is Rising Fast.

pean Powers.

Special Cable to The World.
LONDON, April 7.—(Copyright.)—

About the house of commons tonight the German Imperial Chancelor's speech in the reichstag today was regarded as strong assurance to the st street, corner Temperance.

Rapid Transit Service Problem is About to Be Solved, Having Been Made Possible by the Favorable Demand in the U.S. for Toronto Securities.

Toronto's rapid transit service problem has now a propitious time for solution, and the board of control is alive tothe advantage. This year is likely to see the beginning of the construction of a system of tubes that will serve the needs of the city for a few generations. In conjunction will be the extension of the civic car lines on a scale that will bring the suburbs into close touch with the older sections of the

city.

The solution of the rapid transit service problem has been made possible by the most favorable demand in the United States for Toronto securities. ties. The city bonds now on the mar-ket there are selling freely, and east Motions of a Formal Character Not Debatable is Leading Provision—Sweeping

Ket there are selling freely, and east and west there is a willingness to take more. Recently a large block of city bonds, held in the United States, matured, and the holders wrote that they did not want the money, but would prefer more bonds instead. The bonds were sent. This is but one instance of the character of the market in the United States for Toronto securities. Changes in Parliamentary United States for Toronto securities. Investors there so appreciate the se-Procedure Are to Be Put curities that they prefer the interest to the principal. All the money that

and buyers can therefore get a little better than 4 1-2 per cent. on their investments, Toronto securities will be all the more appreciated. While the board of control prefer to sell the city bonds in the British market, yet consideration has to be given to the fact that the cost of marketing in Great Britain is 1-8 per cent. higher than in the United States, owing to the extra expense thru difference in distance; and there is also another fact, that a wider market invariably increases as

Controller Objected to Being Called an Obstructionist and Wanted Ald. McBride Ejected From the Chamber-Controller Church Called Most Discourteous and Ungentlemanly.

Some hot shot was poured into the board of control by aldermen at the city council meeting. All the shots were aimed at Controllers Church and Foster. These controllers were made to understand that they must cooperate in forming a policy for civic work for this year, or the council will appoint a temporary committee to act with Mayor Hocken and Controller McCarthy in submitting a policy to the council. The aldermen complain that they are barred from adequate information upon recommendations from the board of control because Controllers Church and Foster will not consent to each member of the board specializing on certain departments, and it is otherwise impossible for the controllers to be fully in touch with the departments. Aldermen were not backward in telling Controllers Church and Foster that they are doing nothing but obstructing the progress of the city.

Controller Church tried obstruc-tion tactics. There were cries of "Call in the police and have him thrown out!" Ald. McBride, who was in the chair, had a lengthy word fight with Controller Church in an endeavor to make the controller stop talking.
"Call in the police and throw the chairman out!" called out Controller

Then Ald. Anderson denounced Controller Church as most discourteous and ungentlemanly in de-bate, and expressed his regret that the vice-chairman of the board of control should show such a bad example Finally, after Ald. McBride had ex-

plained that he had been at dog fights on the row that Controller Church
