Million Tons Grain Russia's Real Need

Albert Johnson, Hoover Aid,
to Appeal to Congress.

St. John, Oct. 4.—Albert A. Johnson, director of the New York State Institute, who was a member of the Near East Relief Commission, and one of a commission appointed by Secretary Hoover to investigate conditions in Russia, intends to ask the United States Congress to take immediate steps to send into Russia 1,000,000 tons of grain and one grain for planting as the sole solution of Russia's famine problem.

Mr. Johnson today confirmed the tales of suffering as described by the New York Herald correspondent, who has just returned from Russia. "We consider that American relief probably will cost \$10,000,000," said Mr. Johnson, "but it is imperative that the American people lend aid quickly, as otherwise the hunger maddened drift will sweep westward. In Russia I saw two classes of starving people, those who had their life and spirit crushed out of them by the steady process of undernourishment, and those who had managed to find food enough to keep up their strength and are prepared to fight rather than to succumb to the famine."

"Many of these no doubt have swollen the guerrilla bands still inhabiting the Caucasus—remnants of the forces abandoned by Wrangle, Denekine and Kaitchak—and it is this class of homeless Russians that Europe may be called upon to deal with at first hand unless something is done immediately."

Provincial Gov't In Session

Special to The Standard.

Fredericton, N. B., Oct. 4.—The regular monthly meeting of the Provincial Government opened here tonight. The usual attached persons are in the city and others who are not usually here at the time of a meeting have made a point of being here this time. It is probably that the shakedown, which will attend a federal general election, will be more definitely outlined after the present meeting. Premier Foster and some other members of the executive did not arrive until fairly late tonight and the session was not a lengthy one.

MUNICIPAL COUNCIL CONDUCTED IMPORTANT BUSINESS YESTERDAY

Authorized Several Advances to Lancaster—County Hospital Commissioners to Pool Balances for Year—Ordered Cost of Plan for East St. John to be Assessed Against Simonds.

The municipal council yesterday authorized several advances to the Parish of Lancaster, allowed the County Hospital Commissioners to pool their balances for the year and authorized a credit of \$3,000 to that institution, ordered the \$500 which the plan for sewers at East St. John be assessed against the Parish of Simonds; heard Sheriff Wilson in connection with his responsibility in connection with janitor services for the necessary advances themselves as the commissioners of the hospital had no legal right to borrow. No action was taken.

County Hospital.

H. B. Schofield and Dr. H. A. Farris appeared on behalf of the St. John County Hospital and asked that the institution be allowed to pool its balances for the year, as there was an overexpenditure on some items, and under in others but would come out about even on the whole. They also asked for a credit of \$3,000 on next year to purchase coal with. Both requests were granted.

A resolution from the New Brunswick Union of Municipalities asking the mayor and council of any city, or the warden of any municipality to appoint a committee and the provincial government to appoint a provincial committee to deal with unemployment was read and on motion endorsed by the council, and the warden authorized to name a committee. He announced that he would name one later.

Council and Sheriff.

The county secretary presented the following report re the council and the sheriff:

"At the meeting of the council held on the 19th day of July last, it was ordered that all orders concerning the office of Sheriff be submitted to the council in writing. It was further ordered that the information directed to be prepared in connection with the office of the Sheriff be brought down to the finance committee and when the information is supplied the finance committee, that committee have power to act on the bills incurred by the Sheriff and now before the council."

"The two resolutions referred to arose out of the fact that the sheriff had incurred indebtedness for making necessary repairs to the jail. The chairman to the buildings committee having declined to initial the bills, the council directed to this work, the Sheriff should do so."

Council desired to know if the Sheriff has power to expend on the upkeep of the jail without reference to the council.

"I have gone through the minutes of the council and the old court of Quarter Sessions, and I find nothing touching the duties of Sheriff, except the character and quantity of food the Sheriff is to allow those in his custody. Under the provisions of the Act of Assembly of 1912, chapter 6, section 55, sub-section 27, the council is empowered to make by-laws for the regulation and management of the work house and jail, but no regulations have been made except the one which I referred to—relating to food."

The finance committee, during the term of Sheriff DeForest, authorized him to call for tenders for the supply of coal for the jail, registry office and court house, and this the Sheriff has been doing. Previous to 1919, the Sheriff was allowed a lump sum for the maintenance of the jail, but in that year the matter of payment for supplies for the jail was taken out of the hands of the Sheriff and placed with the county treasurer. All in indebtedness now incurred for the maintenance of the county jail is paid from the county treasurer's office. The lump sum previously set apart for the Sheriff covered the ordinary repairs to the jail as well as coal and the food supplied to those under the Sheriff's care.

"The county has not exercised its power to make by-laws for the regulation and management of the work house and jail, except for a time, when prisoners were maintained at hard labor outside the jail, and then the nature of the 'hard labor' set for prisoners was not defined."

"I think it is the duty of the Sheriff to see that the jail is sufficiently maintained to guard against escapes and that sufficient food be supplied the prisoners, and the failure of the council to attend to this work, the Sheriff should do so."

The Harvesting And Storage of Vegetables

With Proper Arrangements
Stocks Laid in Now Will
Carry Fresh Thru Winter.

Plans should be made to furnish the winter with reasonable supply of vegetables during the greater part of the winter and, in fact, well into the spring. A very little extra care would make possible a supply for a very much longer period than is usually the case. A cool storage place is of first importance, for no matter what care is given to harvesting, if a warm, dry place is used the result cannot be satisfactory. The cellar is usually the greatest handicap to successful storage unless provision is made to set a section of the cellar for storage purposes. This is easily done by putting up a tight partition providing ventilation. A cellar window covered with cotton in the most satisfactory for such a room as it permits of light and allows a free circulation of air. Provision may be made as well as the cellar window, the inside and can be closed during nights or partially closed if the weather is moderate, a temperature of close to 32 degrees being best. This with very little attention will give excellent storage conditions.

The root crops such as carrots, beets, parsnips and salsify, are best stored in barrels and may be covered with soil or straw after the barrel is filled, or sawdust may be used. This covering prevents evaporation and keeps the roots fresh. It is well to circulate dry air by the middle of October as severe frosts may injure the beets. A row of parsnips may be left for spring digging.

Cabbage may be pulled and tied roots up the ceiling or laid two layers deep on shelves with roots up. The room should be cool and airy and the roots gathered without bruising. They should be examined occasionally and the decayed leaves removed. Cabbage may be carried all winter under such conditions. Cauliflower, if pulled and the leaves tied over the heads and hung up in a cool cellar, may be carried satisfactorily for some time.

Celery should be in, in addition to an airy, cool cellar, a supply of moisture at the roots to prevent the plants from drying out. If the air is overcharged with moisture the foliage will rapidly go down with decay, but if the air is dry this will not happen. It is necessary, therefore, to have a good circulation of the air to supply moisture to the soil in which the roots are packed. The plants are dug with the roots and packed upright in damp sand covering the roots nicely and leaving the plants clear of the soil. Beds not more than two or three feet wide with a space a foot wide for watering if necessary. If the sand becomes dry, dampen it along the side of the bed between the rows. It will work through the sand. Do not water on the plants as the foliage should always remain dry. Care in handling when packing is important as broken stems will rot very rapidly. Store toward the end of October when plants are dry and before severe frost. Brussels sprouts may be handled in a similar way.

Onions like a cool, dry cellar. Staked shelves with a free circulation of air and the onions piled not more than six to eight inches deep will be the most satisfactory. A shelf with a fine chicken fence netting bottom is one of the best ways to carry this crop in a cellar. The bulbs should be well matured by allowing to thoroughly dry and cure before storage. Under such conditions this vegetable can be carried to spring without loss.

Squash and pumpkin carry best in a warm room. If the air is damp, decay is likely to result. If the temperature is warm the outer shell hardens and decay is less likely to result. A room through which a stove pipe runs serves well for this vegetable. Use brook care in handling and store the fruit. Well matured fruit should be selected for storage. It is not a good plan to store more than one tier deep. This crop should be harvested before frost.

Summer Visitors Desert Campobello

Campobello, Char. Co., N. B., Oct. 3.—The summer visitors have very nearly all departed, after spending a very pleasant and dry season here. Those to depart during the past week were of the Merrimack and Johnston cottage. A valuable find in the woods by a young hunter was strictly a tiger from those cottage during the winter months when broken into. Identification and particulars to be had later.

Miss Hazel Calder, Miss Mary Mitchell and Mr. Sidney Harvey attended the Teachers' Institute held at Saint George, N. B., on Wednesday, Thursday and Friday of last week.

Rev. J. D. Corey preached a very interesting address to the church on Sunday, after three years of successful work among them. It is with regret to his parishioners here that his resignation for a new field of labor owing to poor health taken effect.

Miss Anna Mitchell left for New York on Thursday, after a visit at her home here.

Mr. James Alexander will enter Wolfville, N. B., during the week, after a short visit at his home here during which time he supplied the Anglican pulpit, in the absence of Rev. R. Bacon, who is at his home at Richibucto, N. B., for a short visit.

Howat in Prison; Miners Talk Strike

Kansas Leader and Aid Must
Serve Six Months for Call-
ing Men Out.

Columbus, Kan., Oct. 4.—Alexander M. Howat, president of the Kansas Mine Workers' Union, and August Dorchy, vice-president, went to the Cherokee county jail today to begin serving sentences of six months each for violating the criminal section of the Kansas Industrial Court law by calling a strike.

Announcement was made tonight that the Kansas Mine Workers Union membership would meet Sunday at Franklin to discuss a voluntary strike throughout the field.

Announcement also was made that no strike vote was taken, but that it was expected the meeting Sunday would reflect the views held in the field on Howat's and Dorchy's imprisonment.

The two men went to jail after they had appeared in court and declined to furnish bond of \$100 each that they would call no more strikes in the Kansas coal fields. The proceedings were witnessed by hundreds of miners from all parts of the district. There was no demonstration as the two men were taken in custody by Sheriff William Harvey, who took them out by a side entrance to avoid the crowd.

Before going to the courtroom Howat addressed the crowd of miners, denouncing Gov. Henry J. Allen and the industrial court, and speaking at length in condemnation of John L. Lewis, president of the international union. He charged Lewis and his administration with responsibility for an adverse vote by the international convention at Indianapolis this week in the matter of two strikes called by Howat.

The mine leader asserted that the international organization constantly had sought to interfere in the affairs of the Kansas district, and said emphatically that he never would order the men in the two mines back to work as was directed by the Indianapolis convention.

"I suffer expulsion from office and the union before I'll order these men back to work except under the old conditions," Howat said. "The international convention should never have bothered with that row. Lewis wanted to humiliate me, so he dragged me into the convention. We are not putting the men back to work."

Miners and operators are awaiting with interest the attitude of the international organization in the event the men on strike are not ordered back to work. In most quarters it was said the international union probably would take charge of the Kansas district. With Howat and Dorchy in jail, Thomas Shannon, secretary-treasurer, is the ranking union official in the State. Harvey now is attending the Indianapolis convention. He is regarded as an opponent of Howat's policies.

Obituary

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you will find a treatment which is both quick and thorough.

Mr. C. E. Raymuns, Lindale, Alta., writes:—

"I was a great sufferer from kidney disease and lame back for more than a year. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and acting upon his advice I tried them. After I had taken one box I felt better, so I continued and I had used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box. All dealers, or Edmondson, Bates & Co., Ltd., Toronto.
