

KEEP SONS FROM MILITIA IF CANTEENS FLOURISH

Sentiment of the W.C.T.U. as Expressed by the President in Address at Annual Meeting.

In calling attention to the fact that 23 convictions for drunkenness resulted in one military camp of 10 days this summer, Mrs. E. A. Stevens, president of the W. C. T. U., in the district convention of that body in College Street Baptist Church yesterday, questioned whether the minister of militia was really trying to obey the canteen laws or was too weak to enforce them. She approved the stand of London Methodist District, W.C.T.U., in not permitting their sons to enlist until a more rigid enforcement of the laws governing the sale of liquor in camps was assured, and advised that all the district branches should adopt the same measure. It was a step forward that the breweries had been moved to manufacturing a non-intoxicating beverage.

Touching upon the duties of women regarding temperance work, the president drew attention to an expression of Earl Grey's in addressing The Women's Canadian Club of Montreal: "If you women would shut the doors of your homes against the man who corrupts the sources of domestic and natural life in the same way that you exclude the men who cheat at cards if you would refuse your smiles to the man who hits below the belt in sports, business or politics, then the star of your city would shine with a brilliancy which would make its radiance felt, not only in Canada, but throughout the United States."

This is the 22nd annual meeting of the Toronto district body. In beginning her address Mrs. Stevens said: "It is our present privilege not alone to gather up the fruits of the last year, but the last hundred years, which might appropriately be called the century of universal progress, so mighty a force has it been in developing the world's resources, and in striving to organize the world into one united brotherhood."

In reviewing the progress of temperance, the speaker said that at the present time, more than two thirds of the United States was under strict temperance laws. In Canada, only British Columbia had not adopted local option and Prince Edward Island was now seeking federal legislation to prohibit the importation and manufacture of liquor within its boundaries.

Norway and Sweden were making great strides towards temperance, especially in the rural districts, and Finland prohibited the importation and manufacture. In England 3903 civil parishes and in Scotland 183 rural districts were without licenses. The Canadian Government had done a good work in prohibiting opium from the Pacific coast; but it was deplorable that they had shelved the anti-cigarette bill.

The report of the corresponding secretary, Mrs. F. C. Ward, showed that the total membership of the district union was 330, with an honorary membership of 140. Forty-five public meetings were held during the year and the amount of money raised in the 15 sub-unions amounted to \$1451.41.

The treasurer, Mrs. J. M. Redmond, gave the receipts of the district as \$995 and expenditure \$1000, but as some funds were still to come in the deficit would be reduced and the balance shown on the right side. The funds of the house committee were also reported, the receipts being \$978.95, against which were placed local expenditures \$415.77 grant to the Frances Willard Home \$100, deposit in the savings bank \$300, deposit for the coming season's coal \$100, and a balance of \$2218.

The election of officers will take place this morning and it is expected that several changes will be made in the personnel of the executive. For one thing, the president, Mrs. Stevens, wishes to resign. It is not known positively whether she can be prevailed upon to remain in office for another year or not; but already there are several candidates under consideration for nomination should persuasion fail.

LICENSE HOLDERS IN CONVENTION

Will Placard the Province With Poster Against Local Option.

The annual convention of the Ontario Licensed and Allied Trades Protective Association was largely attended at Victoria Hall yesterday afternoon. The president, T. P. Phalen of Oakville, was re-elected. The other officers appointed were J. Paisley, Ottawa, vice-president; W. I. Thompson, hon.-secretary, and G. J. Foy, treasurer.

Secretary Karl Schmidt reported a total membership in the association of 350.

The convention received the report of the executive on the efforts which will be made to check the local option movement. In this connection a large poster was exhibited addressed to farmers and manufacturers, dealers, insurance agents, transportation companies and wage earners. The poster states that the trade consumed in products, labor, insurance and transportation an expenditure of \$25,000,000, and that \$100,000,000 is invested in the trade. The poster contains the warning that "Prohibition added to the ranks of the unemployed."

Charles F. Bond, in connection with the local option question, read a paper on which he declared that candy and confections have sent more infants' souls to heaven than whiskey has sent drunkards to the other place. He attributed local option progress to ignorance and intolerance on the part of clergymen and the indifference of the average voter.

WHY CHINA HAS FEW TREES.

Frank N. Meyer, the scientific explorer for the Government, in his recent penetration of China, saw farms that had been under irrigation since before Columbus discovered America. To the credit of the paper press he said, all forms of plant and tree growth were cherished and encouraged around the temples. The priests gave Meyer what information they could. The extent to which forest devastation has gone in China can be inferred from the fact that the Chinese have rooted and grubbed out every vestige of tree growth the size of your finger above the graves of their revered ancestors. POLITICAL NOTES.

Herman Ridder, the new treasurer for the Democratic party, in place of Gov. Haskell, who resigned, has issued the following notice:

Wanted—Five hundred men to contribute \$1000 each to the Democratic campaign fund. Apply (with cash, money order, certified cheque, or by registered letter) to Herman Ridder, treasurer Democratic National Committee, Hoffman House, New York.

"I think," he says, "that many Democrats in the country will be willing to contribute \$1000 each. We are going to give them a chance to do so. We have five weeks of hard campaigning ahead of us and shall need money in small and large sums. We have a splendid chance to win and, with the proper munitions of war, will make the victory absolutely certain."

A Brockville special says: The political conditions in South Leeds are shaping towards a hard fight. W. C. Fredenburg of Westport, son of the late Charles Fredenburg of that village, who contested the riding several times against George Taylor, will, it

is expected, take up arms against his father's old opponent Mr. Fredenburg. It is understood, has made known his willingness to allow his name to go before the Liberal convention at Delta on Oct. 7.

Only two constituencies remain without Conservative nominees now, East Kent having been supplied yesterday. Hamilton West may be filled to-day, and will be very soon in any case. In Prescott there may be no contest, as it has been thought in some quarters that it would not be good policy to oppose Mr. Proulx, the liberal candidate.

What Will Be the Answer.

CINCINNATI, O., Sept. 30.—That he will decide the various protests and claims raised in connection with the last series of games in New York, between Chicago and New York teams strictly in connection with National League, was declared by President Harry Pulliam in a statement given to the press here to-day in answer to a published demand by President Murphy of the Chicago team, that decision be given before the end of the season. Mr. Pulliam said he would give the matter his earnest attention on his return to New York to-morrow, and would announce his decision as quickly as possible thereafter.
