**FOR HUNGRY AND HOMELESS**

To the Editor of The Times,  
St. John, N. B.

Sir—There is a growing feeling in Canada that our present prosperity carries with it a great responsibility towards the millions in Europe who are faced with starvation this winter. It may therefore be of interest to say that through the Canadian Brotherhood Federation relief is being sent. The World Brotherhood Federation (with which the C. B. F. is affiliated) has undertaken the care of the half-million fatherless and orphan children in Serbia; and is also bearing 50 per cent of the expenses of the French Red Cross in supplying relief to the refugees. In September last sixty delegates from Canada and the U. S. A. to the World Brotherhood Congress in London, were invited to visit the war regions. Part of their report is as follows:—

"We saw scenes of desolation such as cannot be described. Old men, women and children are vainly attempting to begin anew their lives in the regions that the enemy has destroyed. Our hearts have bled at their dire extremity and we thank God that through the Brotherhood relief is being sent."

"We know that when more men and women from this country visit these regions they will be impelled to alleviate the suffering, but without waiting until then and before the full force of winter comes, we would request them to support the work of the Brotherhood in the places that unbrotherly enmity has laid waste."

At this Xmas season thousands of dollars are being spent in presents. May we suggest that it would be in the nature of a gift to Him who gave such gifts to men, to send a donation to help

THOS. HOWELL,  
General Secretary.  
J. O. McCAVITY,  
General Treasurer.  
Toronto, Dec. 16, '19.

Modern training pays. Get it now. MODERN BUSINESS COLLEGE, Corner Mill and Union Sts., St. John, N. B.

Nationalist party, which is the only party that has any policy today in Egypt. It is the hero of the native press, which has been slow to take full advantage of the freedom restored to it by Lord Allenby.

In a published letter, Thomas Case, the master of Corpus, Oxford, and Weymouth professor of moral philosophy, writes: "I feel confident that, if the learned men of our day will condescend to study the geometry of the Greeks, adopted and improved by Sir Isaac Newton, they will conclude that space is the all-containing extension of the spatial universe; that Professor Albert Einstein's theory of space is a delusion; because he has neglected the fact that all motion is from place to place; that his prediction and the observation of the total eclipse of May 29 have corrected Newton in an important detail concerning the deflection of light; but that neither Einstein nor anybody else has destroyed Newton's theory of space. On the contrary, his distinction between absolute and relative space is one of the achievements which have raised him to the eminence which he has long deserved in the history of science."

On the contrary, his distinction between absolute and relative space is one of the achievements which have raised him to the eminence which he has long deserved in the history of science."
