

FRED W. FIELD. British trade commissioner, who predicts a rapid growth of Canadian industry. He says that indications point to a much more rapid growth in the immediate future than has been obtained in the last ten years.

SCHOOL CHILDREN HAVE TO PERFORM HEALTH CHORES

More Than 5,000,000 in the U. S. Suffering from Malnutrition.

New York, Nov. 23.—The National Tuberculosis Association reported today that more than 5,000,000 school children in the United States were suffering from malnutrition.

To correct this, the association soon will put into effect an unique plan for instructing these children in correct health habits. The plan has been developed with the aid of Dr. W. R. P. Emerson, of Boston, nutrition expert. Each child will be required through his teacher and parents to submit a card indicating daily performance of all health chores. The cards read:

I washed this week on the day checked (x). Beside a good breakfast and the noon and evening meals, I ate mid-morning and afternoon lunches, as directed.

I ate only wholesome food today, including vegetables, fruit, and at least a pint of milk, as directed, and tried to eat and drink slowly.

I drank four glasses of water, some before each meal, and drank no tea, coffee, nor any injurious drinks.

I was in bed last night ten or more hours, as directed, windows open.

I rested lying down not less than 25 minutes both this forenoon and this afternoon.

I played in the fresh air today, exercising for the time and in the way directed.

I washed by hands before each meal today.

I brushed my teeth thoroughly after breakfast and after the evening meal. I took a full bath on each of the days of the week that is checked (x).

By doing these chores for five to fifteen weeks, the child becomes a squire, knight or knight baronet and is entitled to wear the insignia of the Modern Health Crusade. When he gains normal weight, he may earn advanced honors by performing standard Modern Health Crusade chores and be admitted to the Health Round Table through physical fitness tests.

SCIENCE WORKING FOR BETTER LIGHT Electric Bulbs of the Future May be Filled With Gas to Check Waste.

The description of research work and investigations which may lead to cheaper, more efficient lighting agents, occupied the attention of Professor T. C. McLennan, F. R. S., in his address on "Fluorescence and Phosphorescence," before the Royal Canadian Society in the University of Toronto Physics Building, Toronto, recently.

Drawing a parallel with waves of sound, only a fraction of whose whole number can be detected by the human ear, the speaker showed within what extremely small limits light-waves are visible to the eye and how much energy in producing light-waves of a length outside the range of vision is wasted by our present lighting facilities. It is possible that electric light bulbs of the future may contain, instead of metal filaments, minute tubes filled with a gas, through which the electric current would be passed, and whereby more efficient results might be procured. A briefly, the speaker pointed out, is an example of the most efficient illuminator, all its energies being concentrated towards producing waves of light within the range of the human eye.

A number of extremely interesting experiments, illustrating his various points, were worked out by Professor McLennan and demonstrated to the audience during the course of the lecture.

Everybody should see with equal clearness. If anyone tells you he sees clearly an object that looks blurred and indistinct to you, come to us for glasses. You need them.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

SECURE SEATS FOR "WAY DOWN EAST"

People Taking Kindly to the Week-in-Advance Booking Plan at Imperial.

Many people are taking advantage of the early opportunity afforded by the Imperial Theatre's ticket selling staff to secure choice seating for next week's remarkable engagement of D. W. Griffith's comedy-drama-spectacle, "Way Down East," famed throughout the land as a story, and more so as a play, and now considered a masterpiece in motion picture form. To explain at length the entertainment value of "Way Down East" would entail an expensive use of newspaper space, but it is felt there is no need for lengthy description. The fame of the picture is known to everybody and since the people of St. John are going to enjoy it at about half the price paid in other cities, it is anticipated the Imperial will be crowded all next week. Box office is open from ten a. m. to nine p. m., and seats may be purchased for any of the six nights of next week with reserved coupons attached. The matinees will not be reserved. Night prices: Orchestra, 50 and 75 cents; boxes, \$1; balcony, 50 and 25 cents; front two rows, 75 cents. Matinees, 25 and 50 cents.

NEW USE FOR WARSHIP. French Cruiser Makes Admirable Fish Drying Factory.

Paris, Nov. 23.—M. Albert Sarraut, French minister for the colonies, who is now at the Washington Conference, may be able, if consulted, to give useful hints as to what to do with the old battle-ships.

Just before he sailed for America he made a tour of the French West African colonies, and at Port Etienne he visited the former French cruiser Chasseloup Loubat, which now surely serves a useful purpose. Hiding at anchor in the bay, it serves as a fish drying factory. On its decks sixty tons of fish can be dried at one time.

Port Etienne is the centre of a steadily growing dried fish industry, and to the Chasseloup Loubat all fishing boats bring the cargoes to be cured and dried.

W. A. "POUND TUESDAY." Packages of all kinds and sizes were brought to the meeting of Trinity Church W. A. yesterday afternoon as it was "Pound Tuesday," when gifts of one pound of some variety of groceries were brought by each member.

The packages included pounds of tea, sugar, canned goods and other commodities. All the gifts will be sent to the Shingwick school in the northeast. Trinity W. A. each year provides an outfit for a boy in the school and sends in the name of supplies to the school. The collection of gifts received on "Pound Tuesday." Mrs. L. R. Harrison, the president, was in the chair.

Hon. Walter E. Foster, premier of New Brunswick, last evening at McAdam Junction, addressed a crowded house in the interests of Lieut-Colonel W. J. Osborne, Liberal nominee for York-Sunbury.

Taylor's

Not only in its alluring fragrance, but in its refreshing mildness, is **Infants-Delight** particularly adapted to the care of your complexion as well as baby's tender skin.

Now— IS A GOOD TIME TO BUY FURNITURE!

In furnishing a home, as in so many of life's enterprises, there is no time like the present. People who continually postpone refurnishing, waiting for a more convenient occasion, seldom profit thereby. They awake at last to find that the years are passing, never to return, and they have been missing the happiness of an artistically furnished home which could long ago have been theirs.

Your family is growing up. See that your home is what it should be while your children are with you.

Store Hours:—8.30 to 6. Open Saturday Evening Until 10

Milestones

YOUR son Billy at home, where you saw him—and probably corrected him—every day, seemed very different from Billy miles away at school. Somehow you forget now his rascally ways, his eternally grimy hands, and remember rather the frank blue eyes, the ring of boyish laughter.

Sometimes, when your wife thinks you are reading the evening paper, you are really thinking about the boy. He is how old—nearly thirteen! In fact, his birthday is due in a fortnight. He's growing up, that son of yours.

And what about the birthday? He has been begging for a watch. Why not make his dreams come true?

Can't you just see the incredulous joy in those same boyish eyes when he opens his birthday parcel, away there at school—his chums looking on—and then a shout: "O gee, fellows! Dad's sent me a watch. Gee!—It's an Elgin—that's the very best. Isn't he a dandy dad?"

GIFTS THAT LAST

HURT BETWEEN CAR AND WALL OF STATION

Passengers on Culver Line Caught on Footpath and Crushed together, Breaking Windows.

New York Times.

Six passengers on a Culver line train at the Sixteenth Street station of the Fifth Avenue elevated in Brooklyn were injured in an unusual way last night by being crushed between the train and a wall while walking on a narrow footpath just beyond the end of the station platform. They had been forced to alight there because the train came to a stop before the last car had pulled into the platform.

The motorman was George Baden of 256 Lincoln Avenue, Brooklyn. When he stopped the first and second cars were abreast of platform, but the third car was opposite the pathway. The guard between the second and third cars said he waited until he thought the passengers were all off the footpath before giving the signal to go ahead. The guard ahead said he got the signal and passed it onto the motorman.

When the train started those on the footpath, mostly elderly persons, would have been safe if they had stood still. But they became excited, moved about and were crushed together and rolled along between the train and the wall, breaking some of the windows in the last car. A guard pulled the emergency cord just after passing the station and the train waited until policemen had taken the names of the crew.

The injured were attended by Dr. Bliss of the Methodist Episcopal Hospital for cuts and bruises and then went home. They were Mrs. Mary Sica, 62 years old, of 291 Fourteenth Street, Brooklyn; Mr. and Mrs. Max Rodermacher and Peter Stein of 65 Linden Street, and Mr. and Mrs. Anthony Marano of 149 Eighth Street.

Health Tax Advocated.

Winnipeg, Nov. 23.—Provincial health taxes, similar to school taxes, should be imposed to finance schools of nursing in Manitoba, Miss S. P. Johnston, superintendent of the Grand General Hospital, advocated in a paper to the recent convention of the Manitoba Hospital Association held here. Her recommendation was endorsed by the meeting.

We have a few **GENUINE GILLETTE RAZORS** left. We are selling these for 79c. complete set. Better get one before they are gone. Also a few **DURHAM DUPLEX** left. 29c. each. See our windows.

THE CUTLERS' FEAST.

The Cutlery Company of London, who are celebrating the tercentenary of its incorporation three years hence. The Cutlery Hall, where the banquets are always held, was not built until a hundred years after the formation of the company. Built originally in 1720, and rebuilt in 1832, the banquetting chamber cost more than the rest of the hall to erect. The feast originated in the permission given by old-time lords of the manor to Sheffield's "apron-men" or working smiths, to take from the park on the neighboring moors as many deer as they could secure and comfortably carry away. After the excitement of the chase the smiths met together at a venison feast, to which the post-prandial oratory is a modern trimming.

COIN FOR CENTRAL AMERICA

Unit for New Federation Will Equal Half Dollar.

Tegucigalpa, Nov. 23.—The month unit of the Federation of Central American Republics has been fixed by decree issued by the provisional Federal Council. The coin will be of gold, equivalent in value to an American dollar. It will weigh 836 milligrams and have a fineness of 900, and be called Centro Americano.
