Insure Better Belt Traction

The adhesion of a belt on a Dodge Wood-Split Pulley is greater than the adhesion on a metal pulley at equal belt tension. The reason is that there is less belt slippage over the wooden surface than over the metal surface.

Then there also is less weight friction because the Dodge Wood-Split Pulley is so much lighter and so much better balanced. It may be run at high speeds without heating.

The interchangeable banking system makes it adaptable to any standard shafting.

It is a mighty good all-round standard service pulley that will meet the demands of all ordinary—and most extraordinary—shop practice. In addition to which it costs less to buy.

Try a few Dodge Wood-Split Pulleys in your plant. They will justify your investment.

Best Value the World Produces

Here is a new British grown tea—a wonderful blend, of the finest varieties, grown in the hill gardens of Ceylon, 6,000 feet above sea level. You will be captivated by its exquisite flavor. And by its delicious bouquet and rich sparkling color.

The name of this new tea is Lanka—it comes in the handsome striking package shown in this illustration.

It is for sale by leading dealers who welcome the opportunity to supply their customers with this supreme tea quality.

The price is only 75 cents a pound, because Lanka is imported by the direct water route with a consequent saving of freight charges and duty.

Buy Lanka tea today—try Lanka tea today—it will be a revelation in tea quality. It combines the two essentials of tea perfection. The finest possible grades of tea, exquisitely blended.

Remember the name, remember the package, remember to ask for Lanka, today. Don't wait to enjoy the finest tea that British possessions can produce.

Imported and packed by WM. BRAID & COMPANY, Vancouver, Canada
