THE DAWN OF NEW LIFE

THAT HAS TAKEN THE PLACE OF DRUGS.

It is for men who open their eyes in the morning upon a world that looks blue and discouraging: for men who feel tired, despondent and out of sorts; who have lost courage and ambition—those fellows who have almost concluded that nothing is worth living for—who have sworth living for—who have pains in the back and don't get rest from their sleep, and who wish that they were as strong and vigorous as they used to be.

It's all a matter of nervous energy. The reason that men or women feel that way is because the rest. It's all a matter of nervous energy. The reason that men or women feel that way is because the motive power of the body-electricity—has been in some way drained from them. My system is to give it back, and it would surprise you to see how a few on. you to see how a few ap-plications will make the

plications will make the weak, discouraged, slow-going man wake up and take a new interest in life.

Any man can understand that if every organ of the body has all the strength it requires, there will be no sickness. It is the loss of this energy that causes all the chronic complaints we have, such as Rheumatism, Lumbago, Stomach, Liver and Kidney troubles. Therefore, if, you are sick you must get back this strength and energy by using the Dr. Sanden Electric Herculex Belt. It applies the current in the right way and in the proper quantity.

and in the proper quantity.

Don't make the mistake of trying to restore nerve energy with drugs.

Electricity is the life of the body—this has been scientifically proven—so give it electricity.

My system of curing by invigorating the body with electricity is so safe, so natural and so sure that there is no excuse for any man being less a man than nature intended. It will restore your snap and energy, the old-time joyous, light-hearted spirit and the physical strength you used to have.

YOU CAN PAY WHEN CURED

If you're sceptical I'll prove it first. I'll take all the risk by letting you have the Belt on Free Trial, not to be paid for until cured. Send it back if it doesn't do the work. I guarantee my Herculex to be the best Body Battery in existence. Body Battery in existence.
