"PROSPERITY IS AMAZING"

Pres. Brown of the New York Central Comments On Great Yield of Agricultural Crops.

New York, N. Y., July 23.—At a meeting of New York Central directors today, Pres. W. C. Brown, who had just returned from a western trip, said:—

"The crops this year will be enormous both in yield and in value. The agricultural prosperity of the country is amazing. The farmer will receive a greater return for his product than ever before."

"I went to my boyhood home in Iowa and found there that the farmers are receiving \$1.20 a bushel for their wheat at their nearest railway station, 65 cents a bushel for their corn, and 7 cents a pound for their cattle on the hoof. This is unprecedented and means unprecedented prosperity."

Senator Depew, who came over from Washington to attend the meeting, said:—

"The farmer is the rich man of the country today. He never before enjoyed such high prices for his product or was blessed with such bountiful crops. I judge the progress of prosperity by railroad receipts. For the past two months the receipts have been 25 per cent better than last year and equal to those of 1907. The great crops will tax the capacity of the roads, but they are in better condition to meet them than ever before. In answer to questions about New York city terminals, Senator Depew said: "The New Haven road has definitely abandoned the idea of entering New York by the roundabout way of Long Island and will continue to make the Grand Central station its terminal."

VERDI A REAL ENOUGH ARGOSY

8,000,000 or More of Gold Going On Her Bound for Argentina.

New York, July 22.—By the Verdi, sailing today for Buenos Ayres, will go away from New York more gold than ever went at once before from this port to South America. The shipment of \$8,000,000 was arranged for up to last night and it is possible that that amount will be increased by noon, the hour at which the Verdi sails. It is very seldom that so much gold leaves the country at once even to Europe. In all, including today's consignment, \$38,750,000 has gone to Argentina from New York since the first of the year.

The National City Bank sends today \$2,225,000; Heidelberg, Ickelheimer & Co., \$1,500,000; National Bank of Commerce, \$1,500,000; Speyer & Co., \$1,000,000; Kidder, Peabody & Co., \$1,250,000; and the Anglo-South American Bank, \$500,000. Of the National City Bank's shipment \$1,000,000 is by Louis Dreyfus of the Produce Exchange.

The engagements made yesterday were \$500,000 by the Bank of Commerce, \$250,000 by the Anglo-South American Bank and \$500,000 by Louis Dreyfus.

FALL OF CLEMENCEAU WILL NOT AFFECT CANADA'S TRADE

Those In Touch With France State That Most Likely Successors To Late Premier Are All Friendly—Hebrette Bergevin Talks.

"The fall of the Clemenceau government will cause a general feeling of regret among Canadian people because the premier and his cabinet have always been very good friends of the Canadians, and also because they have constantly patronized any movement that was created to bring about closer relations between the two countries. Such is the opinion, says the Montreal Star, of Mr. Archille Bergevin, ex-M.L.A., for Beauharnois, who crossed the ocean several times on special business for the Dominion Government. Mr. Bergevin was reticent as to the nature of the missions which he was interested in, and which brought him in close connection with the members of the Clemenceau ministry, but it is known, through Mr. Hebert's last year's speech at the banquet tendered to him in Montreal, that they had much to do with the Franco-Canadian treaty and other important financial questions. "It is true," said Mr. Bergevin, "that

Mr. Clemenceau has done much towards bringing in closer touch Canada and France, and the reward just granted Mr. d'Allemagne, former French Consul in Montreal, is a proof that the French government has greatly appreciated the services rendered by its representative here, with the active co-operation of Mr. Hebert, the great friend of Canada in Paris. "But should Mr. Delcasse, one of the most popular as well as one of the ablest French statesmen, take the reins of power, the situation would remain the same, for he, too, is one of Canada's sincerest friends. Now that the impulse is given, nothing will stop our friendly and ever-increasing commercial relations with France. French capital is coming to Canada, and millions will be invested in our enterprises. The great cause of the strange feeling now existing between Canada and France on one side and Germany on the other, is due to the fact that the latter country is endeavoring without success to get the biggest share of the Canadian trade."

THAW THE PICTURE OF A TYRANT

So Declares Aged Mother In Booklet Recently Published Her History of the Celebrated Case.

New York, July 22.—Mary Cooper Thaw, mother of Harry K. Thaw, slayer of Stanford White and now in the White Plains, N. Y., jail awaiting a ruling as to his mental competence, yesterday issued a booklet in which she attacks District Attorney Jerome, criticizes insanity experts and calls Justice Dowling, who presided at the last trial a tyrant. She says:— "When I returned from Europe in July 1906, I found a cowardly combination made up of men of professional standing, together with disappointed blackmailers, perjurers and others, all working in the interests of the very rich companions of Stanford White to prevent a trial which they feared would result in exposure. "They set to work to blacken the reputation of my son, an average young man with a chivalrous nature, as shown by his attempt to break up these disreputable places. Then something never before known in any trial, the entire family—living and dead—was attacked by slanders and falsehoods. The influence at that time was tremendously strong. They pretended that my son had delusions regarding Stanford White and his companions and the places he called home. "Young girls were lured by their Oriental magnificence into these dens. White searched for victims untouched by viciousness and the holiness of his crimes was that a child whose confidence he had won under the pretext of parental interest, was as a rule, hopelessly lost. "What an outcry such a sentence would create throughout civilized Europe and throughout free America. There could be no denunciation too severe for a Russian judge who pronounced it. There could be found no villainous and the holiness of his crimes was that a child whose confidence he had won under the pretext of parental interest, was as a rule, hopelessly lost. "What an outcry such a sentence would create throughout civilized Europe and throughout free America. There could be found no villainous and the holiness of his crimes was that a child whose confidence he had won under the pretext of parental interest, was as a rule, hopelessly lost."

BRIAND MAY BE PREMIER

One of Puppets—Few Regrets For His Downfall.

PARIS, July 22.—Everybody is busy cabinet making, the most favorite form being the reconstruction of old materials of the present cabinet, with M. Briand as premier. This would accord with M. Clemenceau's view of his defeat, that it was a personal incident, not marking disapproval of the ministry's policy. In support of this view he could plead that the Ministerial policy received a vote of confidence, 333 to 151, on Thursday last, or less than a week before the fall of the cabinet. It would undoubtedly appeal to M. Clemenceau's sardonic spirit to see his colleague attempt to play "Hamlet" with the piece of Denmark, for outside of M. Briand they are little more than puppets, successful only when, like M. Pichon, Minister of Foreign Affairs, they act under the chief's direct inspiration. One of the most successful scenes in a music hall review this season has been a representation of a Cabinet meeting with the chief actor made up as M. Clemenceau. The other Ministers are acted by little boys, all made up as Clemenceaus.

There may be some who regret M. Clemenceau's fall, but they are not heard from. Even his strongest supporters disapprove of the tone he employed last night, feeling that if the events that led to the Algeiras conference were a humiliation it serves no good purpose to revive and perpetuate that humiliation. After all the Algeiras convention has been the keystone of France's policy in Morocco, and France appealed to it as justifying every step she took. Those who rejoice at the downfall of the Government are making their satisfaction very evident. The General Confederation of Labor and the postal employees are very much elated. The offices of Humanite are illuminated tonight with red lanterns. The financial world is delighted at the possibility of getting rid of M. Caillaux, Minister of Finance, and his taxation schemes.

BRADSTREET ON CANADIAN TRADE OF WEEK

(By Associated Press). New York, July 23.—Bradstreet's state of trade-to-morrow will say of conditions in Canada: Orders for furniture and other goods are good; travelers are meeting with a much better inquiry and there is an optimistic feeling in all lines. For all of this good crop prospects are largely responsible. Business failures for the week ending with Thursday number 24 as compared with 24 in the corresponding week of 1908.

King's County Probate Court. Judge McIntyre held two sittings of the Kings County Probate Court during the past week.

The estate of the late Mr. Joshua Prescott was in court. It proved to be one of the most valuable properties under review for some time. The valuation was placed at \$42,000, real and personal. Letters of administration were granted to Mr. Jesse T. and Randall Prescott, sons of testator.

In the matter of the estate of the late Mr. Richard W. Stockton, letters of administration were granted to Mr. Duncan Stockton. The property is valued at \$15,000, of which \$750 is life insurance.

In the matter of the estate of the late Mr. Charles Oates, the passing of accounts engaged the attention of the court. The claims totalled some \$1,600, and the estate will pay about 30 or 35 cents on the dollar.

Walk On Velvet

YOU can experience this feeling by wearing VELVET RUBBER HEELS

Velvet Rubber Heels are made of the finest, lightest weight, longest wearing rubber obtainable. Many people mistakenly think rubber heels an "advertising fake." Some are,—being made of 9-10th adulteration and 1-10th rubber and sold at a very low price.

VELVET RUBBER HEELS sell at 50c. a pair attached to your shoes, or 30c. and you can get them attached. They wear far better than leather, make walking easy and avert the tiresome jar that hard heels and hard sidewalks combine to make.
