Representative and Champion of American North Bratish and Mercantile Art Taste. PROSPFCTUS FOR 1875---EIGHTH YEAR. THE ALDINE,

THE ART JOURNAL OF AMERICA, ISSUED MONTHLY.

A MAGNIFICENT CONCEPTION, WONDER-FULLY CARRIED OUT."

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably spece of the people of America to the claims of egh art. So soon as a proper appreciation of the want and an ability to mert it were shown, the public at once rallied with with a state of the source siarm to its support, and the result was a great

rustic and commercial triumph-THE ALDINE, vicioity. THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant mi-collary of pure, light, and gracoful literature; and a collection of pictures, the rareatiep-cimen of artistic skill, in black and white Although each succeeding pum ber affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the and of the year. While other publications may claim superior cheapuess, as compared with rivals of a similar cla-s THE ALDINE is anique and original conception-alone and un approached-absolutely without competition in price or character. The possessor of a com plete volume can not duplicate the quantity of tine paper and engravings in any other shape nes its cu-t uber of volumes for ten til and then, there is the chromo, besides !

The national feature of THE ALDINE D.W. be taken in no narrow sense. Thue art is cos mopelitan. While THE ALDINE is a strictly American institution, it does not confine itse estirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative art tatle, exe that will discriminate only of ground of intrinsic m-rit. Thus, while plac-ing before the patrons of THE ALDINE, as a leading characteristic, the productions of the mate and American articles attention will most noted American artists, attention wi always be given to specimens from foreign maslers

The artistic illustration of American'scen ery, or iginal with THE ALDINE, is an import feature, and its magnificent plates are o a size more appropriate to the satisfactory treatment of details than can be afforded by any infatier page. The judicious intersper sion of landscape, marine, fibure, and anima subjects, sustain an unabated interest, imposi where the cope of the work confines the stist toe closely to a single style of subject the literature of THE ALDINE is a light and craceful accompaniment, worthy of the artistic entures, with only such technical disquisitions as do not interfere with the popular interest of the work.

PREMIUM FOR 1875. Every subscriber for 1875 will rec ive a beautiful portrait, in all colors, of the same ne-ble dog whose picture in a former issue attract ad so much attention.

"MAN'S UNSELFISH FRIEND" will be welcome in every home. Everybody loves such a dog, and the portrait is executed so true to the life, that it seems the veritable

presence of the minal itself. Besides the chromo, every advance sub-cri ber to The Aldine for 1875 is constituted a member, and entitled to all the privileges of THE ALDINE ART UNION.
