GOVERNMENT SIDE GAINS IN FINLAND

Peasantry Join Forces Fighting Against Revolutionary Red Guards.

TO CLEAR UP COAST

Further Reinforcements for Socialists Apparently Cut Off.

Stockholm, Jan. 31.—The latest reports indicate that the government troops are in control of all of Finland lying north of a line from Vasa, on the Gulf of Finland, thru Haapamaki, Jyväskylä and St. Michael to Kexholm. Gen. Mannenheim's forces, which numbered 15,000, are now reported to have increased to 50,000, mainly by accessions from the peasantry, who are being armed with rifles taken from the Russians. His main force is believed to be moving southward along the coast towards Jorboorg. Gen. Mannenheim probably is in possession of the railroad from Haapamaki to Kexholm, giving him communication between his main forces in East Bothnia and Kexholm.

Less is known of the situation in eastern Finland, but the white guards are credited to have captured artillery as far eastward as a point between Viborg and Petrograd. If these troops hold their own it cuts off the chances of the red guard receiving further reinforcements from Petrograd except by water.

KIEV SURRENDERS TO ARMY OF REDS

Bolsheviki Wrest Principal Ukrainian City From Republican Forces.

London, Jan. 31.—Kiev, which for some time past has been invested by the Bolsheviks who are engaged against the Ukrainians, has surrendered, according to an Exchange Telegraph despatch from Petrograd. Kiev, capital of the government of Ukraine, lies on the right bank of the Dnieper. It is called the "Mother of Russian Cities" and in 1902 had about 550,000 inhabitants. Recent despatches said that many of the Russian nobility, seeking safety from the Bolsheviks, had taken up their residence in Kiev. A despatch to the Exchange Telegraph from Petrograd dated Thursday says: "Bolsheviki forces entered Kiev last night. They have occupied the arsenal. The town surrendered after four shots had been fired."

BREAKS HIP IN FALL

Mary Brockmeyer, aged 78, 2 Lovatt place, broke her hip when she fell downstairs yesterday evening. She was removed to St. Michael's Hospital.

ONTARIO MEN SENT TO GARRISON QUEBEC

Five hundred of the members of the 2nd Battalion, 1st Central Ontario Regiment, now quartered at Exhibition Park, Toronto, are to go to the City of Quebec on February 9, where they will be put on garrison duty, to relieve the troops now stationed at the citadel. The battalion is made up of both men drafted to the colors under the Military Service Act, and men sent to Toronto from the United States by the British Recruiting Mission. The unit is commanded by Lieut.-Col. R. K. Barker, who went overseas in command of the 95th Battalion, but it is not thought he will be in charge of the draft which will go to Quebec.

STRIKE TO REDUCE MUNITION OUTPUT

German Industrial Disturbances Affect Aircraft, Chemicals and Ammunition Factories.

MANY SKILLED MEN IDLE

Spandau Workmen Comprise Best in Enemy's Industrial Army for War.

New York, Jan. 31.—A correspondent of the Associated Press, who was stationed at Berlin until America entered the war and who recently returned to the United States from Copenhagen, where he went after the outbreak of hostilities, has written the following statement of the effect strikes in German cities are likely to have upon the production of munitions: "Strikes at Adershof, the Berlin suburb, mentioned in today's despatches, will affect one of the important centres of the German military airplane and balloon industry. Important war chemical works, specializing in the manufacture of constituents for munitions, also are located in the Berlin suburb, which was the scene last summer of a disastrous explosion. "Spandau, where the strike is also reported spreading, is the site of one of Germany's big arsenals and a centre for the manufacture of ammunition as well as of electrical plants devoted to war work.

"Spandau and Adershof differ from the usual German industrial centres, in that the large numbers of men, military age, skilled workmen exempted from military service because of their greater value in war plants, are employed. These men are largely enrolled in the ranks of the Radical Socialist party under Haase and Ledebauer, and have been restive and dissatisfied with the government for a long time.

"The Spandau workmen formed the backbone of Germany's political strike during the war, called as a protest against the conviction of Liebknecht, the Radical Socialist member of the reichstag, and held out the longest of any strikers during the April protest against the reduction of the bread ration. "Conditions of the present German political strike are significant, in that for the first time the leaders of the majority of 'true' Socialists under Schlegelmann are aligned with the Radical Socialists."

TREES IN TRINITY PARK TO BE USED FOR FUEL

Those Already Cut Will Be Taken to Exhibition Camp to Help Keep Soldiers Warm.

Orders have been given to the gang of men employed by the parks department to prune the city shade trees and to cut down the dead trees in Trinity Park, a photograph of which was published in The World yesterday. "The trees have been there for several years and so has the wood," protested The World. "This is the first year we have had to use wood for fuel at Exhibition Camp" was the reply.

Fifteen Thousand Ballots of Soldiers in Canada Spoiled

Ottawa, Jan. 31.—Fifteen thousand of 64,000 ballots cast in Canada will be thrown out, according to the latest estimate. W. F. O'Connor, K.C., chief returning officer, has set aside, as canvassing the soldiers' votes legislation, these votes which were cast for constituencies to which men so voting had no claim. For instance, a number of Ontario soldiers who happened to be at St. Johns, Que., elected to vote in Chambyl, Vercheres. This they had no business to do. They should have placed their votes in their home constituencies or where they enlisted. The option of constituencies was intended for soldiers in the Canadian forces who had no home in Canada.

GERMANS BOMBED THREE HOSPITALS IN RAID ON PARIS

Thirty Fires Started by Incendiary Projectiles of Enemy.

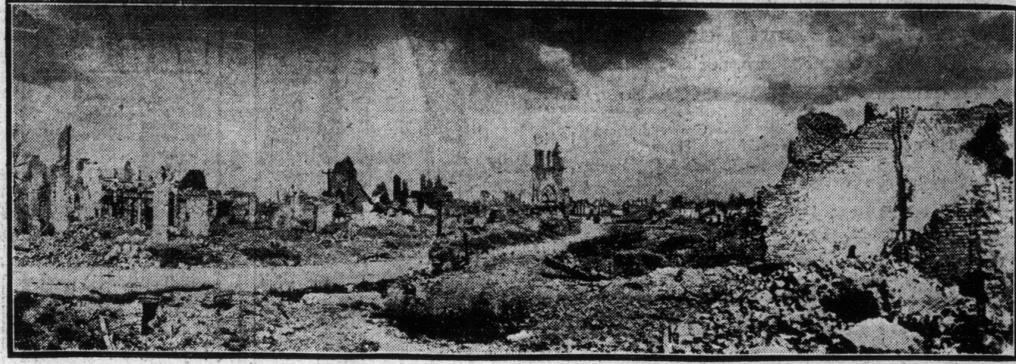

ENEMY LOST MACHINE

Sixty French Aviators Ascended to Engage Attacking Air Squadrons.

Paris, Jan. 31.—An official communication on the air raid on Paris says: "Three hospitals were struck by a bomb fire breaking out in one of them. "As soon as the alarm was given under the regular conditions the salvage service worked with remarkable rapidity. The firemen were summoned between 11.45 p.m. and 1.30 a.m. to 30 different points in Paris and its suburbs. Every summons was answered simultaneously, and the fire appliances arrived in the shortest possible time on the scene of the various fires. "Some 60 of our aviators ascended, of whom about 20 remained permanently aloft. The defence escadrilles in a few minutes rejoined the patrol which was cruising over Paris before the alarm. "The enemy, who lost one machine, after a flight above Chelles, has been able to learn that the attack failed to surprise the vigilance of our aviation service."

Two Judges Will Likely Help Mr. Justice Duff in Appeals

Ottawa, Jan. 31.—So many appeals under the Military Service Act have been made to Mr. Justice Duff, the central appeal judge, that he must have assistance. Two judges will probably, therefore, be appointed to assist him in dealing with them. It is understood that the appeals number seven thousand.

A STRICKEN CITY—WHAT IS LEFT OF YPRES UTTERLY DEVASTATED BY GERMANS. A remarkable panoramic view of Ypres as it is today. It shows what the German lust for destruction has accomplished in this beautiful city. Not a building is left standing. In the centre of the photograph is a mass of debris. The graveyard of Teutons' retreat is always left behind. This view is testimony that cannot be controverted. British official photograph.

LAST PEACE CHANCE MUST BE ACCEPTED

German Paper Threatens Social Democratic Upeaval if Negotiations Fail.

The Hague, Jan. 31.—The Vorwaerts points out that if Von Kuehmann comes back from Brest-Litovsk unsuccessful he must not expect to return triumphantly, and suggests that he tear up as "a scrap of paper" the promises he reluctantly made to the grand committee of the reichstag, and that he could then count on the support of the Social Democrats, and the whole of the majority party. It says that this will be the last chance of peace with Russia, and if unsuccessful it would have been better never to have negotiated as it will only put Germany at a disadvantage at the general peace conference later. If peace is allowed to be shattered for the sake of a few promises and future political schemes, then Schlegelmann's words will be true, and the Social Democrats will not give their lives for a similar movement.

GERMANS ENDEAVOR TO MINIMIZE NEWS OF LABOR TROUBLE

Disturbance is Stationary, They Say, With Some Work Resumed.

DUE TO FOOD SCARCITY

People Are Indignant Over Exportation of Flour to Austria.

London, Jan. 31.—The broad features of the news filtering in today from Berlin are, first, that the strike movement undoubtedly is extending, and, second, that the German authorities are endeavoring to minimize its importance.

Thus far there has been no news regarding the decision of the Minister of the Interior, Waltraff, at his conference with Gen. von Stein, commander of the home forces, as to what attitude the government will adopt.

Reuter's Amsterdam correspondent says in a telegram, dated Thursday, that the strike obviously represents the situation in the least sombre light. The German semi-official news agency says the trouble is stationary and that no disturbances occurred during Wednesday, that police intervention was not needed, and that work was partly resumed in several manufacturing centres of greater Berlin, but that in other quarters work was still suspended.

In the upper Silesian industrial region, according to this news agency, the strikes have gained virtually no ground, and it adds that news from the iron and steel districts of the Rhineland and Westphalia is also of a reassuring nature. In Spandau work is still going on in most of the government workshops, the news agency concludes, the trades unions refusing to have anything to do with the strike.

HUNGER DEMONSTRATIONS AT HAMBURG AND KIEL

Strikes Have Become Manifestations of Protest Against Food Profiteering, and Have Spread to Munich.

London, Jan. 31.—The strikes in Hamburg and Kiel have resolved themselves into hunger demonstrations. The extent of the food profiteering in Berlin alone is illustrated by a report in The Berliner Tageblatt that fines imposed in the Moabit criminal court in one day exceeded 100,000 marks.

According to a Berlin report received thru Copenhagen Socialist leaders from all over Germany have been summoned to Berlin for a discussion of important home and foreign political questions.

Among the items of news received today are that the strike has now spread to Munich, Bavaria, where the big Mauser armament works are involved, and that some of the printing works engaged in the newspaper trade in Berlin have struck.

The military commander at Hamburg has ordered a cessation of the strike there, says The Cologne Gazette.

The despatch adds that the commander also ordered that future strikes be avoided.

ARRESTS OF BELGIANS ARE INCREASING

Forty-two Prominent Personages Taken Into Custody at Brussels.

The Hague, Jan. 31.—Les Nouvelles reports that arrests by the Germans are increasing in Belgium, and that recently forty-two prominent personages were taken into custody by the military at Brussels, including Paul Lambert, the great French manufacturer of Chauvy, and Edouard Laguerre, son of the French deputy. The burgomaster of Alost has been sentenced to three months' imprisonment because concealed arms were found in the town.

Ninety Ghent notables have been seized as hostages to guarantee the performance by the inhabitants of military work ordered by the Germans. At Liège a Hollander named Paul Wesen has been condemned to death and his wife to 12 years' imprisonment.

WILL NOT GUARANTEE A SAFE PASSAGE

Germany Takes View That Holland Grants Cargo Space to Allies.

Amsterdam, Jan. 31.—Although the difficulties between Holland and Great Britain and the United States have been solved, Dutch shipping to the United States cannot be resumed pending a settlement of the negotiations with Germany, which will not guarantee the safe passage of Dutch vessels in view of the fact that Holland grants cargo space to enemy countries, says a despatch to The Telegraf from Rotterdam.

Germany, says the despatch, demands guarantees that goods imported from overseas will not benefit hostile countries. Negotiations with a view to finding a way out of this difficulty are proceeding.

STRIKE INCREASES THROUGHOUT GERMAN PROVINCIAL TOWNS

Kaiser's Military Authorities Proclaim State of Siege in Hamburg.

DEMAND FOR REFORMS

Committee of Workmen Threaten Reprisal for Arrest of Leaders.

All despatches received in London show that the strike menace in Germany increased yesterday, even a semi-official telegram from Berlin saying "only an inconsiderable extension" took place.

While the opinion prevails in some quarters in England that exaggerated accounts of the strike have been circulated by the German Government in order to influence the engineers on the Clyde and other centres in England, who have threatened to lay down their tools unless the government gave satisfactory guarantees that it open peace negotiations, as well as the pacifists in the entente countries generally, there must have been, and still is, a very considerable scope of work in important war industries.

The strike, which was begun in Berlin chiefly because of dissatisfaction over the delay in carrying out the Prussian franchise reform, has more or less spread thruout the provinces, and, according to a Hamburg Socialist paper, a state of siege has been declared in that city and its vicinity, where strikes have occurred in the Vulcan shipbuilding works and the plant at Blohm and Voas.

The strikers' committee, which was formed in Berlin with representatives of the two wings of the Socialist party as members of it, has formulated certain demands. But, generally speaking, an exact peace without annexations or indemnities, as opposed to the Fatherland party agitation for the continuance of the war, seems to be the greatest desire of the workers, who threaten reprisals for the arrest of their leaders. These reprisals, according to one report, have already commenced thruout the country, owing to the refusal of Herr Waltraff, minister of the interior, to meet the strikers, and his action in going into conference with Lieutenant General von Stein, former Prussian minister of war, and now commander of the home forces, possibly with a view to suppressing the strikes by military force, has further angered the men and women, for the latter also in many cases have gone out.

RUSSIANS TO FORM SOVIET REPUBLIC

Bolsheviki Propose Whole Country to Be a Federation of States.

Petrograd, Wednesday, Jan. 30.—A constitution of the "Russian Socialist Soviet Republic" has been adopted by the congress of workmen's and soldiers' deputies. The constitution proposes that the republic shall be a voluntary union of the nations of Russia, of which the highest authority shall be the all-Russian workmen's and soldiers' congress, which is to meet not less frequently than each three months of the year.

The constitution provides that the manner of participation of the various nations in the federal government of the republic shall be determined after each nation forms a "soviet republic." All local affairs are to be in the hands of local soviets who may, however, be regulated by the higher soviets.

Representatives of 46 regiments of Don Cossacks addressed the congress of soviets, promising unlimited grain in exchange for cloth, nails, implements and other manufactured products. They said the enemies of Gen. Kaledines were now in control of the Don basin and that a great coal supply was ready to be moved toward Petrograd.

British Again Heavily Bomb

German Positions in Belgium

London, Jan. 31.—The official announcement from the war office, dealing with aviation issued tonight, says: "An air raid south of Ghent, a large ammunition dump east of Roulers and railway sidings at Courtrai were heavily bombed Wednesday. "In air fighting four hostile machines were brought down by anti-aircraft gun fire. Nine of our machines are missing."

FOOD CONTROLLER MAY DEAL DRASTICALLY WITH HOARDERS

Warning Issued That Household and Others May Find Themselves in a Predicament if Spoiled Flour is Found.

Ottawa, Jan. 31.—Drastic measures against persons hoarding food are being considered by the food controller. Warning was issued tonight that householders and others may find themselves in an unenviable predicament if spoiled flour is found on their premises. A few homes have proper storage facilities, and persons who have bought large quantities of flour are liable to have it spoil on their hands next summer. The bakers, who have been in conference this week with the food controller in regard to new regulations governing their operations, have recommended that the food controller communicate with every grocer and with all retail dealers in flour in Canada, requiring from them the names and addresses of persons who have purchased more than a 50-pound bag of flour during the past month. Furthermore, it is suggested that dealers and grocers, failing to make correct returns, would have very little chance of obtaining a license under the licensing system, which will soon be extended to this trade. The recommendation adds that efforts should be made to prevent serious waste. Such action has been taken where the books of departmental stores have already been examined and summonses have been issued in hundreds of cases against persons who have been ordering food.

SAYS GERMAN PROPOSALS ARE ALL UNACCEPTABLE

Moscow Council Would Organize Socialist Army to Fight German Imperialism.

Petrograd, Wednesday, Jan. 30.—The Moscow council of workmen's and soldiers' deputies has declared the German peace proposals unacceptable and has suggested that the council of national commissioners organize a Socialist army to fight against German imperialism.

ITALIANS ADVANCE IN MORE ATTACKS

Allies Improve Positions in Mountain Region South of Asiago.

Rome, Jan. 31.—The text of the Italian official statement of today reads: "In the plateau zone, on the same scene that witnessed in the last few days the brilliant deeds of the first army, our detachments kept up yesterday their energetic thrusts south of Asiago. West of the Frenzella valley they improved their new position, advancing it a little way to the northeast of Col Del Rosso. "Our batteries here kept their fire directed behind the enemy's line, incessantly shelling troop movements there. "On the rest of the front there has been considerable artillery activity. In the Lagarina valley and between the Adige and Astico an attack by a big enemy patrol broke down on the right bank of the Adige. There was a successful raid by one of our groups on enemy trenches west of Monte Asolone, where two machine guns were captured.
