are looking for.

**More miles -
less money -**

USE the correct grade of Imperial Polarine Motor Oils
and maximum mileage from your lubrication money
is assured. You cannot buy more real lubrication
for your dollar than that which you get when you specify
Imperial Polarine.

Imperial Polarine Motor Oils coat every moving part with an oil film
which cuts down friction drag and reduces wear. They slow up de-
preciation costs and absolutely eliminate excessive repair bills and
carbon troubles. You get more real motorizing satisfaction, as well
as more miles, for less money if you use, exclusively, the correct grade
of Imperial Polarine Motor Oils.

Our Chart of Recommendations shows the grade especially suited to
your type of car. Standardize on this grade. Consult our Chart at
your dealer's. Our new booklet, "Automotive Lubrication" also con-
tains the complete Chart, besides other interesting and valuable in-
formation. Write to 55 Church Street, Toronto, for your copy.

IMPERIAL OIL LIMITED
Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

Your crank-case should be drained and cleaned at least every
thousand miles. You will get more pleasure out of your car and will
materially reduce operating costs if you employ crank-case cleaning
service regularly. Dealers displaying this sign give all crank-case
cleaning jobs prompt and expert attention. Such dealers use Imperial
Flushing Oil. It takes out all grit and dirt and does not impair the
fresh supply of oil as would be the case if kerosene (coal oil) were
used.

PAINLESS EXTRACTION Only 25c.

TELL TRUTH AND AVOID APOPLEXY

London, Oct. 19.—The most popular
meetings of the British Association at
Edinburgh were those relating to phy-
siological subjects. The large lecture
room was packed, and half the audience
were women.
Dr. H. S. Langfeldt in his study of
personality, said that extensive tests
have shown that your blood pressure
rises when you tell a lie. He added that
this peculiarity is more marked among
women than men.
The obvious inference, then is—speak
the truth and lessen the danger of
apoplexy.
A blood-curdling picture of the future
was drawn by M. O. Forster in his pre-
sidential address to the chemistry section.
"A day must dawn," he said, "when the
last ton of coal and the last gallon of oil
have been consumed."
