Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on Materia Medical for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, to impart tone and increased power to the heart's action."

Numerous other leading authorities represent Golden Seal as an unsurpassed solic for the muscular system in general, and as the heart is almost wholly company as an extra attraction and as the heart is almost wholly company as an extra attraction and as the heart is almost wholly company as an extra attraction and as the heart is almost wholly company as an extra attraction and as the heart is almost wholly company as an extra attraction and as the heart is almost wholly company as an extra attraction and as the heart is almost wholly company as an extra attraction and actions. resent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthered by this superb, general tonic. Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonin (medicinal principle extracted from Stone root), and is now attending to his business. However the influence of Collinsonin unquestionably affords relief in such cases, and it fearfully warned the afflicted that death was near at hand. Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigoration, strengthening the stomach, invigorable remembered here.
