SUPERIOR PAINLESS DENTISTRY!

"There is a world wide cry against the dentists that they torture their patients. Those of strong physique submit and endure the agony. With a second class this is simply impossible, and thousands of teeth are neglected and lost even though the patients may be able to pay for our most skillful services. Then there is a third class who, after months of mental torture in anticipation, finally come into our hands, and with nerves strung to a hurtful point, pass through the ordeal, but at what a cost! We do not sufficiently consider the consequences of shock in the dental chair, yet undoubtedly many suffer for months and even years from injuries to the nervous system received whilst in our hands.

The greatest duty of our profession today is to discover and adopt a mode of painlessly performing our operations."

NOTE—The above is an abstract from a paper read by an eminent dentist of New York City before a society of dentists in Philadelphia.

The famous Hale Method of painless dentistry, for which we are sole agents for Canada is the best Method on earth.

With G. AMERICANS EACH GET A MOOSE, WILL COME HERE AGAIN

Prominent Florida Men Returned Home Yesterday After Hunting Trip on North Shore

Converted to the belief that New Brunswick is one of the greatest big game countries they have ever visited, Dr. W. M. Seagars, of St. Augustine, Florida, and J. P. Greaves, of Miami, Florida, left for their southern homes last evening, each bearing as a trophy of their hunt, a handsome moose head.

Dr. Seagars and Mr. Greaves arrived in St. John on Sept. 20, and, with J. J. McGaffigan, of this city, went to Bathurst, reaching there on the 21st. They drove from Bathurst over a corduroy road from the public highway to the headwaters of the Tracadie river. In addition to the three hunters the party included Frank Connors, Oliver Henry, Thadeu Duguay and Germaine Duguay, guides, as well as a driver and assistant. Four tents were carried for housing the party, and it was fortunate that waterproof material was selected, for it rained continuously for six days. The downpour, however, apparently did not dampen the ardor of the sportsmen; for Mr. Greaves, in speaking of the conditions, said they did not mind in the least.

"Our good friend, Mr. McGaffigan," he said, "had arranged everything for our hunt, so that we did not mind it in the least. We were able to go out occasionally, and the tents were as dry as if we had been in a hotel in the city."

During the time that the wet weather continued several moose came within fifty yards of the camp in response to calls from the guides. It had been intended to drive about to other sections, but the wet weather prevented this plan being carried out.

"We saw a dozen or more moose while we were there," said Mr. Greaves. "and were able to select good ones. We got two fine heads, one with an antler spread of 56 inches, and another measuring about 50 inches, we also saw plenty of deer and caribou tracks."

"It is our first visit to New Brunswick," continued Mr. Greaves, "we have always gone to Quebec before, but last year, when Mr. McGaffigan was down south he sounded the praises of New Brunswick so loudly that we decided to come here, and I am glad we did."

"One thing I would like to say is that everywhere we have been we have been treated with the utmost hospitality and kindness. Everyone we have met has been most kind." Asked if they were likely to come here again, both replied that they certainly would if they lived.

Dr. Seagars has quite a reputation as a hunter, and Mr. Greaves, as well as being a hunter, is a writer of ability. He has contributed a number of articles on big game hunting in Quebec and tarpon fishing, to several of the well-known magazines.

The party returned from the woods yesterday and the visitors left for home last evening.
