Wall Street Notes.
 New York, April 27—London comes 1 1/2 to 5/8 lower on active, with Reading 1 1/2 lower.
 Banks will come out about even on the week's cash movement. The loans and deposits will govern the bank statement. Engineers' conference continues, both sides hopeful.
 Taft and Roosevelt continue to hammer one another.
 Dun's says the recent improvement in trade is fully maintained.
 The supreme court will meet next Monday.
 Talk of a coal trust decision is heard and it may have some effect on the coalers.
 Reading had such an advance yesterday that a reaction is always in order. On a reaction it is a purchase.
 U. P. has met stock on the strong spots for some time, but the buying has been just as persistent, only not aggressive, simply taking the stock offered. The pools in the smaller industrial stocks are busy, they have no trouble to get their money. Reports from business are good and in many cases the railroads cannot furnish cars to transport the articles. A practical settlement of the labor disputes will further encourage big business. Market still looks a purchase on recessions. American sugar looks good, but it is a quick action.
 Canadian Steel Shares.
 Montreal, April 27—There ought soon to be a broader and stronger market for Canadian Steel shares, particularly Dominion Steel, in view of improved conditions. With respect to Dominion there is no doubt the successful disposal of financing problems has strengthened the technical position of the stock. In addition to that, the general improvement in the steel trade

Kellogg's is the flaked sweet hearts of the finest corn that grows. Such corn, of course, costs us more to use. Its product, however, costs you no more than ordinary cereals do. But think how much it adds to your enjoyment of the flavor.

is reassuring. Last year all Canadian steel producers felt keenly the cut rates they had to meet from the United States, where the trade was at low ebb. The most annual statements in this company ought to reflect in no measure way the turning of the tide. Prices in the United States are slowly but steadily advancing and the clearing up of the clouded political situation will no doubt see further improvement.

With an abatement of rate cutting, leaving out of account altogether possible tariff treatment, steel companies ought to do much better this year. It may be a little early yet to discount this, but it will come in due course.

To those who fear that R. & O. will miss its customary pre-anniversary opening rise, it may be pointed out that there is yet time, if precedents count for anything. In 1901 the rise did not materialize until June, and in 1908 it came in May. In 1907 and 1910 on the other hand, there was no rise at all. If history is to repeat itself it will be interesting to watch which of three expedients will be followed.

REID.

REAL ESTATE NEWS

A very attractive residential subdivision is being laid out, under the name of Carlton Place, on Lancaster Heights overlooking the river. The property has a good frontage on Prince street extension and runs back towards the river with sufficient slope to give good drainage. The location, with a splendid view of the river, the bridges, the harbor and the city, makes the location attractive and the improvements which are to be made to the property will add materially to its attractions.

Allison & Thomas, the owners of the property, announces that they are planning to do everything that is necessary to make the lots ready for the best type of residences with all modern conveniences. Through the middle of the property from the street to the river runs a broad avenue which will be bordered by a massive similar to German street with gravel road, concrete sidewalk and curb and ornamental grass plots. This avenue leads to the river front where a stretch of land has been reserved for use in common by the residents. The approach to the property will be through a dignified entrance with artistic gate posts and access is given to all lots from the rear by means of twelve foot lanes. Electric lights will be installed at the entrance and water or sewerage facilities will be laid throughout the property.

The lots are thirty five and forty feet in width and of good depth. They will be sold under restrictions which will guarantee purchasers that their property will not be depreciated in value through the erection of undesirable buildings in the vicinity. The property now has double street car tracks passing it and when the bridge is built it will be on the main line within a few minutes run of the center part of the city. The lots will be placed on the market next week.

DALHOUSIE FORWARD MOVEMENT
 Halifax Chronicle—The encouraging outlook for a greater and more dignified home for Dalhousie was outlined yesterday in the address of Mr. G. S. Campbell, chairman of the Board of Governors, at the annual Convocation of Dalhousie University held in the Academy of Music. "Halifax has not disappointed us," said Mr. Campbell. "In ten days we received promises of support amounting to \$1,000. There is every reason to believe that the time is ripe for an organized campaign in operation the \$400,000 needed to build up the future home of Dalhousie would be acquired."

JOHN MCCONNELL
 The death of John McConnell took place at the residence of his son, John McConnell, Jr., 112 Britain street yesterday. He leaves one son, John and one daughter, Mrs. Edward Ross, both of this city.
