CURE FOR THE CROUP.—Take a lump of *Indigo*, the size of a *pea*, and dissolve it in a pint tumbler of luke warm water, one tea spoon-full of which the child must swallow which seldom fails to effect a speedy cure.

CURE FOR WHOOPING COUGH.—A little sweet oil with nutmeg grated over it, given twice a day to children with the whooping cough, is a certain remedy, if administered in the first stage of the complaint.

1838.—MAY begins on Tuesday; hath 31 days.

PHASES OF THE MOON.
