

A Geometrical Vector Algebra

CONTENTS

	Page		Page
1. Introduction.....	9	25. Conic Vectors	21
2. Notation	9	26. Differentiation	22
3. Cosine $\angle \mathbf{AB}$	10	27. Differential Coefficient of $\mathbf{A}^n \mathbf{B}$	23
4. Addition and Subtraction....	10	28. Curvature.....	24
5. Collinear Vectors.....	11	29. Linear Loci	24
6. Coplanar Vectors.....	11	30. Surface Loci.....	24
7. Multiplication	11	31. Solid Loci.....	25
8. Collinear Multiplier.....	12	32. Common Regions	25
9. Perpendicular Multiplier....	12	33. Projections.....	28
10. The Product $\mathbf{AB}$	12	34. Plane Algebra	29
11. Permutation of Factors....	13	35. Four-Space Algebra	29
12. Operand Distributive.....	13	36. Multiplication in 4-space...	29
13. Operator not Distributive...	14	37. Perpendicular Vectors in 4-space	30
14. Factors not Permutable....	14	38. Coplanar Equations	31
15. Powers of Operator	15	39. Perpendicular to a Vector	31
16. Laws of Multiplication.....	15	40. Normal to a Plane.....	31
17. Perpendicular Factors	15	41. Normal to a 3-flat	32
18. Division.....	16	42. $\mathbf{W}, \mathbf{V}, \mathbf{F}$ and $\mathbf{N}$	33
19. $\mathbf{A}^n \mathbf{B}$; General Formula....	16	43. The Product $\overline{\mathbf{ABC}}$	33
20. Quaternions.....	17	44. Quaternion Rotors	34
21. Vector Arcs.....	18	45. Intersecting Loci	34
22. Sum of Circular and Straight Vectors.....	18	46. Projections	35
23. Sum of Circular Vectors....	19	47. Projections of a Regular Tesseract on a 3-flat....	36
24. Spherical Triangle	20
