few days to be in a position to remove all cars from the public streets.

Station Street Pavement.

Chairman Saunders of the Works Committee and Engineer Keating held a conference yesterday afternoon with G.T.R. Superintendent Fitzhugh and Alexander Dixon in reference to the pavement on Station-street. The committee claims that this new street, as a compensation for the closing up of York and Simcoe streets, is a failure and nothing more than a mudhole. Chairman Saunders has offered a proposition, which will be considered by the rallway representatives.

jury case against E. D. Gough, the eet west merchant, was dismissed Police Magistrate yesterday. The arose out of a civil suit over bustaings between Mr. Gough and Bols-Co. Mr. E. Boisseau was the printiness against the defendant, and gistrate decided that the perjury had not been substantiated.

Justice Overtakes Them.

BEALE STARTED THE ROW

and the Aldermen Indulged in an Inter-News From the City Hall.

The Property Committee was not deluged erhaps this was the reason that the arsert his dignity. The result was that the

sert his dignity. The result was that the green was strewn with wigs.

The matter of the alleged surplus of officials in care of the Island came up and in the course of a defense of Caretaser Kimmings, Ald. Beale insinuated that the course of the result of the course of the result of the course of the result Kimmings, Ald. Beale insinuated that the members of the committee were actuated by political motives in desiring that offi-

by political motives in desiring that officer's removal.

Ald. Scott proceeded to call the accuser down. He suggested that Ald. Beale keep quiet, and not impute motives quite so often to his colleagues. As far as he was concerned, he knew of no man at the Council Board more prone to act from personal amotives than Ald. Beale. He was not trying to make any political capital, but the work but he new City Hall totals \$3658.

Ald. Scott has received a communication from one John Macdougall, Louisville, Kentucky, recommending the international system, of sewage disposal in, connection with City Engineer Keating's proposed consultation on the matter in England.

FROM CHINA AND JAPAN.

Freshet Caused Damage of a Million Dollars—Chinese Still Beating Foreign Travelers to Death.

Crane and Sheppard at It.

At this juncture Ald. Crane asked for a Ald. Spence, Allen, Rutter, Scott, Hubbard and Woods have been appointed by the Mayor a committee to confer with Mr. Gage regarding his offer of a building for free public swimming baths.

The Mayor favors sending Engineer Keating to the convention of the Municipal Improvements Society at Nashville, Tenn.

The wage bill for the last fortnight's work on the new City Hall totals \$3658.

Ald. Scott has received a communication from one John Macdougall, Louisville, Keutucky, recommending the international system of sewage disposal in connection with City Engineer Keating's proposed consuitation on the matter in England.

At this juncture Ald. Crane asked for a hearing. The committee was about to grant it, when Ald. Sheppard would not hear of it. He had been invited to speak before the Parks and Gardens Committee at its last meeting, but Ald. Crane had been discourteous enough when he attempted to comply with the request to refuse to hear him. He thought it was due to him, as a member of the Property Committee, that Ald. Crane should be refused a hearing. The committee did not choose to vuidicate its member and Ald. Crane was about to speak when Ald. Sheppard arose to another point of order and succeeded in squelching him. The subject dropped and the four interested committeemen are mounced one another in a somewhat unparliamentary manner after the meeting.

Fleming Makes a Salc. Crane and Sheppard at It. was lower by more than a foot than those of preceding years, but, in spite of this, 100,000 people have been rendered destitute and the damage to property is estimated at about \$1,000,000.

A Chouping missionary correspondent writes: "The rumors about foreigners and Christians kidnapping children are still being circulated. and Christians kidnapping children are still being circulated.

"Last week three travelers passing through a village were set upon and teaten to death and bunied by the excited mob. Another man, living just outside the city, was accused of kidnapping, and was so frightened by the threats that he lost his reason. Several Christians have been beaten and attacks have been made upon some of our country chapels."

Assessment Commissioner Fleming reported having sold the five city cottages at Hanlan's Point to the tenants occupying them, Messrs. John Hanlan, A. Club, T. Shipway, Henry Haynes and John Alward, for \$300 each. Each buyer secured a 21 years lease of the ground, for which he paid a ground rent of 70 cents per foot on 25 feet frontage. The deal was considered a good one, and the committee recommended its ratification.

Ped. 27 Musi Move On.

Chief Grasett wrote, stating that he had issued orders to his men to "move on" the street pediars. In connection with this. Ald. Carlyle remarked that the pediars carts were a menace to the traveling public and that it would pay the storekeepers to petition the Privy Council against permitting the issuing of their licenses. A committee, composed of Ald. Sheppara, Scott, Graham and the Commissioner, will report on the matter.

On motion of Ald. Sheppard, a return will be laid on the table containing a detailed list of the arrears for rent on all city property.

list of the arrears for rent on all city property.

The committee accepted the gift of Ryrie Bros. of a gold and silver key, wherewith to formally open the new City Hall.

The Open Strect Cars.

In compliance with the order of the Council, the City Engineer has requested the Street Railway Company to call in the open cars. A steply has been received to the effect that the company fully appreciate the fact that it is time to use the closed cars and hope by the end of the week to have the change completed. They reported that out of the 115 cars now muse, 70 were closed. Regarding complaints about the cars now in make, 70 were closed.

Regarding complaints about the cars lying out on Frederick-st and of the threatened action of the city on the matter, the company also stated that they hoped in a

Washington, Sept. 23.—Mr. Hugh Deirne, Second Secretary of the British Imbassy here, has made a special report to the British Foreign Office on the American in plate industry, and it has been issued from the Foreign Office as an official docufrom the Foreign Office as an official document.

According to the report the United States tin plate industry dates practically from the passage of the McKiniey Tariff Act, at which time the American market was wholly supplied by South Wales. Mr. O'Beirne traces the gradual expansion of the Industry in this couuntry, and the use of the domestic article in place of that formerly imported from Wales. Summing up the situation for the last calendar year, he says: The position of the British export trade may thus be summed up: The Interior market was, as a whole, lost to British exporters, but the meat packers continue to use a certain number of drawback plates, and there was stil a limited consumption of British plates for certain special purposes.

ARE THEY SOLDIERS?

OF NEW STYLES FOR Japanese Passengers for Honolulu Who Moved Very Symmetrically.

San Francisco, Sept. 23.—If the stories told by the passengers and crew of the steamship City of Peking, which arrived here from Hong Kong, via Honolulu, on Tuesday evening, be true, a state of affairs exists in Hawaii which demands the attention of the State Department. When the City of Peking arrived at Honolulu the attentions of the other passengers on board that steamer was attracted by the remarkably symmetrical movements of 174 Japanese steerage passengers, who were disembarking. Although classed as laborers their well-drilled and military appearance was too palpable to escape observation. The Japanese were apparently under the command of a veteran sergeant and divided into squads of 20 under non-commissioned officers. It was generally believed that they were sent to the Islands for the purpose of forcibly resisting annexation if necessary. Moved Very Symmetrically. Boucle Cloth, throat fastening, with or without lapels, velvet under collar, \$5. Gurl Cloth, lap seams, roll collar, \$5. Curl Cloth, lap seams, roll collar, \$1. About Sprouted Wheat.

Editor World: Your article in yesterday's World says: "Farmers allege light sprouted wheat is being mixed with hard wheat." Does not this prove this wheat has lost its breadmaking properties? It not, why would millers pay 20 to 25 cents per bushel more than the wheat is worth for hard wheat to mix with it to bring back its bread-making properties, if it would make good bread without mixing this costry wheat with it. I had an order from a country miller yesterday to buy him a country miller yesterday to the Spanish cuthcrities at Yaguaramas, Province of Santa Clara. Trellez, it is added, was killed the previous night by three of his followers.
